Canada to Join U.S. in Food Control

Sir George Foster Awaits Action of Washington Before Stirring

Washington, May 7.—Altho Albert C. Hoover's place in the food control program has not been determined finally, there were indications today that he would be director of food exports and later of price fixing measures, if congress passes the administration's bill.

There have been suggestions of an international food commission, sitting in Washington, to handle American and allied food problems. If it is created the American member probably would be Mr. Hoover.

Sir George Foster, acting prime minister of Canada, who has been here for conferences with the British mission and with American officials, has assured Mr. Houston that the Ottawa government awaits word only from this country before going ahead along the same lines. A Canadian official probably will be placed here permanently to advise his government how this government is meeting the situation.

Beaver Valley Takes Steps to Help Crop

Farmers and Citizens Organize to Insure Working of All Farms.

Clarksburg, May 7.—A well attended meeting of farmers and citizens to arrange for greater production, was held in the Beaver Valley Inn. The meeting was called by C. W. Hartman, at the request of the county organizer, and the following executive was selected to look after this district: C. W. Hartman, G. F. Marsh, R. Ferguson, Joseph E. Alexander and M. Lear. Live men were appointed for each locality.

It was learned that two good farms, with excellent buildings, in this fertile valley might not be worked this year. In one case ill-health prevents the proprietor from heavy work and with only moderate means and the uncertainty of the future markets, he cannot risk the extra outlay. In the other case the owner is now in France, serving his country, but would gladly lease his farm on shares or otherwise.

A resolution was moved by G. F. Marsh, and seconded by Wm. Kide, and carried unanimously, calling upon the Dominion Government during the war to guarantee a minimum price that the farmer may depend upon from year to year for the products of the soil, including live stock, as a reasonable and certain means of securing the desired increase in production. The farmer can then arrange for his own help in competition with the munitions and other manufacturing now receiving such government assistance.

TOMB OF LINCOLN VISITED BY JOFFRE

French Commission is Acclaimed Enthusiastically at Springfield, Illinois.

Springfield, Ill., May 7.—Marshal Joffre, here of the Marne, paid tribute to the memory of Lincoln at the empancipation of the tomb here today, and with the others of the French commission received an enthusiastic welcome in the capital of Illinois.

Marshal Joffre, who placed a wreath upon the Lincoln sarcophagus, with bowed heads and doffed caps, the French hero, Rene Viviani, vice-president of the French council of ministers, and the American officials who accompanied them, filed into the tomb, paid honor to the war president, and left without a spoken word.

At the state capitol, however, where an official reception had been arranged for them by Governor Frank O. Lowden and the legislature, both Joffre and Viviani spoke.

Springfield was the only small city in which the mission has made a long stop, and from the moment they stepped from their official train until they departed
