## It's a Fact!

Somebody (his name was Dave Holtzman — his age 18).

Took a \$1000 Endowment Policy for which he undertook to pay

\$761.25—spread over a period of 35 years

But the profits, distributed annually, so reduced his premiums that he paid only

\$515.24—in actual cash

So that Dave's net results at the age of 33 were—

35 years' protection and \$197.67 for each \$100. he paid the Company.

If that is the kind of returns you appreciate, see the London Life representative at once.

MARINE NOTES. The steamer West Noska arrived in port this morning from Leith to load part cargo of refined sugar for London, Leith and Hull. She will complete at Philadelphia.

The steamer Eastern Leader arrived this morning from New York to complete cargo with refined sugar for Carleton Place and Bristol.

The steamer Enare arrived this morning with part cargo of refined sugar loaded at Halifax. She will complete at the refinery for United Kingdom ports.

The steamer Britania arrived this morning from New Vits, Cuba, with a cargo of raw sugar for the refinery.

The steamer Malgache is discharging her cargo of fertilizer. After discharging she will load refined sugar for Cuba.

The schooner Emily P. Northam arrived yesterday from New York in ballast. She will tow to Gagetown to load lumber.

The schooner Mattawa sailed this morning for St. Pierre with a cargo of whiskey.

The steamer Canadian Volunteer sailed from New Mills for Campbellton on July 27. Although no advices have been received here yet it is expected that she will load lumber for the United Kingdom.

The steamer Antonia arrived at Montreal yesterday with 124 cubic and 218 third class passengers.

The steamer Tyrthana sailed from Montreal for Liverpool on Saturday.

It has been announced that the steamer Canadian Hunter will load for Montreal at Mediterranean ports during the first half of September, calling at any of the principal ports where sufficient cargo is offering. She recently arrived at Montreal after a cruise of kind.

The R. M. S. P. Chaleur is due in port from Bermuda tomorrow morning with passengers, mails and general cargo.

The steamer Grey Point sailed for Montreal yesterday.

The Canadian Explorer was due to sail from Montreal on Saturday for Australia, calling at Sydney to load 1500 tons of steel.

The barkentine Maid of England arrived in port early yesterday morning from Turks Island with a cargo of salt.

FREDERICKSON PERSONALS. (Gleaner, Saturday) Miss Annabelle Logan, of Aberdeen, Wash., is the guest of her cousin, Mrs. Frank Dunphy, Salamanca.

Miss Ulah Kinch, of Victoria Mills, has gone to Montreal where she will spend a few days before leaving for Detroit, Mich., where she will visit friends and relatives.

Miss Evelyn Steeves, who was on the steamer staff of P. A. Guthrie, in London, is later at Ottawa and is now residing in Boston, is in the city, accompanied by her cousin, Miss Steeves of Wausau.

## When Travelling

HUGE SHIPMENTS OF FRUIT. Florida's Output Nearly 10,000,000 Tons Last Season, Says Grower.

During the last season Florida has shipped north about 800,000 cars, or nearly 10,000,000 tons, of citrus fruit, consisting of lemons, oranges, limes and grapefruit, according to statements made by H. S. Odell of Jacksonville.

"Nearly every one enjoys grapefruit for breakfast, but how many realize that it is not a natural product of the soil that has been cultivated, like the orange or lemon?" he said. "Grapefruit is a cross between a lemon and an orange and it has been produced by grafting concentrated and shipped to all parts of the world," he declared. "The markets of the world had become over-supplied with tin as with so many other materials used in building during the war, so of course, there was a depression. Last year things were pretty bad in tin mining, but this year they are very much better, and by another year I expect them to be about normal."

"The chief industry of Bolivia is the mining of tin oxide, which is then concentrated and shipped to all parts of the world," he declared. "The markets of the world had become over-supplied with tin as with so many other materials used in building during the war, so of course, there was a depression. Last year things were pretty bad in tin mining, but this year they are very much better, and by another year I expect them to be about normal."

Mr. Winases, who is a mining engineer, described the life in a Bolivia mining town as highly attractive. There are many American and European visitors, he said.

"We are about 14,000 feet above the sea and there is no vegetation up where the tin is mined," he said. "Down in the valleys agriculture is followed by the Indians, who are a picturesque lot. We depend upon them entirely for labor, both industrial labor and as servants. Everybody lives in adobe houses. The climate is cold and even. The llama is our only beast of burden. Of course, we have mules and horses for riding."

"There are excellent boats now on this part of the Pacific Coast. Going from New York through the canal, then down the west coast, one makes the trip to Valparaiso in about twenty days."

Engineer Reports Demand Returning Toward Normal.

"The cultivation of grapefruit has penetrated as far as the interior of Asia and the Malay Archipelago, and recently specimens of a special variety were shipped to the United States Department of Agriculture for testing."

BIG INDIAN WHEAT CROP. Likely 48 Per Cent. in Excess of Last Year's.

Ottawa, July 31.—India
