HOLLINGER DIVIDEND?

Railroad earnings were again disappointing, and the demoralized traffic situation arising from the freight jam is certain to find further reflection in returns for December and the current month The Hollinger directors did not pay the dividends which many expected to bring that situation more prominently into the foreground.

Baltimore & Ohlo directors are scheduled to act this week on the deferred semi-annual dividends. Their course in this connection may serve as a precedent for other roads whose dividends are hanging in the balance.

Industrials continued to labor under the serious disadvantages imposed, by railway congestion, coupled with shortage of labor and fuel. Leaders owed much of today's pressure to this precedious situation, recording net losses of one to two points.

Shippings and coppers, together with tobaccos and minor specialties, forfeited early gains of two to three points, motors also reacting sharply on news of a cut in the dividend or Willys-Overland, Sales amounted to \$18,000 shares.

MONEY AND EXCHANGE

Toledo, O. Jan. 14.—The annual dividend on Willys-Overland stock was cut at a quarterly meeting today from twelve to four per cent. A quarterly dividend of twenty-five cents on each twenty-five dellar share was declared. President John H. Willys issued a statement that the company had adopted a conservative policy on account of transition from a peace basis to a war basis. During the last quarter of 1917 the factory was preparing for the manufacture on a large scale of airplane parts.

The statement further shows that net earnings for 1917 were \$8.500,000 before deduction of the excess profits tax, which, it is asserted, will not exceed \$600,000. TWO-CENT FARE STANDS. Washington, Jan 14.—The Illinois Central Raliway and 28 other roads, by an opinion of the supreme court today, lost their fight to have the Illinois two-cent passenger fare law set aside.

Federal decrees dismissing proceedings instituted by the Illinois Central to restrain the Illinois public utilities commission from placing into effect the two-cent rate were sustained.

Montreal, Jan. 14.—Trading on the local stock exchange today continued quiet. The chief feature of the business was the continued strength of Civic Power, which sold up to a new high of 71, as compared with 70½ at the close Saturday! Braziliar was the most active feature, 225 shares changing hands at 32½.

Slight recessions occurred elsewhere. Steel of Canada sold off ½ to 51½; Steamships was off ¼ to 41, and Tram Power off ½ to 29½. Smelters was unchanged at 25 and Lyall was at 62. Broken lots of Iron sold off from 54% at the opening to 54½. Saturday's closing price was 55. Quebec Railway was unchanged at 15. DIED SUDDENLY AT GUELPH. Special to The Toronto World.

AWAITING LISTING OF VICTORY BONDS

Toronto Market Quiet But Steady-Fair Demand for Brazilian Shares.

There is little prospect of a revival of interest in the local market pend-ing the listing of the Victory bonds, and it now appears probable that such listing will not take place until next week, the magnitude of the loan hav-ing involved a great deal of labor, with consequent delay. Yesterday's dealings in stocks, amounting to 488 shares, were distributed among 12 issues, and movements were sluggish. Brazilian was slightly firmer at 321/2, but activity in this issue showed a marked falling off from Saturday. Steamships common sold again at 41, and the preferred was unchanged at 74. The steel stocks were quiet and rather heavy, Dominion Steel closing at 541/2 and Steel of Canada at 511/4. at 54½ and Steel of Canada at 51½. Concerning the latter company it is pointed out that transportation difficulties and lack of fuel are proving a handicap. Five shares of Toronto Railway sold at 60, the market continuing to ignore reports bearing upon the coming annual meeting and the probability of an early cut in the dividend. Monarch Knitting preferred sold at 75, two points above the minimum. There was some buying of odd lots of Dominion Bank, Imperial Bank, Canada. Landed and Colonial Loan at minimum prices. The war loans were steady, total dealings in them amounting to \$6900.

London, Jan 14.—The stock market had a cheerful tone today, but the transactions were only moderate. Orders from the provinces were smaller owing to the success of traveling tanks in absorbing money thru the sale of war bonds in the principal centres. Rubber and oil shares and Argentine rails received the chief attention, but there was sufficient business to maintain home funds on a steady basis. Russian and Spanish issues were weak.

Money and discount rates were steady.

WESTERN PRODUCTION MAKES BIG ADVANCES

Total Value of Latest Crops Nearly Triples That of Three Years Ago.

Montreal, Jan. 14.—The tone of the local market for oats was strong today notwithstanding a fluctuation in prices for oats in the option market and a slight decrease in prices at Winnipes, and prices here scored a further advance of 1c per bushel. This was due to the continued good demand from local and country buyers and the small offerings. The volume of business done was small, sales of only a few car lots being reported. Canadian western No. 1 feed oats were quoted at 93%c per bushel to 94c.
