57TH YEAR.

Opposition Members in Federal Parliament View Proposed Measure With Certain Degree of Suspicion-British Citizenship Must Be Basis for Franchise.

Ottawa, March 12.—On the face of it, the new Dominion franchise bill introduced in the Commons yesterday qualification for the franchise is that a person shall be a British subject resi-dent in the Dominion. Opposition members, however, are prepared to be sus-picious until they have had full explan-ation and see the bill. They are distrustful of the advanced poll proposals for the more nomadic members of the community and suggest that this provision may be susceptible of much manio ulation in election times. With registration in urban centres they are fairly well satisfied, but with enumeration

for the franchise. But the amended of it, naturalization act places in the hands of the secretary of state who is a politician, complete discretion not only in first the matter of granting certificates of Hon. Hugh Guthrie, and given first the matter of granting certificates of reading would appear to be a reason-naturalization but of cancelling natur ably fair and equitable measure and susceptible of but little manipulation. It affirms no disfranchisement provisions, however, it may imply them. The main from his decision. The debate on the from his decision. The debate on the new bill is bound to occupy consider-able time and will be scanned closely, not only by the official opposition, but y the members of the farmers' party. who are quite as deeply interested. INDIANS ENTER PROTEST.

Brantford, March 12.—Today a protest Nation Indians against the amendments of the franchise act, whereby the Indians of Canada would be compulsorily enfranchised. The action was expected, the Six Nations being very jealous of the Six Nations being very jealous of their treaty rights, which conferred upon them recognition as a separate na-Government, allied to the British only,

Safa Bey, Minister of Foreign Affairs, Makes Denial of Charges.

TROUBLE WAS PROVOKED

Declare Armenian Police Com mitted Acts of Hostility First.

Constantinople, March 12-(By the Associated Press) .- Safa Bey, Turkish minister of foreign affairs, discussing the Marash tragedy and the Cilician situation today, emphatically denied that there was an organized massacre of Armenians, claiming that one or two hundred noncombatants, Turks as well as Christians, had been killed or wounded.

His version is that after the British troops withdrew, the French enrolled large numbers of Armenians in the local géndarmerie. Patrols formed of Armenians made themselves offensive in the Mussulman districts of Marash, and committed violence and crimes against the Moslems.

the Moslems.

"These Mussulmans abstained from hostile manifestations, but apparently their intentions were misunderstood, for they were absent. for they were fired upon by the Armenians guarding the residence. The Turkish crowd was unarmed, but defended itself with stones. ish crowd was unarmed, itself with stones,
"A little later, Armenians, civillans and military, attacked \*the Mussulman population without sparing the women or children. Then the Mussulman or children of self-preservathrough the instinct of self-preserva-

on, began firing. "Immediately cannon and machine guns opened on the Turkish quarters, many of which were consumed by fire, while the Mussulmans were mowed down by hundreds. The fact that the fighting was exclusively in the Turkish quarter proves that the Turks were not

#### AMERICAN ENGINEER **URGES CO-OPERATION** TO FURTHER PROJECT

Dr. Isham Randolph Speaks to Businessmen of Windsor.

ADVANTAGES

Some U.S. Senators Would Oppose Any Scheme Backed by Britain.

Windsor, Ont., March 12.—A plea for a greater spirit of co-operation between the United States and Canada to push the deep waterways project was urged by Dr. Isham Randolph, one of the leading engineers in the United States, speaking to members of the Border Real Estate Board last night.

The Welland Canal, the Lachine Canal, and others on the St. Lawrence built by the Canadlan Government were seen by him as connecting links of the greater waterway, which he is confident will be constructed.

"This great waterway would be of This great waterway would be of Although one-man street cars have will be constructed.

"This great waterway would be of greater benefit to the United States alone than the Panama Canal is to the whole world," he said. He spoke of the kinship between the people of Canada and of the United States, but warned his audience that there were men in the United States Senate who would oppose any project that sayored of

BIG FUR AUCTION

Montreal, March 12.—A feature of the branches of mercantile trade in opposing two measures now before the Ontario Legislature, viz., the raising of the amount of wages, at which a garnishee can be attached to \$50 instead of \$20, and the doubling of the fee for inspection of weights and measures and inspection once a year instead of every two years.

Montreal, March 12.—A feature of the first public auction sale of furs in Canada, to begin here March 22, will be the collection of silver fox skins from Prince Edward Island. Over 300,000 muskrat skins will be shown, valued at around \$4.60 each; 22,000 mink skins, 16,000 beaver skins, and over 40,000 raccoon skins. Other items are 30 musk skins and some buffalo skins.

FRIDAY EVENING, MARCH 12, 1920. THIS TREE BRINGS OWNER NEARLY \$100.

WHAT ONE TREE alone can do towards making a living for the fortunate man who happens to have it growing on his property; was demonstrated a few days ago when a huge soft elm tree was cut in William Elson's bush, seven miles out of Wingham. This tree was cut into three 12-foot logs, and teamed to F. McLean's mill in Wingham, to be cut in lumber. TOTAL OF 2,804 FEET.

The result was as follows: The bottom log, off the stump, yielded 1.000 feet of lumber; the second log. 954 feet, and the third log, 850 feet, making a total of 2,804 feet. This quality of wood sells at \$35 a thousand in the log, so that he proceeds from the log for the owner would be \$98.14. COON PELTS VALUABLE.

But this was not all, Fortune was even kinder to Mr. Elson, putting coon's nest in the top of the tree. There were three coons whose pelts are valued at \$70, making the net profit from the tree to be \$168.14.

## GENERAL BOOTH TO VISIT LONDON

LONDON, ONTARIO.

Famous Salvation Army Officer To Speak in London On Canadian Tour.

General Bramwell Booth, Salvation Army officer of world fame, will visit London this year. The exact date for his visit has not been arranged. He will be in Toronto on October 16, 17 and 18, and in all probability will visit London directly after. General Booth is at the present time on his way to Australia on an extensive campaign tour.

This will be his first visit to the Forest City. He made a flying trip to Canada six years ago, but Toronto was his only stopping place. He will tour the whole Dominion before returning to London England.

London England. The general is noted for his organiza-tion abilities in the time of the great war. He had his officers into thickest of the battles feeding and caring for the fighters and wounded. It was through his organization of Salvation Army forces that eliminated a great deal of suffering among the troops when they were either in the trenches or training

# WOULD ONE-MAN STREET CARS BE

Although one-man street cars have not been seriously discussed as a so-lution to the street railway problem here, they have attracted the atten-tion of Canadian visitors in cities here, they have attracted the attention of Canadian visitors in cities where they are in use in the United States.

Dr. George H. Locke of Toronto, writing to a Londoner from Birmingham, Alamama, where he is spending two months vacation, states that the one-man cars are used on three short lines there, and that they are the most convenient cars in the city.

This new type of street conveyance was tried out in 1916 at Seattle purely for experimental purposes. Those favorable to its use claim it clearly demonstrated that the theory of big cars and long intervals of service is wrong and that the latter theory of smaller cars, but more frequent service is the

cars, but more frequent service is the The one-man, automatic, safety, light The one-man, automatic, safety, light weight car is moderate in size. It is equipped with automatic appliances to enable the motorman to control the collection of fares. It is claimed that it can be operated at a greater schedule speed than the heavier type of car. Brooklyn, N. Y.. is said to be operating this typ with success.

#### WHOLESALE GROCERS IN MANY INSTANCES **REAP SMALL PROFITS**

O'Connor Declares That Many Would Be Better Off With Doors Closed.

RETURNS ARE RELIABLE

Commissioner Makes Statement At Hamilton Hearing

Today. Hamilton, March 12 .- That the wholesale grocers of Canada would be better off by closing their doors was the surprising statement made by Commissioner W. F. O'Connor, when the board of commerce resumed its hearings of the alleged grocers' combine case this morning. Mr. O'Connor based his assertion on returns which have been made to the Government since 1913. He said that the highest profit made in five said that the highest profit made in five typical cases selected was 5% per cent, while in the ordinary market money was worth 6 or 7 per cent. These returns were "unquestionably reliable."

"As there may be in the public mind an idea that these proceedings have been undertaken because it was charged the wholesale grocers have been making excessive profits, the board of commerce has seen fit to make a declaration to alleviate the public mind," said Mr. O'Connor.

Mr. O'Connor said he had in mind four or five typical cases, of which two or three were Hamilton firms. In one case the gross business of a concern case the gross business of a concern was \$1,300,000 per annum; the capital was \$1.300,000 per annum: the capital invested and at work \$800,000.

It cost the firm 11½ cents on the dollar of business done. The remuneration that the interested parties draw for doing that business is three-quarters of 1 per cent per annum. The net profit is 1½ per cent. The gross profit on the capital invested is 6 per cent."

Mr. O'Connor cited other cases along similar lines, and then said: "These things I have stated have no connection with the charge of an existing complex.

## FLOOD FOLLOWS IN **WAKE OF TORNADO** IN SOUTHERN STATE
