- 8 Admiral Benbow, d. 1702.
- 9 Eddystone Lighthouse completed, 1759.
- 10 Intercolonial Conference met at Quebec, 1864. — Sir Donald Campbell, d. 1850.
- 11 18th SUNDAY AFTER TRINITY.— Columbus discovered America, 1492.
- 12 Hugh Miller b. 1802. — Lord Lyndhurst, d. 1863.
- 13 Dr. John Brown, d. 1858.
- 14 William Penn, b. 1644.
- 15 Miss Landon (L.E.L.) d. 1838.
- 16 First Provincial, U. S. Congress met at Cambridge, Mass., 1774
- 17 Baron Stowell, lawyer, b. 1745.
- 18 19th SUNDAY AFTER TRINITY.— St. Luke.—Lord Palmerston, d. 1865.
- 19 Raid on the St. Alban's, U. S., Bank, 1864.
- 20 Battle of Navarino, 1827.
- 21 Col. Ready, Lt. Gov., ar. 1824.
- 22 Sir Philip Francis, author of Junius's letters, b. 1740.
- 23 Lord Jeffrey, b. 1773.
- 24 Daniel Webster, d. 1852.
- 25 20th SUNDAY AFTER TRINITY.— Battle of Balaclava, 1854.
- 26 Dr. Doddridge, d. 1751.
- 27 Worcester, lexicographer, d. 1865.—Capt. Cook, b. 1728.
- 28 St. Simon and St. Jude.
- 29 John Keats, poet, b. 1796.
- 30 Fire in the Tower of London, 1841.
- 31 Neva declared a State, 1864.—Hallow Even.

FATTENING ANIMALS of all kinds lay on flesh very rapidly as the weather grows cooler. Keep beeves and sheep in pasture as long as the feed is good, but yard them at night, and feed twice a day with grain, if they are to be marketed soon; otherwise simply feed so as to be sure they are constantly gaining. Pigs should have cooked food, and plenty of it. Push forward their fattening as rapidly as possible, for at no season will they gain faster. Keep them clean and give warm sheltered nests. Poultry also gain very rapidly, and it is best to fatten them on scalded meal, with wheat screenings, and other food in addition, at daylight in the morning, and late in the afternoon.

ROOTS. — Beets, mangolds and carrots, may be dug as soon as the tops show that there is no longer vigorous growth; at all events, before severe freezing. Preserve in cellars after topping, drying, and laying in heaps, protected by the the tops or bagging, a few days, to sweat. If not stored in cellars put them in dry trenches covered with straw, and banked over with earth. Cabbages may be preserved in the same way. Rutabagas and turnips may stand out longer, but not until the ground freezes. The tops of all these roots are worth feeding to stock.

BUILDINGS. — Certain repairs ought to be done before frost, such as require work upon walls, brick laying or plastering. If such work is not greatly needed for the comfort of the family or one's stock, we advise delaying until spring, for it will be rare good luck if it has not all to be done over next season. Done after this month it will hardly stand at all.

Said an old toper to his comrade the other day: "If one swallow make a summer, what a tropical region your stomach must be, old fellow!"
