NEWS COMES OF THE DEATH of Mrs. Ruth Ward, which occurred at Somerville, Mass., yesterday, at the advanced age of ninety-four years. She was a daughter of Ensign Shadrach Chase, loyalist, and was the mother of Mrs. S. B. Foster and grandmother of E. C. Foster of this city. Mrs. Ward resided in St. John up to the time of the fire, and since that time has been residing with her grand-daughter, Mrs. E. C. Reed, of Somerville, Mass. She retained her memory and all her faculties up to the time of her death, which was quite sudden.

THOSE IN SEARCH of rare specimens of wild birds will do well to make a call upon or communicate with Mr. Caleb Hesetis, of Lower Jemseg, who has at present two very fine owls of the cat ear species. The way in which he became possessed of them is worth telling. One of his boys, in snaring rabbits, entrapped one of the owls, whose movements were somewhat interfered with by the trap which it had carried off and because of which its capture was made easy. Placed in an improvised cage on the veranda, its hootings were heard by its mate in the forest which came to see what the trouble was, and after several nocturnal visits, forced its way into the cage of the imprisoned one and submitted to capture. They are becoming quite tame, are quite large, and, for owls, are fine looking.—Methodist.

Electric Light Plant.

The North Sydney Herald says the electric light system put in North Sydney, by the Canada Electric Co., of Amherst, N. S. entitles the company to the highest praise.

The steam plant was supplied and erected by A. Robb & Sons, Amherst, N. S., and consists of one 50 h. p. Automatic Cut Off engine, two 50 h. p. Monarch Economic boilers, Independent steam feed pump injectors, etc. The boilers are specially adapted to use Nova Scotia slack coal, and they produce their full rate of horse power with the greatest ease and at the same time ensure the greatest possible economy in fuel. The engine is of the American high speed style, the speed being governed automatically by a governor located in the driving wheel; so arranged that the steam is expanded in the cylinder, on a average three-quarters of each stroke, so that steam is only drawn from the boiler during one-quarter of the stroke.

A similar plant including two 70 h. p. Monarch Economic boilers and 50 h. p. Automatic engine installed by A. Robb & Sons in the Amherst electric station made a saving of 1300 lbs of coal in eight hours over their first plant, consisting of brick-set boiler and ordinary high speed engine. Messrs. Robb have employed an American expert in engine building and intend extending their works so as to manufacture more extensively an improved automatic engine and the Monarch Economic boiler, the patents for which are worked in Canada by them and in the United States by the Union Iron works of Erie Pa.

Hay Famine on P. E. I.

The Charlottetown Guardian says, If ever there was a time when we needed the tunnel it is now. Only a few miles away—but across the strait—hay and other feed can be had in abundance at reasonable rates. Here in some localities not a sheaf can be obtained for love or money. A gentleman in this city was informed yesterday that a man in the eastern part of the Island spent a day driving about the country in a radius of 20 miles searching for feed for his famishing horse and cow. Being unsuccessful he returned home, took the animals behind his barn and knocked them in the head. A man in this city went out to the country the other day and purchased a splendid cow for $7. This is a terrible state of affairs.

CALLED SOUTH.—Mr. Samuel Girvan was call away late Monday night by the sad intelligence that his wife now in Florida had been suddenly seized with hemorrhage. Mrs. Girvan went to Florida about five months ago for the benefit of her health and has until this sad change been gradually improving.

The Leary Harbor Improvement Scheme Discussed.

The meeting of members of the Board of Trade and other persons, held yesterday afternoon in the Board rooms, discussed the Leary harbor improvement scheme for about three hours, and then adjourned till this afternoon.

President Robertson reported on behalf of the committee which had been appointed to interview the C. P. R. people, that Mr. Timmerman had said that the C. P. R. was preparing to build some additional wharf frontage at Carleton, but had not under contemplation the construction of any extensive harbor improvements.

S. Schofield contended that the improvements which the C. P. R. would make would not be sufficient to accommodate the trade.

W. H. Thorne moved that St. John's representatives in the local house be memoralized to oppose the passage of the bill authorizing the council to enter into a contract with Mr. Leary. This was seconded by G. Clarke.

Mr. Schofield moved in amendment that, in the opinion of this meeting, it would be inexpedient to interfere with the action of the common council in obtaining permissive legislation to facilitate the erection of wharves, warehouses and elevators on the west side of the harbor.

Mr. Schofield argued from his position as agent of steamboat lines. Harbor improvements were necessary if St. John's trade would be developed. The Leary scheme was the only one before the people. It was fair and equable. He reviewed at length the different phases through which the efforts to obtain harbor improvements had passed. If the required permissive legislation were not obtained, the whole work would be blocked for at least another year. In reference to the C. P. R.'s position, a leading citizen of St. John had told him that he had called on Mr. Shaughnessy, in Montreal, within two weeks. Mr. Shaughnessy had told him that the C. P. R. was perfectly willing that the Leary project should go on, and the C. P. R. would either take over the works or use them when they were finished.

This amendment was seconded by W. M. Jarvis.

J. deWolfe Spurr moved an amendment to the amendment of the following tenor:—

The board having adopted the principles that railway companies seeking deep water facilities on the West side should construct their own termini; the common council having procured and conveyed to the C. P. R. the Carleton branch and the Sand Point wharf, and the C. P. R. having undertaken to make provisions for such wharves and warehouses as may be found necessary for its increasing traffic, therefore resolved that it is not now expedient that the city should be committed to any obligation for aid to private speculations towards the construction at Carleton of any works which might impede or become antagonistic to the reasonable requirements of such railway companies; and further resolved that this board petition the legislature that the bill under discussion be not passed unless it be provided by the act that no action shall be taken thereunder unless approved by two-thirds of the council; nor unless that the said bill be amended so as to authorize the council to enter into contracts, not only with the parties named in the bill, but with the Canadian Pacific railway company or any other railway company or commission that may be approved of by the said council; and that such authority does not extend beyond——months after the passing of the act.

This was seconded by H. B. White.

After some further discussion of the subject the meeting adjourned till 3 o'clock this afternoon.

Death of Andre Cushing.

Another of St. John's well known business men has suddenly passed away, Mr. Andre Cushing, who expired at his residence on Lancaster Heights at an early hour this morning. Mr. Cushing was among the most active and best known mill owners and lumber merchants in the province, and his death will be heard of with surprise and regret by all to whom he was personally known. He was in fair health on Saturday, so his demise was unlooked for by himself or his friends. Mr. Cushing was born in Kingman, Maine, about 70 years ago and had been a resident of this city about 40 years. He was a member of the Board of Trade, an active temperance worker and a prominent Odd Fellow. He leaves a widow and five children, as follows: Richmond Cushing, C. E., residing in Nova Scotia; Chauncey Cushing, residing in Nashville, Tenn.; Alston Cushing, residing in Salisbury; Mrs. Dr. May, of New York, and Mrs. Geo. B. Dunn, of Houlton.
