* After each noun in the Vocabularies will be given, first, the genitive ending, which will enable the pupil readily to decline the noun throughout according to previous paradigms; and, secondly, the appropriate form of the article to mark the gender: thus, ἥς after ἐπιστολή and ας after γέφυρα show that these nouns are declined respectively like νίκη and πείρα; while ἡ, the feminine form of the article appended to each, shows that they are feminine.
