

43RD YEAR NO. 19024

THE ADVERTISER, LONDON, ONTARIO, FRIDAY, APRIL 26, 1907—TEN PAGES.

PRICE TWO CENTS.

Big Class of Graduates At London Medical College

London Students Capture Medals, Special Prize and Two Scholarships.

The results of the London Medical college examinations were made public this morning by the faculty.

The graduating class this year numbered 24—one of the largest in the history of the school—and the standing of the students is said to be very high. Both the gold and the silver medals and the special prize offered by Dr. P. R. Eccles, to mark the 25th anniversary of the school, were landed by Londoners.

The gold medalist is Mr. W. T. McBroom, son of Mr. George McBroom, of Hyman street, while the silver medalist is Mr. W. G. Russell. The gold watch offered by Dr. Eccles was won by Mr. McBroom.

The third year scholarship was won by Mr. P. S. Macpherson, of South London; the second year scholarship by Mr. P. Poisson, of Belle River; and the first year scholarship by Mr. W. H. McFarlane, of this city.

The following is the graduating class:

R. D. McAlpine, city.
A. K. Gifford, Wingham.
James G. Rice, Brinsley.
J. A. Brown, Kingsmill.
John H. Birch, Dorchester.
A. E. Wood, city.
A. G. Girard, city.
W. Allenhead, Brucefield.
W. T. McBroom, city.
J. D. Watson, city.
A. J. Danks, city.
R. E. Holmes, city.
John W. McKay, city.
A. McGregor, Longwood.
A. Grover, city.
W. Crawford, city.
J. M. Adams, city.
J. D. McDonald, Dorchester.
W. J. Shipley, Clinton.
W. G. Russell, city.
G. C. Smith, Verschoyle.
C. A. Balkwell, Yarmouth Center.

FIRST YEAR.

Biology and Botany.—First-class honors—McFarlane, Ramsay, Featherstone, (Jepson, Bolton), G. Ramsay, Butterwick.

Second-class honors—Marshall, Shore, Pickard, Johnston, Burgess, Mooney, Wilson, Lancaster.

Pass—Taylor, King, Riley, Brandon, McGuffin, McCallum.

Zoology.—First-class honors—McFarlane, Featherstone, G. Ramsay, T. Ramsay, Butterwick, Marshall, Bolton, Burgess.

Second-class honors—(Johnston, Jepson), Lancaster, Shore, Taylor, Pickard, Brandon, Wilson, Robinson, Mooney, King.

Pass—Riley, McGuffin, McCallum, O'Brien, Fawcett.

Physics.—First-class honors—McFarlane, G. Ramsay, Butterwick, Featherstone, Jepson, Riley.

Second-class honors—Bolton, T. Ramsay, Johnston, Marshall.

Pass—McCallum, King, Shore, McLean, Taylor, Burgess, Pickard, Robinson, McGuffin, Carroll.

Chemistry.—First-class honors—McFarlane, Johnston, Featherstone, Butterwick, G. Ramsay, Jepson, Bolton.

Second-class honors—T. Ramsay, Riley, Fawcett, Pickard, Shore, McGuffin.

Pass—Robinson, Girard, Taylor, Wilson, Marshall, Mooney, Burgess, Alley, McCallum, Brandon, King, Stanfield, Balkwell, Lancaster.

Materia Medica.—First-class honors—Butterwick, McFarlane, Butterwick, Johnston, Jepson, Bolton, Burgess, Mooney, King.

Second-class honors—(Wilson, Lancaster, T. Ramsay, G. Ramsay), Marshall, Pickard, Fawcett, Taylor, King, Brandon.

Pass—O'Brien, McCallum, Robinson, McGuffin, Riley.

Physiology.—First-class honors—McFarlane, Butterwick.

Second-class honors—G. Ramsay, Jepson, Featherstone, Bolton.

Pass—Pickard, T. Ramsay, Marshall, Johnston, Burgess, Lancaster, Wilson, Shore, Riley, McCallum, Mooney, Robinson, King, Taylor, Brandon.

SECOND YEAR.

Chemistry.—First-class honors—Jepson, Poisson, Childs, Shier.

Second-class honors—McClary, Richmond, Douglas, Fisher, Stockwell, Lutton, Butterwick, Kidd, George, Gillespie.

Pass—Francis, Phipps, Gordon, Wells, Girard, Anderson, Barclay, Ross, Balkwell, Carroll.

Practical Chemistry.—First-class honors—Gordon, Douglas, Poisson, Stockwell, (Jeffery, Kidd, Fisher, Gillespie, Brown, Anderson, Carroll, Rhyscard), (Richmond, Taylor, Lutton, Butterwick, Alley, Moore).

Second-class honors—Shier, Childs, McLean, McColl.

Pass—Phipps, Wells, Francis, Gordon, Stanfield, Crawford, Lindsay, Barclay, McClary.

Continued on Page Eight.

LOST IN COMMITTEE

Bill to Annul Boy and Girl Marriages Defeated.

[Special to The Advertiser.]

Ottawa, April 26.—The bill from the Province of Ontario, introduced by the Minister of Justice, to annul marriages between 14 and 18, entered into without the consent of their parents, was defeated in committee. It was opposed by a large number on both sides.

GUELPH PAVERS AFTER POINTERS

Royal City Aspires to Asphalt, But the Cost Jars Some.

A deputation from Guelph called at City Engineer Graydon's office this morning and had a long talk on the paving question. Guelph is about to experiment with permanent pavements, which means that its troubles are about to begin.

The deputation was composed of Ald. J. Kennedy, chairman of the board of works; City Engineer J. G. Lindsay, and Mr. J. J. Hacking, manager of the street railway there.

Mr. Graydon gave the gentlemen all the facts in his possession, and the deputation did not appear to be reassured on paving matters.

When they heard that London has been spending about \$2,000 a year to repair the Richmond and Dundas street pavements, they winced, but they winced more when told that only half the cost per annum, as the street railway paid fully as much each year to keep its track allowance in repair.

Regarding the bituminous pavements here, Mr. Graydon was able to say that the pavement on York street is in bad condition, and it has only been laid a few years, but the Talbot street pavement, which is down a much longer period, is wearing well.

This afternoon the deputation inspected the asphalt pavement on Wellington street, which is wearing splendidly, and also the King street vitrified brick pavement, which is not wearing so well.

REV. DR. FALCONER,
Called to the Presidency of Toronto
University.

THE PLANS FOR NEW HOSPITAL

Mayor Would Have Them Drawn in Engineer's Office and Economize.

Sketches of the idea of the hospital trust in regard to the construction of the new isolation hospital on Ottawa avenue are now being prepared in City Engineer Graydon's office.

These sketches will be presented to the council, and that body will probably refer them to the architect.

Thus the city council will have the plans prepared and will take into consideration all suggestions made by the hospital trust.

It has not as yet been decided who will draw the plans.

Mayor Judd declares that if he has anything to say in the matter, they will be prepared in the office of City Engineer Graydon.

The mayor's idea is to have Mr. Stiles, the gentleman appointed to assist Superintendent Moore, of the waterworks, placed in Mr. Graydon's office, so that when he is not busy on the drawing of the plans, which will mean a saving to the city of not less than \$1,500.

Ald. Gillespie stated to the mayor today that local architects are of the opinion that competitive plans should be asked for, and that all architects should be given a chance at the work.

The mayor, however, insists that as the city has a competent office in which the plans can be prepared, the work shall be done there.

Chairman Darch, of the water commission, said today that he has no objection to allowing Mr. Stiles to be placed in Mr. Graydon's office. All he asks is that the water commissioners shall have first call on his services.

COPPER CASE SETTLED.
Boston, April 26.—It was announced today that the suit of the Copper Range Consolidated Company against Alfred C. Burrage, Thomas W. Lawson and others, has been settled out of court.

ROOSEVELT OPENS JAMESTOWN SHOW

Shows Great Interest in Britain's Magnificent Squadron of Warships.

Norfolk, Va., April 26.—The Jamestown tercentennial exposition was opened today by the President of the United States.

President Roosevelt viewed from the deck of the yacht-cruiser Mayflower the war vessels anchored in Hampton Roads.

Then followed the programme for opening to the public the enterprises commemorating the 300th anniversary of the first English settlement in America.

At sunrise the ceremonies were begun by the United States artillery firing a salute of 399 guns to usher in the day.

It was some minutes before President Roosevelt could proceed with his address. The people repeatedly gave vent to their enthusiasm. As he pressed the gold button which formally opened the exposition it was the signal for the unfurling of a thousand or more flags on the various buildings. At the same time a signal was given to the warships and to the gunnery at Fort Monroe, and all fired a salute.

The Mayflower, bearing the President and Mrs. Roosevelt and party, arrived at the head of the column of war vessels this morning almost an hour before the usual call for quarters. The American flag ship Connecticut, Rear-Admiral Evans commanding, boomed out the first guns of the presidential salute, the other American ships and the foreign vessels immediately following.

The Mayflower headed toward Norfolk, passing along the outer line of foreign ships, the crews of which were drawn up in close order along the forward and upper decks and superstructure, and awaited attention. The first of the British ships encountered was the Roxburgh, then the Hampshire, and next the Argyle. President Roosevelt was especially interested in the flagship Good Hope, and exchanged personal salutes with Admiral Neville, who stood on the bridge.

According to the testimony given by Harris, the complainant, he had been drinking in the barroom of Mr. Brown's hotel on Wednesday night about 7:30, when Mr. Brown came to him and told him to hurry up and drink his beer and get out, for he did not want him about the place. Harris emptied the beer into a spittoon and told Brown that he would not take another drink in his house.

With that Harris started to leave the hotel, but before he could get out he was overtaken by Mr. Brown, who struck him in the mouth with a lemon squeezer, knocking him to the floor, and before he could get up Brown kicked him on the nose, causing painful wounds in each case.

The testimony of several other witnesses agreed with the story told by Harris, in that he had been asked to leave the hotel and that he had thrown away the beer, saying that he would never drink in the hotel any more. But although one of them stated that Harris had thrown the lemon squeezer at Harris and missed him, none of them saw the squeezer used as a weapon, but said that all the blows had been struck by the fists and not even by the fists, as alleged by Harris. Some of the witnesses also stated that Harris had challenged Brown to a fight, and that Harris had attempted to do his share of the fighting, but had failed to do any damage.

Harris certainly looked as if he had got the worst of the deal, for his mouth was cut, while his face was badly bruised in several places.

As for Brown, he was apparently none the worse except that his hand was broken in the mix-up.

Several teamsters, who had not secured licenses, were allowed to go after taking out the necessary documents.

A young man who sat on one of the city sidewalks was allowed to go with a warning.

George Hughes, a dealer in junk, was fined \$5 for buying junk from two boys who were under the age limit. Hughes put up the defense that he had bought the junk at the request of the boys' mothers; but the court informed him that even if the parents sent a note with their children he must not buy from them.

Four young men who had been standing in doorways on Dundas street, and had refused to move on when requested by a policeman were each fined \$1 and costs.

C. W. Treadgold, who was alleged to have stolen an electric light, was bailed out until next Wednesday.

THE WEATHER.
TOMORROW—COOL.
FORECASTS.
Toronto, April 26—8 a.m.
Today—Northeasterly winds; cloudy to fair and cool.

Saturday—Northeasterly winds and continued cool.

TEMPERATURES.
Stations. 8 a.m. Min. Weather.
Calgary..... 15 16 Cloudy
Edmonton..... 15 16 Cloudy
Winnipeg..... 20 20 Fair
Port Arthur..... 20 20 Fair
Toronto..... 38 34 Cloudy
Montreal..... 38 34 Fair
Quebec..... 40 34 Fair
Father Point..... 40 32 Clear

The first column in the above table records the temperatures at 8 o'clock this morning, and the second column records the minimum temperatures recorded the 24 hours previous.

LOCAL TEMPERATURES.
The highest and lowest readings of the thermometer at the local observatory for the 24 hours ended at 8 p.m. Thursday were: Highest, 51°; lowest, 34.5° above.

Detroit, April 25.—Forecast for Lower and Upper Michigan, Friday—Fair, with slowly rising temperature away from the lakes. Saturday—Fair and warmer; light variable winds.

KAISER FAVORS CLUBS
Also Sport—Remarkable Change in Views of Wilhelm II.

Berlin, April 26.—An interesting note is published showing the alteration in the Kaiser's opinion of club life in Germany. Many years ago when he was crown prince, he forbade the officers of his regiment to belong to or visit the well-known Berlin Sporting Club. He is now the protector of the fashionable Casino Club, the members of which are chiefly aristocrats and military officers.

The Kaiser is also an honorary member of the Junior United Service Club and the Cavalry Club of London, and of the Royal Yacht Squadron of Cowes. The military officers, the Imperial Automobile Club and the Imperial Yacht Club of Kiel.

ASSAULT CHARGE AGAINST HOTELMAN

A Lemon-Squeezer Figures in the Case—Spitter Let Off With Warning.

William Brown, proprietor of a local hotel, was called on at the police court this morning, to answer to a charge of assault laid against him by Frank Harris, a colored man, who claimed that Brown had struck him on the mouth with a lemon squeezer, kicked him in the nose and abused him in various other ways. After hearing the evidence the magistrate adjourned the case until Tuesday next when he will give his decision.

According to the testimony given by Harris, the complainant, he had been drinking in the barroom of Mr. Brown's hotel on Wednesday night about 7:30, when Mr. Brown came to him and told him to hurry up and drink his beer and get out, for he did not want him about the place.

Harris emptied the beer into a spittoon and told Brown that he would not take another drink in his house.

With that Harris started to leave the hotel, but before he could get out he was overtaken by Mr. Brown, who struck him in the mouth with a lemon squeezer, knocking him to the floor, and before he could get up Brown kicked him on the nose, causing painful wounds in each case.

The testimony of several other witnesses agreed with the story told by Harris, in that he had been asked to leave the hotel and that he had thrown away the beer, saying that he would never drink in the hotel any more. But although one of them stated that Harris had thrown the lemon squeezer at Harris and missed him, none of them saw the squeezer used as a weapon, but said that all the blows had been struck by the fists and not even by the fists, as alleged by Harris. Some of the witnesses also stated that Harris had challenged Brown to a fight, and that Harris had attempted to do his share of the fighting, but had failed to do any damage.

Harris certainly looked as if he had got the worst of the deal, for his mouth was cut, while his face was badly bruised in several places.

As for Brown, he was apparently none the worse except that his hand was broken in the mix-up.

Several teamsters, who had not secured licenses, were allowed to go after taking out the necessary documents.

A young man who sat on one of the city sidewalks was allowed to go with a warning.

George Hughes, a dealer in junk, was fined \$5 for buying junk from two boys who were under the age limit. Hughes put up the defense that he had bought the junk at the request of the boys' mothers; but the court informed him that even if the parents sent a note with their children he must not buy from them.

Four young men who had been standing in doorways on Dundas street, and had refused to move on when requested by a policeman were each fined \$1 and costs.

C. W. Treadgold, who was alleged to have stolen an electric light, was bailed out until next Wednesday.

VOTED STRONGLY AGAINST UNION

Hill Street Methodists Are Not in Favor of Joining With Hamilton Road.

The trustees of the Hill Street Methodist Church met last night and considered the expression of opinion which was given this week by the congregation with reference to the union with the Hamilton Road Methodist Church and the building of a new edifice on the Hyatt property.

It was found that 77 per cent of the congregation were opposed to the enterprise. A fact which seemed to have impressed and influenced most strongly was the work and prosperity of the cause at Hill Street. It is about eighteen years since it was founded, and during that time it has steadily grown. At present it is composed of a loyal and enthusiastic band of workers. Its spiritual life is strong, as is shown by the unity, harmony and sociability that prevail. Its membership is rapidly increasing, its Sunday school is too large for its accommodation, and therefore the congregation felt it was decidedly unwise to disturb the cause.

Another thing which added to this thought was the rapid growth of the city to the east of Rectory street, and it was considered that there is an abundance of opportunities for both churches to prosper and flourish.

In view of the vote, the trustees decided it would not be advisable to attempt at the present time to carry out the proposed plan. It is very probable that in the near future the Hill Street church will either build a new church or enlarge the present one.

COMPANY CAN BEAUTIFY
But City Will Do Nothing Towards C. P. R. Sunken Garden.

The board of works last night instructed Parks Commissioner Pearce to write Superintendent Murphy, of the C. P. R., stating that the city will be pleased if the company will improve the grounds around the depot as suggested by Mr. Thomas Martindale, so as to make a sunken garden of the big hollow which years ago was known as Lake Horn, and now forms part of the depot grounds on Richmond street.

Yesterday Mr. Pearce had an interview with Mr. Murphy, and the nice things the park commissioner said of that affable gentleman would make him blush if he heard them.

At the meeting of the board of works last night Mr. Pearce informed the members that Mr. Murphy had stated that he was ready to do his share of the work of further beautifying the grounds and converting the hollow into a sunken garden.

Mr. Murphy promised to wall up the creek, clean it out, and erect a dam so as to make a paddling pool for children, and at the same time form a miniature cataract. All this Mr. Murphy would do this year, and in the years to come he would do more. He was ready to hand over the grounds practically to the use of the sunken garden.

Fernie Miners Go to Work Certain Govt. Will Be Just

Conference Fails, But Men Will Work During the Inquiry.

[Special to The Advertiser.]

Ottawa, April 26.—Hon. Rodolphe Lemieux, minister of labor, in the House today stated that he had received telegrams from the mines district, stating that the conference has failed to come to an agreement between the parties, but the miners have decided to return to work pending investigation.

Last night the minister received the following telegram from MacKenzie King: "Fernie, B. C., April 25.—Different interpretations given of yesterday's propositions at conference today. Consequently failed to agree. Executive board now holding meeting with Fernie miners, and they have decided to return to work pending investigation. Will wire results later."

F. H. Sherman, representing the men, wires as follows:

"Fernie, April 26.—Sessions of week have resulted fruitlessly owing to misunderstanding of industrial disputes act. District executive having failed to agree with operators, have decided to advise miners to return to work. This advice has been accepted by the Fernie men. Have reasons to believe that operations of mines will be resumed in this district as soon as possible. Will refer the disputes to investigation, believing your Government want to see justice done all parties."

The minister received a telegram from Sir William Mulock stating that he would leave tonight for Fernie.

PROF. MOOROF SUICIDES
Famous Introducer of Iodoform Throws Himself in the Danube.

Vienna, April 26.—Prof. Albert Moosetig-Moorof, the famous surgeon and introducer of iodoform, threw himself into the Danube today while suffering from mental trouble, and was drowned.

Dr. Falconer has received the honorary degree of LL.D. from the University of Fredericton and from St. Francis Xavier University.

TRADE BOARD FIFTY YEARS OLD
HALF CENTURY MARK IS PASSED

INCREASED PAY FOR POSTMASTERS

Important Announcement by Mr. Lemieux—Amendments to Subsidies Bill.

Ottawa, April 25.—Rural postmasters will be comforted by the announcement made by the Postmaster-General in the House of Commons today, that the House has decided to increase the remuneration of those officials and that the new scale would be ready in a few weeks. For several hours the House was occupied by the discussion of an address to his majesty, asking that the constitution should be amended in order that payment of provincial subsidies might be placed on a basis of payment according to population. The address had been recalled from the senate in order that it might be so amended as to provide that the assessment for Manitoba, Saskatchewan and Alberta should be on the last quinquennial census. One of the incidents of the lengthy debate which took place before the address was sent back to the senate was an exhibition of temper by Mr. Armand Lavergne, resulting in his being sharply called to order by the deputy speaker. Later in the sitting the House resumed consideration of the railway subsidies, Mr. Fielding stating that the minimum amount required would be nearly \$3,500,000.

UNITED IN THIS
Toronto, April 25.—Hotelkeepers located within the district covered by the prohibitive proclamation of the Dominion Government which deals with twenty miles on either side of the work of the new transcontinental line, will have to refrain from the sale of intoxicants during the time of the building of the railway.

Such was the statement of the Provincial Secretary, Hon. Mr. Hanna, when asked this morning concerning the reported action brought against three saloonkeepers and one shop dealer in Keewatin village, which comes within the specified territory.

There will arise no question as to the power of the Dominion Parliament to enforce their regulation within the boundaries of the Province, as the Ontario Government will stand prepared to assist in any effort to stay such sale of intoxicants as might prove dangerous to life or property where dy-

ing on the new railway is going on.

THE FIRST BOARD.

Lionel Ridout, whose father was the

(Continued on Page Eight.)

DR. FALCONER FOR 'VARSITY

The Eminent Canadian Scholar and Divine Chosen President.

Toronto, April 26.—Robert A. Falconer, M.A., B.D., LL.D., Litt.D., of Halifax, has been selected by the board of governors for the presidency of the University of Toronto. At the regular meeting of
