They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity. THE CASE OF FOLKE L. BRANDT

The man in the upper corner is Brandt, millionaire Maxime Schiff's Swedish valet, who was illegally condemned for burglary, and sentenced to thirty years imprisonment five years of which he has already served. Some of the New York papers kicked up a fuss about it, as a result of which he has been returned to the Tombs for a new trial. The story goes that he was tried and imprisoned for burglary, when another crime was the real offence charged, and that if he had been tried on the real charge family affairs would have been saved. The lower picture shows the scene in the corridor of the New York court room where Brandt's case is to be reheard.

IMPORTANT STREET RAILWAY MATTERS

"Pay-as-You-Enter Cars"—Change of Route to Broad Street—The Bridge and Extension Proposals

The newly elected directors of the St. John Railway Co. at their first meeting following the annual meeting of the shareholders yesterday afternoon decided to submit to the provincial government an offer with regard to the construction of the new bridge at the falls that they expect will probably enable them to come to terms on the matter. If the bridge is built, Douglas avenue will become part of the main line and transfers will be given to the foot of Indian town.

At the annual meeting the shareholders confirmed the action of the directors in arranging for the extension of the car lines to Fernhill and Crookville, and the extension of the lighting system to Roby, Milford and Crookville. The following is from the directors' report:

The financial statement showed the net profit of the company to be \$34,232.41, out of which four quarterly dividends of \$12,000 each were paid, leaving a balance of \$6,232.41. Bonds to the amount of \$200,000 will be sold to provide for capital expenditures.

During the year the following works have been undertaken: New brick and steel car barn on Westworth street, 35 x 112 feet. In connection therewith we purchased the Fisher and Cather's lots adjoining. Brick and steel office and supply building on Nelson street, 28 x 41 feet. We purchased during the year a lot of land owned by the Lantana estate on which part of our power house is situated. A large amount has been expended for repairs and improvements on the railway and light system, the physical condition of which has been well maintained.

It is proposed to remove the railway tracks from British street between Westworth and Charlotte streets, and place them on Broad street.

It will also be necessary to provide additional cars and we propose to have built at once six new pay-as-you-enter combination cars.

JEWISH CHARITY IN WHITE PLAGUE FIGHT

Nearly \$38,000 Raised in Annual Subscriptions in Few Days in Montreal

Montreal, Feb. 27.—Having started out to raise an annual subscription list of \$25,000 for the Mount Sinai Sanatorium for Consumption, the Jewish community of this city has just closed the campaign with a total of \$37,614.50, after four half days of strenuous canvassing. In addition to this there were donations which brought the actual amount collected to more than \$40,000, but the organizers adhered strictly to the idea of raising only what were genuine annual subscriptions.

The whole of the money collected represented Jewish generosity, for although several donations and offers were made by outside friends, these were waived for special consideration as to their acceptance and were not included in the returns.

At the final gathering, there was much enthusiasm over the result and there was plenty of special-making, with reciprocal congratulations between the organizers and the workers. Rabbin Abramowitz and Gordon each received a gold watch as a memento of their efforts. The president, acknowledging these gifts, Rabbi Abramowitz said that Judaism and practical philanthropy were one and the same thing and that when a minister left his pulpit to help a charity he was only doing his duty.

Rabbi Gordon said that a community was not a mere collection of individuals, but a community should be a power to the people among whom it lived.

QUEBEC AND ONTARIO THE BOUNDARIES EXTENSION

Ottawa, Feb. 26.—Late tonight Premier Borden gave notice of a resolution to extend the boundaries of the provinces of Quebec and Ontario by taking in the whole of the hinterland, in accordance with the resolution which passed parliament in 1904. The resolution, with regard to Quebec, provides for the adding to the province of the whole of the district of Ungava, comprising about 400,000 square miles. Apparently Manitoba is to get both parts on the Hudson Bay, Ontario's shore line running up only to the intersection of the 89th meridian with the shore of Hudson Bay at a point some fifty miles south of Port Nelson.

What arrangement has been made between Manitoba and Ontario to secure for the latter province the right of access to Port Nelson for the proposed provincial railway remains to be seen.

IN PARLIAMENT

Ottawa, Feb. 26.—Harmony does not mean the government benches. The afternoon the apple of discord was munched loudly in parliament, when W. B. North and Colonel Hugh Clark, Conservative members for East Hastings and North Brno, respectively, were caustically rebuked by their minister.

There is not a little of fact in the statement of the honorable gentleman speaking, says Hon. Col. Sam Hughes, of one of Mr. Northrup's observations. There were cries of "Order," but the militant minister of militia would not be daunted that way. "Not a little of fact," he repeated.

Meanwhile Mr. Northrup and Colonel Clark sat silent and ill at ease, while the government benches were shrouded in gloom. The exchange occurred in the course of a short discussion of the administration of the British National Rifle Association and the Ross rifle, which preceded the consideration of the orders of the day.

A SEVERE COLD DEVELOPED INTO PNEUMONIA.

Mr. Hugh McLod, Etterbury, Sask., writes: "My little boy took a very severe cold, and it developed into pneumonia. The doctor said he would not live. I got some of your Dr. Wood's Norway Pine Syrup, and he began to improve. Now, he is a strong healthy child, and shows no sign of it coming back."

THROUGH PANAMA CANAL BY END OF 1913 IS PREDICTED

A ship through the Panama canal from the Atlantic to the Pacific, before the end of 1913 is the prospect held out by Maj. W. L. Kenley and Col. W. J. Hand, U. S. A., who have returned from the canal zone after an exhaustive examination of the plans and locations of the proposed fortifications. The two officers are to submit a report to the secretary of war. Both are enthusiastic over the progress of the work on the canal. Major Kenley bases his prophecy that vessel will be able to proceed from ocean to ocean through the canal before the end of next year on observation of the conditions and on reports from the engineers in charge. The fortification plans have been completed. There will be three forts on the Pacific side and one on the Atlantic side, with fortifications at strategic points along the line of the canal. These fortifications will be equipped with guns fitted to shoot three miles into the air for use against aeroplanes.
