thanks from the press to all those from whom such messages have been received.

Mr. Borden spent part of to-day with his mother and sister at Grand Pre, returning to Halifax this evening. At Wolfville he was met by a large number of enthusiastic friends, whom he briefly addressed at the railway station. He leaves for Ottawa to-morrow morning.

Liberal-Conservative friends in Halifax have arranged for a dinner to-morrow night in honor of F. B. McCurdy, who defeated Hon. W. S. Fielding.

Laurier May Lead Opposition.

MONTREAL, Sept. 22.—(Special.)—Sir Wilfrid Laurier passed by Leclerc Junction this evening en route to Ottawa, suffering from a bad cold. He would make no statement, except to say that he had received hundreds of telegrams from every province in the Dominion asking him to lead the opposition. Hon. Sidney Fisher also arrived here this evening and made the statement that Sir Wilfrid would most likely lead the opposition. The minister of agriculture said they would set together as soon as possible and, if possible, resign before the end of next week.

HOW E.W.L. WAS FOUNDED.

It is perhaps hardly necessary to give any further evidence to show that Albert Chamberlain, widely advertised in the ill-starred campaign for reciprocity as founder of the British Welcome League, hasn't that distinction.

However, as a final word, the following excerpt from the first page of the league's register, under the date of April 22, 1907, tells the story.

"In addition to those indicated above (three entries appear) upwards of 600 newly arrived immigrants were placed in positions: First in the office of the Toronto World, per Mr. C. W. McGee as secretary, beginning March 2; and then in the office of the league, commencing Monday, April 22. The following list dates from the opening of the hospital April 22, 1907."

The object of the visit is to pay a return fraternal visit to the St. Patrick Chapter of Toronto.

the matter while the Canadian agreement was pending.

A Unique Situation.

WASHINGTON, Sept. 22.—John Morris, chairman of the committee on paper of the American Newspaper Publishers' Association, to-day issued a statement showing that the defeat in Canada of the reciprocity agreement has expanded the free zone for pulps and papers so as to include all of the favored nations. His statement follows:

"Canada's rejection of reciprocity raises a question with respect to the favored nation treaties that is unique. Unlike the items contained in section one of the reciprocity bill, the paper and pulp clause, which was section two, abolished the duty on Canadian pulps and paper, subject only to a condition precedent that the pulps and paper must be made from unrestricted woods.

"Section one could not go into effect until Canada took reciprocity action, but section 2 became effective July 25, when the president signed the reciprocity bill. Canada's vote of rejection will

make section one ineffective, but it will not impair the pulp and paper section, which cannot be nullified except by a repealing act of the American congress, and such repeal is highly improbable.

"The importers of pulps and paper from Germany, Norway and Sweden claim that under the favored nation treaty the products of these countries are entitled to the treatment that Canada obtains when the pulps and paper are made from unrestricted woods, and that the tariff on those articles is automatically abolished under like conditions. Treasury department officials say no similar case has ever arisen in this country."

AS EXPECTED, LOTS AT GRANDVIEW PARK ARE SELLING RAPIDLY

It couldn't be otherwise, for good real estate practically sells itself.

INVESTORS are buying in GRANDVIEW PARK because at prices ranging from \$10 to \$20 these lots are the safest investment Toronto Real Estate has to offer.

HOMESEKERS are buying in GRANDVIEW PARK because any lot on the plan is within a half-minute walk of the civic park, on which the grading is now nearly complete. BECAUSE all the improvements are laid right up to the eastern boundary of the property and can easily be extended in on the new streets. BECAUSE Gerrard street will be to the east what College street is to the west—the great midway thoroughfare for passenger traffic leading to the heart of the city.

ALL WHO BUY IN GRANDVIEW PARK buy for the one common reason, which is this—GRANDVIEW PARK IS ONE OF THE BEAUTY SPOTS OF TORONTO. FROM NORTH TO SOUTH the view extends from North Toronto to the American shore, while to the west the view extends over the whole city, where every prominent building can be plainly distinguished. No man but a blind man can fail to be impressed.

DOOR NOW THROWN OPEN TO IMPERIAL RECIPROcity

Continued From Page 1.

The Daily Telegraph thinks it will be a long while before the statesmen of either the United States or Canada will propose another reciprocity conference. The Standard says it was tempting fate to offer the Dominion and it would hardly have been strange had the electors succumbed to Washington's wooing.

"That the effort to seduce them failed so disastrously," The Standard adds, "is eloquent evidence of Canada's pride of nationality and confidence in her own destiny."

The Standard and most of the other United newspapers predict that it will not be long before the policy of imperial reciprocity is triumphant.

WILL ENCOURAGE CADETS.

Chief Inspector Hughes was present at the meeting of cadets at King Edward School yesterday afternoon and explained the new rules and regulations pertaining to the organization and maintenance of cadet companies under the Lord Strathcona Trust Fund.

Toronto will receive \$400 of this fund for the next year. The new regulations reduce the age of boys entering from 14 to 12 years. Formerly only twelve companies were provided for. This year there is a provision for more and many boys who have been disappointed in not entering the service will be accommodated.

At twilight yesterday the new Jewish year of 5672 was ushered in by solemn beautiful services in all the eight or ten synagogues of Toronto.

All day long the Hebrew quarters of the city were restless with activity, in preparation for the advent of the New Year. Peace was made between neighbors, debts were paid, acquaintances greeted with unusual cordiality, and everything was done to promote good will before entering upon the time when every Jew makes peace with his Maker.

The New Year, or the Holy Day period, really lasts two days, from Friday evening to Sunday at sundown. Services will be held twice today in all the synagogues, the first commencing at about 8 o'clock in the morning and lasting two or three hours. Another follows in the evening, and the closing one is held early Sunday forenoon. These services are strangely impressive, being solemn and dignified. Every Jew makes a point of attending these services, and the deeply religious side of their life is strongly emphasized by the fidelity they display to their customs of worship and prayer.

All work practically ceases in the "ward" during New Year's, and those who keep stores open are in such minority as to be greatly conspicuous.

Beside the clearing up of old scores, and the entrance upon a new year with an attitude of good-will toward all, the Jews follow a custom of starting the children with a new outfit of clothes each. The boys appear resplendent in a new suit and boots, and the little girls are presented with a bright new dress that gladdens their hearts.

The older people pay quiet calls during New Year's, or else stay at home in devout thoughtfulness. The Holy Day is a time of solitary reflection and individual improvement. The younger generation spend the time between services in quiet amusement.

JEWIS NOW CELEBRATING ADVENT OF NEW YEAR

It is 5672 by Their Calendar—Interesting Rites Make Occasion Notable.

At twilight yesterday the new Jewish year of 5672 was ushered in by solemn beautiful services in all the eight or ten synagogues of Toronto.

All day long the Hebrew quarters of the city were restless with activity, in preparation for the advent of the New Year. A distinctive feature of the services is the blowing of the trumpet, or to be exact, the shofar. It is intended as a reminder of the services in the

temple, and is also purposed to recall to the listener the voice of the divine.

A curious custom of the extremely devout of the Jews is a semi-liturgical interpretation of the biblical passage referring to the casting of sins upon the deep. They stand on the water's edge at the layfront and repeat certain prayers. There is little action to the custom's practice, but the odors of the proceedings always attracts a large crowd.

Holy Day ushers in the period of the ten days' repentance, which culminates in the Day of Atonement.
