

# SPECIAL FARMING LIVE STOCK EDITION

## APPLES.

There seems to be some funny work being done by buyers of apples in certain sections of the country, in order to offset the inroads that the co-operative societies are making upon the affections of the country. That human nature has its weak points when our own pockets are affected seems well demonstrated in the case in point. It is an easy matter to insinuate that a company of co-operative people will soon fail, that they are paying their secretary too much, and that the apple seller had better take a bird in hand than two in the bush. All this is easy to convey by a toss of the head or a make-wise expression that carries its weight with certain farmers.

But while this may do for sharks, it is not the business method to be employed by responsible men of to-day. An institution ought to stand on its merits. It should not be stamped into failure by the interested motives of a few competitive buyers. If the members of these co-operative concerns are being made the butt of attack by the independent buyers it is for the purpose of dislodging one member from the camp and using his desertion as a lever for wholesale purchases from us. Co-operative goods are not the victims of the schemer past finding out. Are they not innocents abroad and philanthropists of the first water. Their sole aim is to protect the farmer. They want to do the square thing. They encourage that magnanimous spirit which lives and lets others live. Their power of estimating the world's demand is most persistent. Soon these large-hearted ones want to close a price on the orchard. They will advance a penny now, the glitter of which blinds the seller to the little defects in the fruit. The deed is done. The buyer rides off with a wink in the other eye.

Yet why is it that the same men who think the association is so weak, will try to kill it? Did ever a big man use his energy to hunt down a wounded dove? Why is it the secretary could be given for one year? There must be some fire in our co-operative societies, which causes such a smoking of the embers.

## FARM TELEPHONES MOVING.

The Markham and Pickering Telephone Company in their annual meeting at Whitvale on Saturday made a move in the right direction. The company can now issue bonds and the work of construction need not lag for want of working capital. They are looking ahead and the day is not very far distant when the wisdom of their move will bear much fruit.

They are going ahead with their building and the farmers generally will be pleased to hear of every improvement they make.

## AUTOMOBILES.

Two years ago a strenuous fight was put up in the Ontario Legislature to protect the country highways from the recklessness of the auto fiends. Much good legislation was passed at that time, but by some mischance or other that law finds very little observance on the country highway. The maximum speed limit is a laughing stock, for anyone has but to visit any leading country road to see, offences daily.

It is to be deplored that the roads upon which the farmers have spent so much money are almost closed to the farmers' traffic. The country women are staying home more than ever because they cannot drive out. It was one of the sad things of the Women's Institute reports to find so many country women prisoners at home because of the recklessness of a few auto drivers. Not all who ride in autos are guilty of this, but the misdeeds of a few render the whole unsafe for the horsewoman.

The farmers should demand strict punishment of all offenders. No rich man, big man or other should escape a penalty due him by reason of his position. Moreover, some tax should be levied upon the drivers of autos. They use the road, but the councils keep them up. What justice is there in that? Let our legislators do something to solve this question and to make the ones who enjoy the pleasure pay for the riding.

## THE GREEN BUG.

R. H. Pettit, entomologist of Michigan Agricultural College, experiment station, says of the green bug: "From all parts of the state, complaints are coming in with respect to the condition of the oat crop. The last week has seen a notable change in the outlook. The young oats in a large part of the state have suddenly become as if stricken with blight, the outer leaves turning yellow and afterwards reddish, until after a little time the field appears as if badly rusted. A closer examination shows there are few if any rust pustules.

Careful examination with the aid of a powerful lens shows the culprit to be a minute green insect, about a third of an inch long, and very quick in its movements. Jumping like a flea when disturbed, and disappearing completely. These little creatures have narrow wings with fringes of long hairs instead of the ordinary form of wings. They scrape the surface of the oat leaves and cause them to become withered and to turn yellow and die."

## THE FARMSTEAD

Barley harvest is on.  
Produce the best.  
Pork is on top yet.  
Keep the cows producing.  
Apples are going to be a good price.  
A good thing always is knocked.  
The steam plowing idea in Ontario is growing.

Prof. W. J. Kennedy of Iowa Agricultural College has purchased five gray Shires in England.

Who will get that special \$50 prize offered by the Canadian Hackney Horse Society at Toronto Fair?

Nineteen Kansas counties, says The Breeder's Gazette, have threshed their wheat, which shows an average of over 13 bushels per acre. At this rate Kansas will have seventy-one million bushels this year.

Royal Rogers of Kinsale, a prosperous farmer, well-known in Whitby and Pickering Townships, was badly hurt by his horse running over his foot after being frightened by an automobile. Country life is losing much pleasure to the farmers by reason of this auto tyranny.

Mr. John Macdonald of Toronto has sold in the last few days ten head of horses from his Cumberland-street stable, a matched pair, two saddle horses and three single horses in all, a matched pair to a gentleman in Windsor, and a single horse to a resident of Brantford. The right kind of horses should raise are still in active demand.

Mr. W. L. Wilson, one of Northern Ontario's leading and successful horsemen, passed away at his residence, Elmville, last month. Mr. Wilson commenced breeding some thirty-two years ago, beginning with a couple of swarms which he secured from a hallow in the bush. He was a member of the Ontario Bee-Keepers' Association, says The Bee Journal.

There is no possibility, however, of anything like a large honey crop, anything like the Bee Journal. Even if the flow were general, there are not the bees in the country to gather it. Unfortunately, many of those that came thru alive are not in shape to do much more than build up for winter, or perhaps for a full flow where such is to be had.

The apple crop in the vicinity of Parkhill, says The Post, promises to be a good one. The fruit is dropping but little, and many trees are already bending down with the weight of the fruit. Such varieties as Roy, Russets, Baldwins and Ben Greaves are heavy. Kings are fair, while Greenings are light.

The reason why the crop is so good is so scarce in Canada that the great majority of the emigrants are not from the cities and industrial districts. What does a Lancashire weaver know about farming? But our Yorkshire lads are above making such poor appearance in Toronto. The men the farmer in question met with were no doubt "corner-soys," as we call them in Yorkshire. There is, no doubt, many of these fellows around the street corners.

"Only six Yorkshire men came out in the boat with me, and two of these went to the west. Our Yorkshire boys are good ones generally, and my impression of Canada is very favorable. There may be a mean farmer here and there, but he is the exception in Canada, I feel sure."

Taber's Clydesdales. The sensation of the Clydesdale display at Winnipeg was the "string" shown by R. H. Taber, of Conk, Sask., says The Advocate. Mr. Taber made his debut in Winnipeg, exhibiting a week and to few men indeed is given to make so remarkable a sweep of the boards. With only seven head of horses he imported and won the male and female championship, the championship for Canadian-bred horses, first for stallion and three for gelding filly, second and third for three-year-old filly, second for two-year-old filly, second and third for gelding filly, and second for yearling colt in the regular classes, besides several specials, and most satisfactory of all, not a prize went to the Conk stables but what the crowd approved of it. Mr. Taber is a young man, formerly of Ontario County, Ontario, as well as a new exhibitor, and selected his show string with a true horseman's instinct for their possibilities. The single imported horse in his string is his stallion Baron's Gem, which he bought together with three fillies, from A. & G. Mutch of Lunenburg, who share with Mr. Taber in his honors, as they imported Baron's Gem and bred the champion female and second prize two-year-old.

Crops in Rainy River.

The department of agriculture received a report yesterday from the Rainy River Farmers' Institute, stating that the crops were good, but there had been a little too much rain, and consequently not much hay ready for cutting.

Gas Company Wins.

NEW YORK, July 29.—The application of Attorney-General Jackson for permission to bring an action to restrain the Farmers' Institute, stating that the gas company has a monopoly, was granted by the Supreme Court yesterday.

NEW YORK, July 29.—The application of Attorney-General Jackson for permission to bring an action to restrain the Farmers' Institute, stating that the gas company has a monopoly, was granted by the Supreme Court yesterday.

## AGRICULTURAL PRIZES

What the Canadian National Exhibition Grants Our Tillers of the Soil and Our Stock Raisers.

Entries for all the following classes and the dairy products, as well as for women's and children's work, for which handsome prizes are given, close at the Canadian National Exhibition, Toronto, on Saturday next, Aug. 2.

Besides several thousand dollars' worth of medals and plate, given in the horse classes, the premiums in cash amount to \$12,665, distributed as follows:

**Breeding Classes.**  
Thorobreds ..... \$770.00  
Standard bred ..... 495.00  
Hackneys ..... 690.00  
Carriage horses ..... 275.00  
Clydesdales ..... 380.00  
Heavy draughts (any breed) ..... 615.00  
Heavy draughts in harness ..... 520.00  
General purpose horses in harness ..... 140.00  
Hunters and jumpers ..... 192.00  
Saddle horses ..... 65.00  
Strings of ten horses ..... 180.00  
Frieses ..... 485.00

**Harness Classes.**  
Standard bred ..... 480.00  
Carriage horses ..... 170.00  
Hackneys ..... 385.00  
Delivery or express horses ..... 235.00  
Hackney stallions ..... 75.00  
Hunters and jumpers ..... 220.00  
Saddle horses ..... 320.00  
Specials ..... 825.00  
Frieses ..... 210.00  
Best boy rider ..... 40.00  
Children's outfit ..... 40.00  
In every breeding class medals are given for special prizes for the best stallion and the best mare or filly. In the Clydesdale class there is a special class for stallions owned by non-importers, special prizes for which amount to \$140.00. In the Shire class the Shire Horse Society of England gives two \$10 gold medals for the best stallion, one for the best mare or filly. For Hackneys, both the English and Canadian Hackney societies give medals of special prizes. The Ontario Hackney Exhibition in the horses in kind and money reach \$15,000. It might be mentioned that in all the classes, excepting a very few, four prizes are given.

**Cattle Classes.**  
In the cattle classes the following prizes are given:

**Beef Section.**  
Short-horns ..... \$350.00  
Galloways ..... 385.00  
Herefords ..... 385.00  
Aberdeen ..... 465.00  
Dorset cattle ..... 220.00  
Pat cattle ..... 205.00  
**Dairy Section.**  
Ayrshires ..... 967.00  
Jerseys ..... 885.00  
Holsteins ..... 890.00  
Guernseys ..... 207.00  
Grade cattle ..... 221.00

Total for cattle ..... \$8717.00  
As in the horse classes so in the cattle classes medals are given for the best or champion of each sex. There are also a number of valuable trophies distributed, so that taking into consideration both plate and money, a probable amount given for cattle classes would reach \$10,000.

In the sheep classes the following amounts are distributed in cash:  
Cotswolds ..... \$392.00  
Shropshires ..... 485.00  
Oxford Downs ..... 405.00  
Southdowns ..... 400.00  
Lincolns ..... 380.00  
Hampshire and Suffolk Downs ..... 360.00  
Sheep shearing competition ..... 60.00

Total for sheep ..... \$3182.00  
Championship medals are also given in the sheep class for the best ram of any age and for the best ewe of any age. In Cotswolds special prizes are given for the best ram and the best ewe. In Shropshires, special prizes amounting to \$125 are offered by the American Sheep Raisers' Association, and in the Southdowns the American Southdown Breeders' Association give specials.

In the swine classes the amounts given are as follows:  
Berkshires ..... \$709.00  
Large Yorkshires ..... 709.00  
Tamworths ..... 709.00  
Other distinct breeds ..... 272.00  
Export bacon hogs ..... 125.00

Total in the swine classes ..... \$2524.00  
Championship medals are given for the best boar of any age and the best sow of any age, and the Dominion Swine Breeders' Association contribute \$350.00.

**Poultry and Pet Stock.**  
For poultry there are 250 classes between which \$1274.00 is divided. In addition medals are awarded to the best in each of the different species; special prizes are also given by the Ontario Club of Canada, the Canadian White Plymouth Club, the Poultry Breeders' Association, Toronto; the Canadian Poultry Review and Mr. William Hammill.

For dressed poultry and eggs \$108.00 in prizes is given. For turkeys and ducks \$227.00 is devoted. For pigeons \$572.50 is given, besides a number of medals for the best of each kind donated by the Canadian Pigeon Fanciers' Association.

For caged birds \$117.00 is given and the Toronto Canary and Cage Bird Society donates six silver medals. The Parkdale Canary and Cage Bird Society donates four silver medals. The Cage Bird Society offer silver medals for the best Scotch fancy yellow or buff clear and the best Scotch fancy blue. The Manchester and Northern Counties Ornithological Society offer a silver medal for the best roller canary, and Mr. H. S. Tibbs donates a cash prize for best canary bred by exhibitor (rollers barred).

For ornamental and miscellaneous classes \$168.00 is given; miscellaneous prizes include goldfish, guinea pigs, squirrels, rabbits, guinea pigs, fancy mice, etc.

Total for poultry and pet stock ..... \$3182.00

## BARLEY HARVEST BEGINS

OAT CROPS—THIRD OFF

Fruits and Vegetables Are Looking Well—Whole Fields of Oats Worthless.

Barley harvest has become quite general in the province while several fields are already being put into the barns in Southwestern Ontario. Rye and fall wheat are also in shock. The barley crop is reported from several points as exceptionally heavy. It is also well filled and as there is a large acreage, much good feed will soon be liberated for the hogs and cattle.

The oat crop in many sections. Other sections report big crops of this cereal. But the crop on the whole will be about one-third less than the average. The green bug has wrought destruction by causing the leaves to blight and discolor. This year the average yield of oats is 12 inches high and will not be worth harvesting. Especially is this true of oats that were sown in old sod and land poorly cultivated.

The apple crop does not promise such big things as the earlier blossom gave us reason to believe, yet Canada is going to have a big fruit yield. Other places in the world are reported short, and with our better shipping facilities, will tend to keep prices up to a good paying level. Many orchards have been sold for 10 per cent to the buyers, while others have only been able to secure a 50c offer. The tactics of buyers are being changed, and the sales are certainly not modern. A business farmer will throw out such a proposition. The co-operative associations are doing good work in giving the farmer his own.

**Ontario Vegetable Crops.**

The vegetable crops in Ontario are late, but are looking well. The correspondents of the Ontario Vegetable Growers' Association. Frost in the southwestern part of the province did some damage. The demand for green truck from Essex County exceeds the supply and many new greenhouses soon will be built for cucumbers and other crops. All kinds of truck are looking well in the vicinity of Hamilton and Toronto.

The potato crop of the province promises to be only fair. Table roots, including turnips, parsnips, cabbages and beets are doing well and will be plentiful. The celery prospects are bright; it is probable that there will be very little of the celery crop. The onion crop will be quite late, but it is expected that the yield will be good. Corn will be medium. Melons promise to yield an average crop.

**Kent County Prospects.**  
Wheat and barley in Kent will be a fair crop, writes a correspondent. The acreage is not as large as formerly, but is light as to other crops. Corn is coming on well and will be a big crop. Oats are a bad looking crop. The wheat is not as good as formerly. Fruit is almost a complete failure in the county. The apple orchards are getting scarce owing to the carelessness of orchardists in not spraying. Mr. E. L. Moore of Thamesville writes The World that the oat crop will be damaged fully 25 per cent, while the barley is good and plump. A frost on July 2nd did considerable damage to oats, corn and fruit.

**From Other Points.**  
Mr. Thomas Walden of Sundridge in Perry Sound writes that oats on the usually rich land are not affected by the frost. The wheat is a good crop, but other fields, after a good promise, have failed miserably.

**CAID MACLEAN IN DANGER.**  
Moroccan Troops Defeat Bandits' Warriors and March on Stronghold.

TANGIER, July 29.—The Sherifian troops Saturday attacked villages belonging to the Knaiss tribe, in whose territory the bandit Raisuli holds Caid Maclean prisoner. The troops burned and looted the villages, killing many of the inhabitants and taking a large number of prisoners. The government forces were completely victorious, but as the battle was fought within six hours' journey of where Caid Maclean is believed to be located, his position is regarded as more precarious than ever.

The Sherifian forces used the walled town of Sheshuan on Saturday, the heads of the Knaiss villages met Bouchara and offered to discuss with him terms for the release of Caid Maclean. The government official declined to discuss this matter and demanded the surrender forthwith of Raisuli.

He then burned the villages, occupied Sheshuan and beheaded the rebels who had been killed in the fight.

**\$10 FROM THE SKIES.**

Toronto is truly good. Not only do people send condolence fund contributions to the government, but private citizens are receiving money.

A day or two ago John Longway, 215 Gladstone-avenue, opened his mail to find enclosed a \$10 bill and the following unsigned letter: "Toronto, July 29, 1907. "Mr. John Longway, Toronto, I send."

**Liquor and Tobacco Habits.**  
A. McTAGGART, M.D., C.M.  
75 Yonge St., Toronto, Canada.  
Refers to Dr. McTaggart's professional and personal integrity as proved by the following testimonials:

## GASOLINE KILLS

Hundreds when it explodes in the right place. It makes the ignorant one pay dearly for his carelessness. Not so with the farming pages ads. The wayfarer cannot err in putting his ad on these pages, for all he has to do is to let it talk. It kills nothing but bad business, which it drives out of every place that carries an ad here.

A man talks by word of mouth to his neighbor or his phone exchange. But an ad goes into your neighbor's house, hunts him up, and tells in a low, fine and persuasive voice that you have a farm to sell or an animal to sell. Let your business talk for you while you sit among the growing corn hills and rejoice in your good health. Nuff said.

## FARMS FOR SALE.

**ABOUT 400 ACRES, WITHIN EIGHT** miles of Toronto, very close to Yonge street. This is a very fine property, and we are offering it at a low price. Rice, Kidney & Co., 15 Victoria-street, Toronto.

**BEAUTIFUL HALF SECTION OF** land (200 acres) in Saskatchewan, to exchange for good house in Toronto; adjoining Grand Trunk Pacific Railway, Yorkton to Regina, and 3 miles from C.P. Kirkella Branch. Address Box 24, World.

**FARM FOR SALE—KNOWN AS THE** Cotter farm, containing 300 acres, Northport. For particulars apply to R. H. Hubbs, Pictou, Ont., or Mrs. A. D. Walker, Northport.
