HAMILTON TO GO AHEAD AND BUILD POWER PLANT

An Expert Will Report on Its Cost—Taking Advantage of Hydro Power.

HAMILTON, Jan. 30.—(Special.)—At the meeting of the city council tonight, on motion of Ald. Clark and Wallace, the following resolution was adopted: "That the board of control take up, as soon as possible, the consideration of the matter of establishing a power distribution plant with a view of securing an expert to report on the cost of such a plant, so that its administration may be enabled at the earliest possible time to empower the council to take advantage of the reduced power lighting rate promised by the hydro-electric commission."

Ald. Clark said he had been in doubt for some time whether the people were really desirous for hydro-power, but the vote at the last election dispelled all doubts. He thought that the citizens should now have what they asked for, and as it would take some time to ascertain just what a distribution plant would cost, he thought the council ought to be ready to act when the time arrived.

Ald. Wallace expressed similar views. No conflict of authority. The point was raised by the Foreman. Wallace was doing the work that James Weeden was recommended by the board of control to do, but it was explained that such was not the case, and that the two men would not conflict. The appointment of Mr. Weeden as general foreman was therefore confirmed.

Mayor Lees stole a march on Ald. Wallace when he addressed the council, he said that the board of control had no desire to overrule any of the committees, but that it wishes to work in harmony with the other members of the council.

Will Aid Fruit-Growers. About 75 fruit growers from the Niagara district appeared before the council, and they were assured that nothing could be done until the people voted the money. The application to the legislature for permission to do so will be made.

GRAFT INVESTIGATOR HIMSELF INVESTIGATED

Continued From Page 1. the liberty of saying that Mr. Buchanan and myself had come to an agreement.

"No, nothing." "Then, there was mighty little doing as far as you are concerned, except to circulate rumors." "No, I'm satisfied."

Why the Difference? "You had only to pay \$126 in June; why did you draw out \$300?" "Got the receipts?" "No."

Quite Satisfied. At this point the crown called all the other members of the committee that demanded the investigation and asked them if they were satisfied, or if they could suggest anything further that required looking into.

Dr. Confield, one of the directors of the road company, said he remembered something being said at a meeting about a \$600 cheque, and he thought it was Dowler, who had said nothing should be said of it, as it might upset the deal.

AT THE THEATRES

At the Royal Alexandra

Edward Terry in "Sweet Lavender." To commend Edward Terry to an English speaking audience is to-day a superfluous and to criticize him in any of the plays with which this artist's personality is identified would certainly be presumptuous.

"Sweet Lavender" is described in the playbill as an original domestic drama. Its author, Sir Arthur Wing Pinero, wrote it nearly a generation ago.

At Shea's Gus Edwards' Song Revue. Only once in a long time is so elaborate a production as Gus Edwards' "Song Revue" seen in vaudeville.

At the Princess. "When Sweet Sixteen." "When Sweet Sixteen" is called a song play, and that describes it as well as anything else would.

Cured Intolerable Itch

Toronto Man Tried Two Doctors in Vain—Began to Think it Incurable—Itching Gone After One Bath With Cuticura Soap and Use of Cuticura Ointment.

I just want to say a good word for Cuticura Soap and Ointment. Four or five years ago I was in Port Arthur, and I had an attack of the itch.

I went to two doctors about it, and tried more than one remedy. I was beginning to think the complaint was incurable, when I was telling my trouble to a barber.
