

RAILWAY GRANTED LEAVE TO APPEAL

Company Not Satisfied With Decision of Ontario Municipal Board.

PLACED IN LIQUIDATION

Martin International Trap Rock Concern Was Wound Up Yesterday.

On the application of E. C. Cattanach the appellate division at Osgoode Hall yesterday granted the Hamilton, Guelph and Beamsville Railway Co. leave to appeal from the decision of the Ontario Railway and Municipal Board on the question as to whether the Dominion of Canada, after having once declared a railway for the general advantage of Canada, can withdraw that declaration. The Ontario Board ordered the railway to place certain conveniences in their cars and at their stations. Counsel pointed out that the road which crosses the Grand Trunk Railway does not come under the supervision and control of the provincial authorities. The matter will be argued on appeal.

Mr. Justice Clute has granted an order winding up the Martin International Trap Rock Co., on the petition of Alyn Bros. of Bruce County, creditors for \$248,000. The company was incorporated in December, 1913, with a capital of \$500,000. Over \$440,000 was expended for equipment and bonds amounting to \$390,000 were issued of which \$76,000 were sold and \$14,000 turned over as collateral security to the creditors.

An echo of the disaster which befel the Empress of Ireland was heard yesterday when the Merchant Trust Co. applied to the master in chambers for an order declaring that the proceeds of the policy of insurance on the life of Walter Woodard, who with his wife and child, lost his life in the wreck, should form part of the estate.

SHORTAGE OF SHELLS HAS BEEN EXAGGERATED

Post Correspondent Says British Artillery is Doing Splendid Work.

LONDON, May 28.—A correspondent of The London Morning Post telegraphs from the north of France as follows:

"I have made it my business to make particular inquiries as to the actual state of matters regarding the shell supply. I am assured from a number of reliable sources that our artillery is doing magnificently, and that, while we certainly require high explosive shells in ever-increasing quantities, the situation in respect of this has been altogether exaggerated in some quarters."

"To quote an expression, we are 'dynamiting our way thru the German defences much in the same way as the French are. We are blowing parapets to bits and doing it rapidly and well."

"I find among our soldiers widespread indignation in respect of the attacks upon Lord Kitchener."
