## BASE BALL

A couple of hundred spectators watched the Tartars of Fredericton make a sensational finish and win from the St. John's in the last thing yesterday afternoon on the Victoria grounds by the score of 3 to 2. Except for a high wind, the weather was excellent for good ball and when it is considered that the game was the first for the home team, the exhibition was a very pleasing one.

**Cup for Society League.**  
A very handsome trophy is being competed for by the Society League teams. It is a handsome silver cup donated by John P. Gleason. The cup is on exhibition in Thos. Gleason's piano store yesterday. It stands attracted much attention yesterday. It stands about eighteen inches high, is richly engraved and tattered in workmanship. Below the bowl are two crossed bats surmounted by a wreath above is a wreath within which lies a silver ball. The trophy is well worthy of the best efforts of the boys.

**THE TURF**  
Won the Oaks.  
Epsom, Eng., June 1.—The race for the Oaks stakes of £500 over three-year-old fillies, one mile and a half, was won today by Kyrleone II. Gold Hock was second and Snow Grey was third. Twelve horses started.

**ENGLISH DERBY RACE.**  
The race for the Derby stakes £500 over three-year-old colts and fillies, one mile and a half, was won today by Kyrleone II. Gold Hock was second and Snow Grey was third. Twelve horses started.

**THE HALF HOLIDAY**  
To the Editor of The Times:  
Sir—Is not this an opportune time, the 1st of June, when there comes the first touch of summer and in a country of snow where the winter and rough elements reign so long and the summer is of such short duration that the workers and employees in wholesale establishments, business houses, offices and workshops should have a Saturday half-holiday and be able to enjoy the pure, bracing air of the country far from the din and turmoil of the place of business and the stifling atmosphere of the city?

The half day on Saturday is much preferable to one in the middle of the week, inasmuch as it does not disturb the week and Sunday, being the Lord's day, can be observed purely as a day of rest. Much has been written of the necessity for playgrounds and fresh air funds, but what is said of the bread earners' need of a change of scene and air.

In countries (especially England) where Saturday afternoon is observed as a holiday, no inconvenience or loss in anyway exists and the movement is looked upon as a boon.

My position is that of an onlooker simply and I shall be glad to see the matter further dealt with.

Yours respectfully,  
JAMES SHAW.

**What Does it Mean?**  
Dr. Hamilton Gives a Full and Satisfactory Explanation.

Look at your tongue!  
Sometimes it's heavily coated, sometimes it's clear and red.  
Study this out and you'll find some interesting evidence with the functional activity of the body.

This means the bowels are not regular, the liver is sluggish and the blood is contaminated.  
Strong cathartic pills act so destructively on the intestines as to prove a death sentence; this often frightens people from taking medicine when they badly need it.

To the multitude of dangerous purgatives now on the market, Dr. Hamilton's Pills are a notable exception, they neither grip, cause sickly feeling or headache, yet they cleanse and purify the entire system in one night. No other laxative acts with such mildness and certainty. Giving proper stimulus to the liver and kidneys, strengthening the stomach and lending valuable aid to digestion, it's small wonder that such marvellous results accompany Dr. Hamilton's Pills.

Mr. George O'Hagarty of Amherst, N. S., writes: "Last winter I worked in a lumber camp and neglected my health. I was dreadfully constipated and had a bad cold. I tried many remedies but nothing helped. I then bought a box of Dr. Hamilton's Pills and took them. I felt better and my health improved. I am now well and strong."

Dr. Hamilton's Pills are sold by all druggists.

regains, which was run on Wednesday last at Epsom, England, and won by Sir Tatton Sykes' Spectator, was, as usual, a notable event. Although the result of the race has already been published the following descriptive of this world-famous contest will no doubt be interesting to horsemen. A despatch from Epsom says: Derby day as a national institution shows no signs of decaying. Old stagers who have travelled over the dusty roads from London to Epsom annually for decades, declare they never before had seen such a rush, while the railways, although they ran scores of specials, were unable to accommodate all the Epsom bound crowd.

Ideal weather helped to swell the holiday crowds and the contrast and excitement of the throngs composing the road-bound traffic were as marked as ever. The Park Lane millionaire and the costermonger exchanged badinage as the four horse coaches and costly motor cars jostled the coterie of barrows and tradesmen's carts flowing in a continuous stream toward the racecourse. The general din was terrific.

King Edward and party of friends came down by special train in time for the first race. The other early arrivals by train were Ambassador Watkiss Reid, Count Benckendorff, the Russian Ambassador to Great Britain; Lord and Lady Essex, the Sultan of Zanzibar, Lord Rothschild and a host of other well known persons.

The crowd at the course was believed to be a record one and the various stands and enclosures were filled with prominent people, among them being the Duke and Duchess of Roxburghe, the Duke and Duchess of Devonshire, the Duke and Duchess of Westminster, Lord Rosebery, Mrs. Langtry and Mrs. George Cornwallis West.

The great race of the day presented a perplexing problem and the most careful experts found themselves at a loss to select the probable winner. In twenty-two runners (the largest field since Vlodavski, five years ago, won the great prize for the late William C. Whitney, a dozen of which were equally fancied by their respective stables. There had not been such an open Derby for years.

On Tuesday Mr. Purcell's Lally led the first place in the betting, but Tuesday evening Lally was dethroned in favor of Spectator. Wednesday morning Lally resumed first place in the betting and started favorite at 4 to 1.

It took some time to get the horses aligned, but finally they were ready for a good start. Troutbeck jumped to the front and led to the mile post, when Picton assumed command and kept the pace to Troutbeck on descending the hill.

A quarter of a mile from home Picton came on with a rush and again assumed the lead, but shortly afterward "Daisy" Maher, the American jockey, riding a splendid race on Spectator, challenged the leader, gradually drew level, forged ahead and won a great race by a length. Picton was second, Troutbeck was third and Radium was fourth. Two lengths separated second and third horses.

"Sinks" Martin, American, rode Troutbeck. The betting was 6 to 1 on Spectator, 100 to 1 on Picton and 33 to 1 on Troutbeck. This was Maher's third Derby. His previous wins were on Rock Sand and Cherry. The jockey, who is a great favorite in England, received an ovation on returning to the scale. King Edward's entry, Nall Secombe, made a poor showing.

**MOOSEPATH OPENING.**  
The Moosepath driving track will be opened for the summer season tomorrow. The club have had a number of improvements made and the property is now in good shape for the trainers. Men have been engaged in putting the place in good condition and it is expected the season now opening will be a busy one.

Fredericton has a number of fine horses and they will probably make it interesting for some of the drivers at the various meets in the circuit before the season closes.

The racing dates at Moosepath this year will be as stated some time ago, during exhibition week and good sport is expected, as there are a number of new ones through the province, which are talked of as being very fast, and the good purses that will be offered should bring them all here.

**ATHLETIC**  
**INTERCOLLEGIATE SPORTS.**  
Acadia won the intercollegiate championship sports held at Moncton yesterday. By points Acadia made 42, Mount Allison 29, U. N. B. 19.

No less than three records were broken and another equal.  
Summary of events are as follows:  
100 yards dash—Howe, Acadia, 1st; Black, Mount Allison, 2nd; McArthur, U. N. B., 3rd. Time—10.2.5.

High jump—Howe, Acadia, 1st; Howe, Acadia, 2nd; Eaton, Acadia, 3rd. Height—4 feet 3 inches.  
Running broad jump—Bird, U. N. B., 1st; Howe, Acadia, 2nd; McArthur, U. N. B., 3rd. Distance—Twenty feet eight and a half inches.

220 yards run—Black, Mount Allison, 1st; Howe, Acadia, 2nd; McArthur, U. N. B., 3rd. Time—3.15.5 seconds, breaking previous record, 2.33.5, made by Howe, Acadia.

Hammer throw—Sutherland, Mount Allison, 1st; Webster, Acadia, 2nd; Steeves, Mount Allison, 3rd. Distance—90 feet.  
Quarter mile run—Black, Mount Allison, 1st; Bridges, U. N. B., 2nd; Doe, 3rd.

The date which Columbia had on the Yale schedule last season has been given by Amherst for next fall. Yale has not met Amherst in football for several years. Most of the other dates on Yale's schedule will remain just as they were last season.

The schedule has not yet been announced owing to the uncertainty about the Harvard game and the chances are that it will be some little time before the schedule is given out. Yale has usually given out the football schedule in April and occasionally earlier. The delay this year has been due to the desire on the part of Yale to wait until Harvard should decide whether or not she should play football.

**QUOITS**  
In the quott league in the West End last evening, the West Enders won the first game, 21 to 19. Newman Brook took the second by 21 to 20, and the third by 21 to 18. After the matches there was a musical programme in the club house.

Plumbers in Cincinnati have accepted the proposition that the Saturday half holiday should go into effect on July 1, 1907, and that the existing wage scale remain in force until May 31, 1908. The scale of \$4.10 per day has been granted.

Shot put—Webster, Acadia, 1st; Fitch, Acadia, 2nd; Baird, U. N. B., 3rd. Distance—33 feet 7.12 inches.

120 yards hurdles—Howe, Acadia, 1st; Wood, U. N. B., 2nd; Baird, U. N. B., 3rd. Time—10.3.5. This breaks not only the inter-collegiate record of 13.13 seconds, made by Mann, of Mount Allison but also breaks the maritime amateur record.

Pole vault—Lewis, Acadia, 1st; Cline, Mount Allison, 2nd; Patterson, Mount Allison, 3rd. Height—N.A.A. feet nine inches.

One mile run—Atkinson, Mount Allison, 1st; Rutledge, U. N. B., 2nd; Josi, Acadia, 3rd. Time—4.58. Best previous records of 4.57 made by Batty, of Acadia.

**THE RING**  
**SULLIVAN'S GREATEST FIGHT.**

In the longest battle of his most remarkable career, John L. Sullivan, "champion of champions," a man whose name and fame are perhaps more intimately known to the great masses of the American people than that of any other living American, gave a signal victory. He has knocked out John Barleycorn after a fight lasting 29 years.

"I was never so successful as a saloon man," I could never refuse a man liquor if he asked for it and had no money, and I couldn't sell him liquor when he was drunk and didn't know what he was doing. I was a poor entertainer, for I was always in the street with the end of the unfortunate part of it.

"Mind you, I'm not delivering a temperance lecture. I know that every man who has his finger in the ring has twenty boys of lively dispositions. I would control them for a while. Then I'd take the reins and bring them up with some sage advice."

"I can take a philosophical view of things. The drinking man does not know his own mind. He is really worth more than he looks. I do not speak of the man who takes a social drink or the honest workman who takes his mug of beer. I mean Alcohol's slave, the man who has reached that point in his career where he is no longer a man, but a thing without first priming with whiskey."

"But I believe the world is getting better. The drinking man is getting better. There is no longer any room for the hard drinker. He is worthless to himself, to his family, to society and the state."

The great fighter said much more regarding the liquor evil, but he will be said, he was careful not to condemn the saloon-keeper. The fault, he said, was in the man nature, not in any one man or set of men.

**BOXING BRIEFS.**  
LOWELL, May 30.—"Kid" Paul of Boston and Young Kenny of Lowell fought a twelve round draw in the rooms of the Spindle City A. C. tonight. But for the agreement for a draw if both men were on their feet at the finish, Young Kenny would have been a winner.

Frankie Neil, the ex-bantam champion, has arrived in New York, looking for matches with a one hundred and eighty-two pound boxer.

Herrera's California supporters have gone up in the air over his refusing to meet Nelson, and are now urging that he be placed on the black list of every club in the country.

**WILL MEET ALL COMERS.**  
Terry McGovern has issued the following statement to the newspapers:  
"I want to go on record as being ready to complete my job of Monday night and put Britt out any time he is ready to sign for another fight. In a few more rounds Monday night I would have knocked him out."

"I was never in better trim to fight, and the longer the bout went the better I got. Now that I am back in form I will meet all comers for a draw if both men were on their feet at the finish, Young Kenny would have been a winner."

**FOOTBALL**  
**YALE WAITING FOR HARVARD.**  
According to Yale's athletic managers, nothing has been done about a Yale-Harvard football game for next fall. The matter rests just where it has been resting for the past six months.

It is taken for granted, so to speak, that there will be a game between the two universities, but no arrangement has yet been made for one, although some time has elapsed since Harvard decided to play football again.

**LABOR WORLD**  
Chicago has opened employment bureaus for the aged and crippled.

Advice from Cleveland and Pittsburgh received by steel manufacturers in New York city state that the strike on the great lakes will be settled within the next few days.

The teamsters of Miami, Fla., have secured the recognition of their union.

Boston plumbers get a wage of \$100 per day.

Pittsburgh plasterers earn \$4.50 per day.

The shop men of the Pennsylvania Railroad who were reduced to twenty-five hours a week on April 2, were recently notified that hereafter the regular hours would be fifty-five hours a week. More than 10,000 men belonging to Philadelphia and Pittsburgh will be benefited.

Notice have been posted in all the cotton mills of New London and Windham counties Conn., of a ten per cent. increase in wages to take effect at once. The increase will affect 2,000 operatives, and numerous flourishing mills in that section of the state.

The hairdressers of Paris, France, who are on strike because their employers refused to close on Sundays, compelled the closing of the shops recently by a clever and amusing ruse. It was arranged that men from the army and navy should make a descent upon the hairdressers the day preceding several days' growth of beard to be removed. All the fashionable barber shops in the centre of the city were invaded by the queerest customers they ever had. The customers looked in and then fled. As a result every shop closed at one o'clock.

The employees of the Hogana Railway, which serves the principal coffee districts in the state of Sao Paulo, Brazil, have struck, and the trouble is now threatening to spread to all the railways in that region.
