VOLUNTEER AUXILIARY WILL BE ORGANIZED AT CITY HALL TODAY

Twelve Nurses of Lord Kitchener Division Already at Work.

Many young girls and women of the Lord Kitchener Nursing Division, No. 28, met at the Royal Bank Building last evening in response to the call for more nurses to fight the influenza epidemic. As a result of this meeting twelve of these nurses volunteered for service, and have been placed in homes needing them. These who went on duty last night will be replaced by others today. Mrs. J. B. McKillop, in charge of the Lord Kitchener Division, remarked on the wonderful way in which the girls came forward and offered their services. Some who already had sickness in their homes, and were unable to respond to the call, only feared that they might be called slackers. Mrs. E. B. Smith has offered to help convey the girls to and from the homes in which they are nursing. The local branch of the Ontario Emergency Volunteer Auxiliary, of which Mrs. J. B. McKillop has been appointed president, will meet for organization in the city hall chambers today at 2:30. All women in the city who are willing to offer their services as nurses are asked to be present. Special lectures for the purpose of instructing the people in the care of influenza patients will commence here probably on Thursday or Friday. These lectures, three in number, will be given by Mrs. McKillop as soon as possible. People wishing volunteer nurses, or those who are willing to volunteer their services, may apply to Mrs. J. B. McKillop, Phone 461.

This "Ontario Emergency Volunteer Auxiliary" was formed in Toronto on Thanksgiving Day, with branches in the various Ontario districts, the executive committee being the district presidents of women's institutes and lady division superintendents of the St. John Ambulance Nursing Divisions. Mrs. J. B. McKillop is the executive head for London.

NEW REGULATIONS FOR PARKING CARS IN DOWNTOWN AREA

Will Not Be Permitted to Stand More Than Hour.

HAMILTON ROAD FLOODS

City Has Problem in Matter of Annual Damage Claims.

Automobiles will not be allowed to stand for a period longer than one hour on Richmond street between the Grand Trunk depot and Fullarton street, or on Dundas street between Ridout and Wellington streets, when the new traffic bylaw comes into force. In other portions of the city cars may be allowed to stand for four hours. The police suggested three.

Other important changes that are proposed for the new bylaw forbid standing a car within 20 feet of a fire hydrant, theatre entrance or street crossing. Cars cannot be parked under any consideration in the new lanes.

Speed on Bridges.

The bylaw regulates the speed on bridges at five miles an hour for all vehicles. Four-ton trucks loaded may not travel at more than 10 miles an hour, and ten miles an hour, 6-ton trucks with steel tires six miles, and with rubber tires, eight miles. The new bylaw may be presented to the city council on Monday.

City Treasurer Bell reported on the amount spent on the different works according to date. All departments, with the exception of the auto maintenance, are under the estimate.

Under the estimate, the total expenditure for the department will be \$48,106 and \$34,350.36 has been expended. The department figures are:

Estimates Expended.

To Oct. 15.

Auto maintenance . . . \$ 587.00 \$23.08

Bridges . . . 2,190.00 323.83

Bathing Camps, S. . . 577.00 472.00

Bathing Camps, N. . . 220.00 212.00

City Hall . . . 420.00 313.00

Railway Crossings . . . 1,035.00 8.02

Sewers, Curbs, . . . \$3,588.00 4,738.00

Streets, Gen. . . 23,688.00 19,583.00

Storage . . . 740.00 14,512.00

This amount will be apportioned to the different accounts at the end of the year.

City Orders Truck.

Engineer H. A. Brazier was authorized to purchase a 1-ton truck to cost \$1,000. It will replace two horses and carts used on the sewerage department.

The engineer said there would be great saving in time; also the sale of the old truck to the city would have made it necessary to secure a new stable, and one is not available.

The engineer said it was necessary to purchase two new horses for the sewerage department, the cost would be \$500, and this will leave the net cost of the truck \$500. The engineer said he would save \$230 a year in the cost of operation.

Those Floodings.

The city has a serious problem to solve in the annual flooding of Hamilton road, near Price and Hyde streets, along with sundry cellars in the neighborhood. Already damage actions have been entered against the city for damage and others are threatened.

Engineer Brazier says the water reaches this neighborhood almost as a flood in the spring. He laid the blame on the erection of a house which blocked a 21-inch sewer pipe. He suggested several remedies, but all had faults. They were either too costly or else the results would lead to other serious actions. The committee decided to pay a visit to the scene of the trouble today.

Ald. Watt wants the city to purchase the plant of the London Foundry Company. He also wants the city to erect retaining walls along the side of the bridge, and fill in under the bridge to the river bank. He said the bridge would soon have to be replaced at a cost of \$5,000, and he thought that with the fill in cement might be used on a portion of it. No action was taken.

Ald. Wilson's proposal to have silent policemen erected was up again.

"The silliest thing I ever heard of," said Ald. P. J. Watt. Ald. Drake opined that the city had enough now.

The matter of replacing the present heating system at the court house and jail that soft coal may be used, was discussed. The cost will be \$5,800, and not only will the heating and ventilating system be improved, but 400 tons of hard coal will be saved. Some of the members of the committee demurred. They thought it would be well to lay the matter over until after the war. However, it is said that the present boilers will not last out the winter, and Controllers Saunders, Moore and Ald. Winnett will look into the matter.

The Bell Telephone Company asked permission to erect 17 poles on Spruce street, and 7 on Hyde street.

The request will be granted if the company will pay a rental. The Bell Company has already applied to the railway board against such a charge.

GOLDEN WEDDING

Mr. and Mrs. Emos Lacey of Calgary, Alta., formerly of this city, celebrated their golden wedding on August 27 last at the home of their son and daughter-in-law, Mr. and Mrs. W. R. Lacey of that city. Those present on the occasion were their daughter, Mrs. T. G. Case and J. G. Case, their grandson and wife, Mr. and Mrs. Ernest Richardson, Mrs. Fred Richardson, Mrs. William Chapman, and the Misses M. M. and Minnie A. Lacey, all of this city. Mr. and Mrs. William Gardner of Calgary were also present. A most enjoyable time was spent.

THANKSGIVING GRAVY

There's something strange that always seems to come to me, while in my dreams.

A notion queer this form does take.

That someone's made a huge mistake.

I turn it over in my mind.

The kernel of the truth to find.

And lo, I get it with a start.

For Germany's forgot her part.

Her prompt reply to Wilson's note.

Does not entitle her to vote.

Upon the finish of the war.

It's up to her to get a jar.

It's very well to raise one hand.

For peace with this far western land.

But, while the other flings the torch.

The flames must still be made to scorch.

By "scorch," I do not mean "to burn."

But to run like—they'll have to learn.

For the Allies will, 'mid war's alarms.

Teach them they'll have to lay down arms.

There's a debt to pay that they've overlooked.

The towns and cities that they've cooked.

The widows and orphans that they've made.

And the districts that to waste they've laid.

So now it's up to the Allies to look.

And see that the Huns are brought to book.

They must see that they're dis'd up nice and tender.

With the gravy of "unconditional surrender."

October 14, 1918. F. G. J.

MACKENZIE'S HOLD UNIQUE REUNION AT DALMAGARRY COTTAGE

Centennial Celebration Held at Hyde Park, Ontario.

A delightful and unique reunion was held at "Dalmagarry Cottage," Hyde Park, Ont., on Monday, October 14, 1918, when the direct descendants of the original owner, Major Duncan MacKenzie, J. P., gathered, with their families, from various points in Canada and the United States.

The occasion was the celebration of the close of 100 years since "Dalmagarry Cottage," otherwise known as "Dalmagarry," was built on the site of the property of Duncan MacKenzie, a family known as the "Old Squire."

The grant of land, which he, as a British veteran after the French revolution, received from the Government at that time, included 800 acres, 700 of which were afterwards disposed of to incoming settlers. The deed to the remaining 100 acres bore the seal of the then reigning British sovereign, George IV. of England.

Duncan MacKenzie, born at Ruthven, Perth, Scot., in 1780, joined the 5th Battalion, Royal Artillery, remaining and being active service through the battle of Waterloo. In 1817 Mr. MacKenzie, his wife, Margaret Barclay, and their children, arrived in Canada, and on October 15, 1817, settled on the above mentioned property, in 1837 he received his captaincy in the militia, during which year he commanded a battery at Chippawa.

Later, in 1841, he organized the London Independent Volunteer Artillery, which he maintained at his own expense for fifteen years, and which in 1856 was reorganized by Col. Shanly, and became the London Field Battery. The field guns were brought from England and were the first used by the Canadian militia.

In 1856 Capt. MacKenzie retired with the rank of major.

In 1857 he was appointed a county magistrate, and for several years was acting associate commissioner of the court of request.

"Dalmagarry Cottage," the third house built on the homestead (the first two being log cabins), was built in 1836, and is now the property of Henry Moxie to whom his wife, is a grand-daughter of Major MacKenzie.

Mr. Moxie, who lives on the homestead where he was born, with his daughter, Mrs. Johnstone, and Mrs. (Dr.) Hoare of Walkerville, and his daughters, and only remaining survivors of the large family of twelve children, born to Duncan and Margaret MacKenzie.

IN THE LAND O' COMMON SENSE

Says it is suicide to cut corns, and tells how they lift right out

You simply say to the drug store man, "Give me a quarter of an ounce of Freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn root and all can be lifted out with the fingers without pain.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while Freezone is sticky it dries in a moment, and seems to simply shrivel up the corn without offending or even irritating the surrounding tissue or skin.

Don't let father die from infection or lockjaw from whitening at his corns, but cut this out and make him try it.

You Cannot Afford To Neglect the Feet of Your Children

You realize that in this day and age, to be truly happy and successful, a person must be entirely fit and able through and through.

Because their whole happiness—their health, and success in life may depend upon it, you should guard against every defect you possibly can, in the physical and mental make-up of your boys and girls.

One serious defect frequently overlooked, because not easily seen until too late, is that of feet badly formed and broken down—a defect due to wrong training. The parents did not realize that many shoes will harm the growing feet—that they must have shoes which shape and guide like HURLBURT AND LOTUS SHOES FOR BOYS AND GIRLS.

Bring in the kiddies and have their feet fitted by expert fitters of children's feet.
