Cotton Markets

Erickson Perkins & Co. (J. G. Beaty), 14 West King-street, report the following prices on the New York cotton market: Prev. Close, Open, High, Low, C ...14.65 14.55 14.57 14.46 ...14.56 14.55 14.56 14.44 ...18.16 13.15 13.26 13.15 ...13.17 13.21 13.20 13.21 ...13.16 13.23 13.28 13.29

COTTON GOSSIP.

Erickson Perkins & Co. had the following at the close:

Little new feature developed during today's session, but prices held firm, aitho trading was restricted. Private condition estimates suggest a bureau report of 89 per cent, or better. The action of the market indicates that these figures, aitho the highest for years, have been discounted. Speculators are more concerned over weather conditions over the southwest. Rainfail to date for June is considerably below last year, and the latter proved deficient. Cotton has before it the critical months of July and August, and it would be abnormal if these months were passed without crop scares. A resumption of manipulation in the July option in New Orleans carried the price \$2.50 a bale above local prices.

be abnormal if these months and without crop scares. A report manipulation in the July option of manipulation in the July option of the price above local prices.

INVERPOOL, June 23.—Wheat—Despite weaker American cables, market here showed a steady undertone, with prices above local prices.

Interpool Wheat Market.

Weaker American cables, market here showed a steady undertone, with prices and to take the prominent of the decline was recovered with prominent firms buying on the forecast of light Argentine shipments. There was a quiet demand for cargoes.

Market Lapses Into Dulness

Wheat Frices Rule at Comparatively Unchanged Values at Chicago CHIICAGO, June 29.—There was an explosive market to-day in corn. It looked as the genuine crop damage had been taking place owing to heat through a winds through a wide sweep of Kansas and Nebraska. Predictions were current in consequence that if the harm should prove general corn would take fire in the pit. As a result the cereal led all others, and closed strong at a net gain of 5-8 to 3-4 to 1 1-8 to 1 1-4. Oats finished 1-4 up and wheat irregular 1-8 off to 1-4 advance. Latest figures for hog products varied from a shade decline to a rise of 10c.

The end of the day left corn at the top point of the session. Right from the start the market showed a tendency to bulge. Between the opening and the closing, September ranged from 59 1-4 to 60 1-8, closing at 1 to 1 1-8 net higher at 60 to 60 1-8.

Wheat was relatively narrow and quiet—in the main a professional trader's affair. Crop reports northwest and larger receipts southwest counted in favor the bears. Besides the market was underselling pressure from cash and elevator people, who were purchasing new wheat in the country. Gradually, however, prices came under the sway of corn and finally aver—
