THE ECONOMIC MOLLUSCA OF ACADIA,

BY

W. F. GANONG, A. M., Instructor in Harvard University.

THIS work describes all species of Mollusca of use or injury to man and his works, which occur upon the shores of the Maritime Provinces. It is equally good for Quebec, Newfoundland and Maine. Some thirty species are fully described, with accounts of their habits, distribution, etc., and excellent cuts are given of over twenty of them. Originally published in Bulletin No. VIII, of the Natural History Society of New Brunswick, it has been reprinted, handsomely bound in cloth; the price has been put very low, in order that this publication of the Society may be widely introduced and made generally useful.
