Advertiser Correspondence
The Rational Sunday League.
To the Editor of The Advertiser:
A great many people are interested in knowing what are the objects and aims of the Rational Sunday League, and the outline given here will give some idea.
This league has its origin in the National Sunday League of Great Britain, organized half a century ago for Sunday betterment. Earl Grey, our Governor-General, is a vice-president, and the Lord Mayor of London is chairman. Hundreds of notable men, distinguished in all the walks of life, are connected with it.
The aim of the league is to secure one rest day every week for every man. To make Sunday the brightest, sweetest and most agreeable day of the seven, instead of being the dullest and dreariest, with its dusty streets. To furnish easy and cheap transportation, so that all people, especially workmen, can go to the parks, suburban places and experience new sights and fresh places. To work for cleaner and more refreshing streets. There is no reason why city conditions should be most disagreeable on the rest day.
Cultivate the fresh air and sunlight habit, which makes for the ideal rest day.
The league occupies the position that a more active Sunday with certain social and intellectual opportunities, is much better for the bodily and mental health of a community than a very quiet and still Sunday.

The White Miners of Atlin Turn Them Out of Town.
Portland, Ore., Sept. 21.—A dispatch from Seattle says that 75 Japanese miners arriving at Atlin Thursday night to work in the mines, were escorted to the river steamer Gleaner by 300 white men yesterday morning, and started back towards Vancouver.
The white miners served notice upon the Japanese that if they did not stay away violence would be shown in protecting the diggings against Asiatic labor. The Japanese are almost destitute, and will be turned loose in Shagway, Alaska.

Artificial Teeth Without a Plate or Crown and Bridge Work

The above cut illustrates a condition common to many mouths. Two of the most important teeth are missing. These should be replaced by means of BRIDGE WORK, and not by wearing a plate, which will destroy all the remaining teeth in time. A Bridge properly inserted feels just like your own teeth, and it can be done PAINLESSLY.
