SCHOOL BOARD HOLDS IMPORTANT MEETING

Local Option Suffers Temporary Rebuff—General News From All Parts of County.

TORONTO JUNCTION, Nov. 12.—A meeting of the executive of the Conservative Association is arranged for Friday evening, Nov. 15, at the office of the president, Dr. Hackett, 113 West Dundas-street.

In the police court to-day two 17-year-old boys, named John Usher and Fred Moses, were fined \$1 without costs for disorderly conduct. Mayor Baird presided.

The case against W. J. Brown of Weston-road, who is charged with having liquor on his premises, will be brought up on Friday. Police Magistrate Ellis is expected to return from Alberta this week and the case has been held over until his return.

Big Increase in Pupils.

The regular meeting of the school board was held to-night. The supervisor's report showed a large increase in attendance and again demonstrated the necessity for relieving the overcrowded state of every school in the Junction.

The present registration and attendance in the different schools are as follows:

School	Registration	Total	Average
Annette-street	657	587	415
Western ave.	602	415	408
Carlton	408	308	243
St. Clair-ave.	243	208	158

The foregoing figures show the total registration in town for October to be 1858, an increase of 86 over the month of September. "In four weeks," said Supervisor Wilson, "we have said additional pupils for an extra teacher."

The crowded condition of St. Clair-avenue school, the supervisor thought ought to receive special consideration from the board. "Why," he asked, "are we on half time thru want of room; we are one year behind the time in school accommodation. It's astonishing the number of houses that are going up in that vicinity."

Objects to New Plan.

Principal McDonald of Annette-street school complained of the new innovation in the teaching staff, brought about by the board, whereby a teacher should specialize in some certain subjects and divide his or her time in different rooms. He believed that a teacher should be competent to teach every subject on the public school curriculum, and believed that far more satisfactory results would be secured if teachers were allowed to devote their entire time to one particular class.

Trustee Dr. Hackett favored the new idea and thought it should be given a longer trial.

Trustee Wright believed, that the board had favored teachers specializing in the teaching staff, in public schools and recommended that the old order be restored. The matter was held over till the next meeting of the board.

Several of the teachers complained about the uncertainty of whether or not there was a semi-annual examination for junior fourth pupils in passing into the senior fourth. A resolution making the examination annual had, it seems, been passed by the board, but the teachers had not been notified. Principal Colvin of the St. Clair-avenue school had heard it casually, and the teachers were anxious to know how to prepare their pupils for an examination at the end of the fall term.

Trustee Goodieke Resigns.

The resignation of J. F. Goodieke was received. Dr. Hackett regretted his resignation, and in view of Mr. Goodieke's long and useful connection (13 years) with the board, moved that the resignation be held over till next meeting. The motion was carried.

Complaints were made about the delay in the installation of the heating apparatus for the lavatories in Annette-street school. That W. J. Dalton, the contractor, be allowed two days more to install the heater was the board's decision.

The prize of \$25 presented by C. F. Wright for the best kept school lawn was divided into a first prize of \$15

and second prize of \$10. On a secret ballot members of the board the first prize was awarded to Carlton-street school and the second prize to Annette-street school. Mr. Bowering, caretaker of Carlton school, was congratulated by the board on the efficient way in which he kept the school grounds.

EAST TORONTO.

Crown Attorney Takes Action Re Death of Young Wigmore.

EAST TORONTO, Nov. 12.—Crown Attorney Drayton to-night issued instructions that the body of the man Wigmore found on the G.T.E. tracks on Sunday morning must not be allowed to leave Undertaker Cobble-dick's until the arrival of the dead man's father from Seattle.

The crown attorney's action was taken owing to the receipt of a telegram by Coroner Britton from the dead man's father in which the latter stated that his son ought to have had in his possession some \$800, whereas only a pass book showing a deposit of \$100 on Nov. 2, and \$140 in cash were found at the time. Later Undertaker Cobble-dick found in the lining of the coat \$48, which he at once turned over to Coroner Britton. The society of which Wigmore was a member have wired instructions thru Councillor Berry to forward the body, but the action of the crown attorney has altered the condition of affairs. It is expected that Wigmore's father will arrive in town within a day or two.

Commencement exercises of the East Toronto High School will be held on Friday night, when the T. H. Pheasant prize for oratory will be decided, the presentation of the prizes in the regular school exercises will be held on the presentation of certificates for the midsummer examinations.

The engagement is announced of Miss Mary Evelyn Margaret, eldest daughter of Mr. and Mrs. W. H. Elliott, Kingston-road, East Toronto, to Mr. Philip Friliter Herbert, East Toronto, son of Leonoria Victoria (Jack), youngest daughter of Mr. and Mrs. W. H. Elliott, to Herbert Edward Lawrence, 1414 Bay St., East Toronto. The wedding will take place at an early date in December.

NORTH TORONTO.

Looks Like Hot Contest This Year for Mayor's Chair.

NORTH TORONTO, Nov. 12.—The Ratepayers' Association of the town seem to be in a hot contest for the mayor's chair. Only organized three weeks ago, they held a public meeting last Saturday, and next Saturday evening a public meeting will be held in the town hall, at which J. W. Curry, ex-crown attorney, and several candidates for mayor will address the ratepayers on "Public Ownership." Those who heard Mr. Curry speaking on this subject on previous occasions state that he handles his subject in a masterly manner. The after part of the meeting will be open for general discussion on questions of interest to the town.

Friday evening the executive committee of the Ratepayers' Association will meet at the office of Waddington & Givvy.

Joseph-avenue, in Davisville, will be one of the finest streets in town in the course of a few years. Ex-Mayor J. S. Davis has planted shade trees on both sides of the avenue.

It is expected that there will be a hot contest for the mayor's chair at the next election. Mayor Fisher, who has occupied the leadership of the council for upwards of 15 years, has intimated that he intends to retire from public office at the close of the present year. Councillor A. J. Brown, in view of this has announced his intention of running for the mayoralty. He has been requested on previous occasions to run for this office, but he has refused to do so until Mayor Fisher was definitely out of the field. Mr. Brown has been a member of the council for upwards of 12 years, part of which he served as deputy reeve, and during the illness of ex-Mayor Davis, he acted as mayor for about three months.

The strong position taken by Councillor Brown at that time in the matter of the connection between the Metropolitan and Toronto Railways gained him a large number of friends. There are no other candidates mentioned, but it is believed that Councillors S. J. Douglas and W. J. Lawrence will also be in the field.

DOES THIS INTEREST YOU?

A prominent physician, famous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the following simple vegetable prescription:

One ounce Fluid Extract Dandelion;
One ounce Compound Sarsaparilla;
Four ounces Compound Syrup Sarasaparilla;
Mix, shake well, and take in teaspoonful doses after each meal and again at bedtime.

Your druggist can supply the ingredients, and the mixture can be prepared at home at very little expense.

This, the doctor says, acts directly on the kidneys, assisting them to filter the poison from the blood and expels same in the urine, at the same time restoring the kidneys to healthy, normal action.

We feel that a great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.
