

WOMAN'S WORLD.

THE SMILE.
A human smile how beautiful! Sometimes its blissful presence seems sweet as the gentle air which lull to sleep the holy flowers of God. Which blossom in the Persian's drama:
A lovely light when'er it beams On beauty's brow, in beauty's eye, And not one token lowers nigh, On lip, or eye, or cheek unblinded, To tell the anguish vainly hidden. But oh, there is a smile which steals And like that which like that light, And sorrow's vain and heartless smile! —Whittier.

Needs of a Home Manicure.
A plentiful supply of unguents and lotions is required by the woman who is going to be her own manicure. She needs to have a shelf. And her manicure table must be well fitted out with the best of emollients for the nails and hands. Here are a few of the things as suggested by a French manicure, who makes a great specialty of the hand.
She will need a bottle of white vaseline and almond oil, half and half; a bottle of glycerine and rose water in the same proportion.
A vital of polish in which there is applied to the nails of lanoline and peroxide for bleaching the hands and arms.
A bottle of alcohol for taking stains off the fingers.
Cut lemon, or, if this is inconvenient, a bottle of clear lemon juice, also to be used for stains. And it is a very good thing to have a pumice stone or two or three acids for taking off the spots which come upon the hands in mysterious ways.
The home manicure should devote 15 mins. one day a week to her nails. This will keep them in good condition. On this day she should use the emollients on the tops of the fingers to make them pointed; whiten the nails and shape them. They will look nice for a whole week.

Home for "Central."

PAID TWENTY-FIVE YEARS.
We have spent over 25 years paying for space to talk about Scott's Emulsion as a great help to the consumptive, for all throat and lung trouble, as an unrivalled fish builder, and as a tonic for weak children.

Pale? Thin?
How is it with the children these days? Have the plenty of grit, courage, strength? Or are they thin, pale, delicate? This reminds you of Ayer's Sarsaparilla. It does great things for children. It gives them a good appetite, improves their digestion, builds up their general health. Ask your doctor if he endorses this. We have no secrets! J. C. Ayer & Co., Lowell, Mass.

RUSSIA MUST NOT CELEBRATE ANNIVERSARY OF MANIFESTO
Elaborate Precautions Being Taken to Prevent Disorders—Mass Meeting's Resolutions.
St. Petersburg, Oct. 29.—On the eve of the anniversary of the publication of the imperial manifesto, giving a constitution to Russia Oct. 30, the prefect of police has caused the city to be placarded with proclamations warning the public that in case of disorders, demonstrations or even the assembling of crowds armed force will be used with all the vigor permitted under the rules of "extraordinary security."
The government's ultimatum to the faculty of the university, announcing that the institution would be closed if meetings involving the participation of non-students were continued, was defied to-day. An immense mass meeting was held in the university building, at which many workmen, professional men and several army officers were present. After fiery revolutionary speeches had been delivered a resolution was adopted, declaring that the gift of a constitution by the emperor last October had proved valueless and asserting that the situation of the country was an intolerable one before the manifesto. A second resolution rejected a proposition to celebrate to-morrow with a meeting or a demonstration, as the anniversary was not deserving of special notice, and it was useless to play into the hands of the police by provoking disorders.
The emperor has signed a ukase granting full religious freedom to the sect known as the "Old Believers," who number several millions and constitute the most prosperous and industrious element of Russia. It is understood that the ukase will be published on the anniversary of the constitutional manifesto.

SIX MONTHS IN A JAIL TOO MUCH FOR A "DRUNK"

Justice Taschereau Quashes a Number of Convictions and Suits Are Threatened.
Montreal, Oct. 29.—There has been a great fall delivery. Twenty-three drunkards have been let out of the Montreal jail, and a still greater number are to be let out of the Quebec jail.
These men have been released on a writ of certiorari, taken out by Houle, advocates, who only the ground that the recorders had no right to sentence drunkards to such long terms as these long terms has been an overcrowding of the jail, so that about 60 of the prisoners had to be sent to Quebec.

The result of the judgment will be far reaching. "They are, however, well armed and very audacious, and it is hard to say what will happen. There are about 850 Indians in the party, including women and children, but I do not think there are over 150 fighting men among them."

"The Sugar Maple Tree" is the title of a "new national song" words by George Livingston Dodds, music by Edmund Hodgkins, which has been copyrighted at Ottawa.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products are assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nervous system is affected, red blood, and we see symptoms of nervousness, sleeplessness and general prostration. It is not hard work, nor over-physical, but the nervous system is affected. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption, and the body at once falls into the hands of the disease.

Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.
A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed free to any address on request by postal card or letter. Address Dr. E. V. Pierce, Buffalo, N.Y.
Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.
The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The inclusion of the names of the ingredients on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to its use. The body at once recovers. It is not a patent medicine nor a secret one either. This fact puts it in a class with the best of all medicines, and it is a bottle worth bearing as it does upon every bottle wrapper. The Sledge of Hoosey, in the full list of its ingredients.
The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowels and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.
