

Motions for Papers

sion. As hon. members can see, it is rather voluminous and it would be more expedient to deal with it as an order for return. The second question is a question from the hon. member for Saskatoon-Biggar (Mr. Hnatyshyn) dealing with an inquiry having to do with classification officers in penitentiaries. It, as well, involves a rather lengthy and detailed answer, and that is why we suggested it be dealt with in this particular manner.

Mr. Speaker: Is it the pleasure of the House that the questions referred to, Nos. 436 and 617, be deemed to have been made orders for returns?

Some hon. Members: Agreed.

Question No. 617—**Mr. Alexander:**

1. How many claimants receiving unemployment insurance benefits in (a) 1975 (b) 1976 to date, by month, province and sex, had (i) an eight (ii) a nine (iii) a ten (iv) an eleven (v) a twelve week attachment to the labour force previous to their applications for benefits?

2. For each category, what percentage of the total unemployment insurance recipients did these applicants represent?

Return Tabled.

[English]

Mr. Speaker: Order, please. Before leaving questions it may be worth while bringing to the attention of the House again what the opposition House leader has just requested. This involves information which has been requested on a number of occasions in the past regarding an application for the House's permission to table orders for returns. Indeed, in light of representations that have been made in the past, it might very well be preferable if the parliamentary secretary would inform the House leaders of his intention to seek this permission of the House on future occasions.

Mr. Goodale: Mr. Speaker, I would ask that the remaining questions be allowed to stand.
