By the age of, twenty-five every man should be so heavy that it would be no joke. The revenue so accumulated should go into a fund for state subsidies for motherhood.

There is no sort of useful education which a man or woman should mot have completed by the age of twenty-four years at the latest. And when a man marries he should marry a woman who takes him for himself, not for his lates.

She frowaed a little. Then she said, evasively:

"It would be a nice home for you, my dear, and you'd be treated more as a family friend than a servant. I hadn't thought about salary, exactly. You'd have free board and lodging—a big consideration these days!—and"—this very magnanimously—"pocketmoney." market was overstocked. What career remained to me?

And it would provide a roof over my head, in the meantime.

Pretty soon I found myself out in the street again, on the old, dreary quest for work. My enthusiasm was quite gone. My wish for independence, too. I longed for home, for the sweet country sights and sounds, the fresh air, the care-free life.

I have been considerably troubled for some time with formations of gas on my stomach, quite severe at times. I would appreciate it if you will give me a list of proper foods and food combinations which would be correct for me. (C. H. B.)

ANSWER—Read the reply to the foregoing query and substitute, oh, any one of a score of different conditions or diseases in which "gas on the stomach" is a common complaint. The food combination idea is a charlatan's bunk. Instinct and taste or appetite alone are the safest guides as to the combination of two or more foods at one meal. There is no need for any pseudo-scientific nonsense to decide whether one cares for any two foods at the same time.

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel.

Though Nina has a typically French sound, the name is regarded as English. However, it came to us through the French by a lengthy process of evolution. The Hebrew Chanaach was its earliest source and from this word t derived its significance of "grace."
Through the English Hannah, it came Through the English Hannah, it came to France as Anne, and was soon given the diminutive, Anneste. As Nanette, it appeared simultaneously, but the French love of variety changed the latter form to Nanon and finally Ninon.

The beauty and fame of Ninon de l'Enclos, superwoman and court "vamp" in the reign of Louis XIV, spread her name afar. It became almost a synonym for charmer, and the maids of several countries coveted it. But Ninon is too Gallic for English ears, so, in its transportation across the channel the ending underwent a change and Nina was the final result. It has enjoyed extraordinary vogue in America, too.
