You'll Sleep More Soundly

If You Keep Healthy With
Dr. Morse's Indian Root Pills

The man or woman with a good appetite, sound digestion, and bowels and kidneys working right, is never troubled much with sleeplessness. It is when the bowels become constipated and the liver and kidneys sluggish that the trouble begins.

Lazy liver and constipated bowels quickly bring on biliousness, indigestion and sick head aches, making a sound, refreshing night's sleep impossible. Or the inactive kidney allow the blood to become loaded with uric acid, which causes rheumatism, with all its sleep-destroying tortures.

Dr. Morse's Indian Root Pills, taken regularly, induce sweet and dreamless sleep by keeping all these organs active and regular. The headaches disappear, the digestion becomes good again, the blood is purified and perfect health returns.

Dr. Morse's Indian Root Pills have been a favorite household remedy in Canada for over half a century, and they are in daily use throughout the world. Being purely vegetable they are safe for young and old. Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all druggists.

FINANCIAL WORLD

MORE CHEERFUL TONE MARKS TRADING

New York, Feb. 17.—A more cheerful tone appeared in the stock market today and there was no trace of the heaviness which characterized yesterday's trading. Prices were higher during most of the half day's session, but changes were unimportant as on other days recently. Although the dullness of the market during the week has been pronounced, there was not enough business today to preserve an appearance of life. Less than 90,000 shares were dealt in as compared with nearly 250,000 shares last Saturday.

The firm tone of the market was attributed largely to covering by shorts who desired to even up commitments on the week. Stocks were not in abundant supply and prices were advanced on moderate buying. The only stocks to move at all widely were a few of the less conspicuous issues. Canadian Pacific and Norfolk and Western rose a point and American Cotton Oil 1 1/2.

Foreign exchange rates advanced today and some further European borrowing was reported. The \$12,000,000 of one year, Lake Shore notes falling due in Paris early next month were renewed for another year, it was announced, \$5,000,000 to be placed in Paris and \$7,000,000 in London. Arrangements were made to ship \$750,000 gold to South America early next week. The trade reviews threw little light upon the situation, although it was reported that "cumulative improvement" was evident, with a slow expansion of demand, and that severely cold weather is still felt particularly in the iron and steel industries and in railroad distribution.

Comparison of the tables in the bank statement showed that netted changes occurred at the end of the week. While the average table disclosed a loss in cash of about \$6,000,000 the statement of actual conditions on Friday night revealed a cash loss of only \$2,500,000. The average loan increase was \$7,500,000, while the actual increase was less than \$1,000,000.

The bond market was steady. Total sales, par value, \$1,147,000. U. S. 3's coupon declined 1/4 and the registered 1/4 on call on the week.

CLOSING COTTON LETTER.

By Direct Private Wires to J. C. Mackintosh & Co.

New York, Feb. 17.—Liverpool was somewhat better than a parity with our close yesterday, but firmer undertone there as well as rally which developed here during the day was attributed largely to natural reaction. Periods frequently develop in a concerted speculative movement where the impairment of technical conditions renders it desirable that the leaders should shake out any undesirable following. This condition developed last week in the bull campaign. While therefore we believe in ultimately lower prices, we believe that caution should be exercised in selling contracts on such sharp declines as have been lately witnessed.

CLOSING STOCK LETTER.

By Direct Private Wires to J. C. Mackintosh & Co.

New York, Feb. 17.—True to recent precedent today's market showed a mild rallying tendency following yesterday's short selling movement, by room traders and the stocks used as a medium of speculation recovered stout fractions of the previous day's loss. The general list remained dull and featureless. Excepting the some what more cheerful tone of the weekly reports of the mercantile agencies the day's news budget was without color and the day's fluctuations reflected merely the week-end evening-up operations of the room profession at element. The stock market and business at large remain under the shadow of politics and the immediate prospect does not suggest an early change of prevailing conditions.
