## COMMUNICATION.

. To the Editor of the "Standard"

"We are against this Bill, as an insulting piece of fraud and deception."—[Col, Presbyterian, 16th

I hope to be able to make i appear that the Bill thus designated is just what it should be not withstanding the above

Taking up the copy of the correspondence we find an account of certain resolutions adopted at a meeting held in Quebec, on the 30th September, 1861, wherein fifteen Executive Councillors of the Province of Canads, Nova Scotia and New Brunswick, resolve to renew the offers before made to the Imperial Government - to aid in the constructive of an Intercolonial Railway.

In December following, we find in London

a delegate from each Colony, urging before the Duke of Newcastle, at great length, and with much ability, the necessity of railway; and soliciting imperial ail in the shape of a grant of money.
In a despatch from the Duke, under date

He drew up his little brigade of cavairy with them starts to protect the guns. He had the Colonists to raise the money by loan, and to build the road themselves.

four members, two from Canada, one from the cowardly Dutchmen, as the Times corres- consulted General and they determined that Nova Scotia and one from New Brunswick, met in London to arrange the terms of the loan with the Imperial Government, which arrangement was concluded on the 13th of

Imperial Government.

the Civil List and interest of existing debts.

7th—The necessary preliminary surveys to be made at the expense of the Colonies, by

three Engineers.

8th-- Fitting provision to be made for the carriage of troops, &c.
9th -Line and surveys to be submitted to Imperial Government and must be approve before Parliament be asked for the guaran-

Loan limited to £3,000,000

The Imperial Government and the three Colonial Governments (four separate parties) must agree in all the essential parts of this scheme, before it can be matured and the le gisiation, to be effectual must receive the concurrence of all the parties, as did the Re. ciprocity Treaty with the United States .-

The first section of the Bill authorises the

The third Section agrees with No. 3, and

Sections four five and six provide for the payment of the interest and the final extincon of the debt, as set forth in the proposi-

ment of Engineers, to make the preliminary ed as articles of Commerce. urveys, at the joint expense of the three Colonies, and Commissioners to direct the construction, as set forth in number 6 and 7

Section eight provides for the conveyance
