new York July 7.—Every one of the thirty-two passengers and two operators on two scenic railway trains. In Palisades Park, above the Fort Lee Landing, at Edgewater, N. J., were injured last night when one train of two cark, descending what was advertised as the "deepest dip" of any such railroad in the country, crashed at terrific speed into another filled train of two cars which had become stalled at the base of the "deepest dip." The four cars were so crushed into one another that they had to be chopped to pieces to get out the injured, among whom there were as many women as mer.

On the roller coastar, which is known as one of the largest in the world, there are two lips in the rails where the descent is co abrupt that it is almost perpendicular. After taking the first dip, which is a fail of sixty feet, the train of two care in charge of an operator, shoots part way up an incline. When its momentum is almoving chain that draws it the rest of the way of the Incline. Then, after turning a curve, the car starts down the "deepest dip," which is down fitty feet and so nearly perpendicular that engineers have wondered how the cars remain on the rails. When the first train of two care in charge of Bernard Cohen, took the first dip, rounded the curve and then shot down the second dip like a ball of lead. Up the next incline the cars sped, and just near the top a woman shouted that she had lost her hat. The operator almost involuntarily moved his lever. That caused his cog to lose the chain that was drawing the train and he could not recover it. His train began to drop back into the golly below the "deepest dip," and there it seasured the first dip nicely while its load of passengers screened their delight, rounded the darve at the toy of the "deepest dip," and there it seasured the first dip nicely while its load of passengers screened their delight, rounded the darve at the toy of the "deepest dip," and there the seasured the many dear the forward seats saw the stalled train at the forough gout of the skies upon t Our English Print Cottons, 10 1-2c. yard. HAVRE, France, July 10.—Jack Johnson, the colored puglist, arrived here to-day on board the Corinthian, and its rediately on landing announced his determination never to-return to the United States. He said he would in the turre take up his residence in Paris.

WASHINGTON, July 10.—Jack Johnson may not find refuge in France, was the opinion of the state department of the Federal Attorney who says that while probably there is no provision in the extradition treaty with France, under which his surrender could be demanded, the French authorities even without a formal appeal from the United States Government may deport Johnson, as like most European countries, france is understood to have laws prohibiting the immigration of a person convicted of crime in his own country. The Eastern American League teams opened their Western tour yesterday, with the world's champions and the Athletics both winning. Washington and Detroit split even, while New York was blanked at Chicago. Johnson held-Detroit to two hits and no runs in six innings of the second game and then retired.

In the National, New York made it fourteen straight, shutting out Chicago. Of the four hits made off Marquard only one was clean. The Cubans on the Clincinnati team were factors in the defeat of Brooklyn. Almedia, who replaced Dodge at third, figured in a fast double play and drove in Marsans with the winning run. Only three hits, two of them serathes, were made off Adams and Pittsburg shut out Philadelphia. Alexander hurt his side and was succeeded by Imlay. Boston won a double header from St. Louis and are in sixth place. Jersey City defeated the leaders in the International and have moved up to fifth place.

What kind of Coal should I use?

It often happens that through a misunderstanding of their requirements, householders order the wrong kind of Soft, or the wrong size of Hard Coal for furnace, stove or range, causing considerable trouble, not only to themselves but to the stove man and the coal man as well.

For the purpose of endeavoring to inform coal consumers of the coal best suited to their particular purposes, we have issued a booklet containing this information, which vanced in price on July has been secured from the leading stove first. Buy now before dealers of Halifax, to whom we are greatly

> We hope the information contained therein will be helpful to our customers and of assistance to them in ordering the coal best adapted to their requirements.

A copy of the booklet will be furnished on application to either of our Coal Offices in Halifax or our Dartmouth Branch.

Crawford's Scotch Biscuits Are simply delicious.

When strawberries are plentiful, and at the time of the year When strawperries are pientiful, and at one time of the year when one does not want anything for lunches except the very lightest of food, Orawford's Scotch Biscuits are particularly attractive. We have steadily increased the size of our orders for these famous Biscuits, and still it is found difficult to keep up with the demand. Try a pound assorted, and see how good they really are.
