OFFICIAL DENIAL OF MERGER TALK

Rapid Advance of Western Canada Flour is Otherwise

The sharp advance in the common stocks of the Western Canada Flour Mills-during the week has occasioned some speculation, and the natural reversion to the old rumor of a merger. Officials of the company give an unqualified denial to the merger report, however, but can give no definite reason for the sudden activity, of the stock. It is probable however, that the real reason is that some buyers are forecasting an advance, and are willing to pay to get the stock. The company is known to be doing a good business, and even at the advanced figures the stock is selling well below the average of other milling induslow the average of other milling industries of the same size. From an even flevel of 140, there was a very sharp advance Mondays, sales opening at \$150 and climbing steadily till they reached 170. There was a decline from this figure before the end of the day's trading and Wednesday showed \$160 asked, with 150 bid.

MAKE THIS TEST.

If you are not well or strong you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two fivegrain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people, who were affing all the while, have most astonishingly increased their strength and endurance in 2 weeks' time in many instances.
