

Directions for Navigating Part of

Garden Bank. This Bank, whereon is from 7 to 17 fathoms water, lies about half a mile off from *Little St. Laurence*, with *Blue Beach Point* on with the East point of *Great St. Laurence*.

Ferryland-Head. *Ferryland-Head* lies S. W. 1 mile from *Cape Chapeaurouge*; it is a high rocky island, just separated from the main: It and *Cape Chapeaurouge* are sufficient marks to know the harbours of *St. Laurence*.

Bay of Laun. West 5 miles from *Ferryland-Head*, lies the *Bay of Laun*, in the bottom of which are two small inlets, called *Great* and *Little Laun*. *Little Laun*, which is the Easternmost, lies open to the S. W. winds, which generally prevail upon this coast; and therefore no place to anchor in. *Great Laun* lies in about N. by E. 2 miles, is near half a mile wide, whereon is from 14 to 3 fathoms water. To sail into it, you must be careful to avoid a sunken rock, which lies about a quarter of a mile off from the East point. The best place to anchor is on the East side, about half a mile from the head, in 6 and 5 fathoms; the bottom is pretty good, and you are sheltered from all winds, except S. and S. by W. which blow right in, and cause a great swell. At the head of this place is a bar harbour, into which boats can go at half tide; with conveniencies for a fishery, and plenty of wood and water.

Laun Islands Off the West point of *Laun Bay* lay the islands of the same name, not far from the shore; the Westernmost and outermost of which lie W. Southerly 10 Miles from *Ferryland-Head*; near a quarter of a mile to the Southward of this island is a rock whereon the sea breaks in very bad weather: There are other sunken rocks about these islands, but they are no ways dangerous, being very near the shore.

Taylor's Bay. This bay, which lies open to the sea, lies 3 miles to the Westward of *Laun Islands*. Off the East point are some sunken rocks, near a quarter of a mile from the shore.

Point Aux Gaul. A little to the Westward of *Taylor's Bay*, there stretches out a low point of land called *Point Aux Gaul*; off which lies a rock above water, half a mile from the shore, called *Gaul Shag Rock*; this rock lies West three quarters South, 5 leagues from *Ferryland-Head*; you have 14 fathoms close to the off side of it, but between it and the point are some sunken rocks.

Lamelin Bay. From *Point Aux Gaul Shag Rock*, to the islands of *Lamelin*, is West three quarters N. 1 league; between them is the *Bay of Lamelin*, wherein is very shallow water, and several small islands and rocks, both above and under water, and in the bottom of it is a salmon river.

Lamelin Islands. The two islands of *Lamelin* (which are but low) lie off the West point of the bay of the same name, and lie West three quarters South, 6 leagues from the mountain of the *Red Hat*; but in steering along shore make a W. by S. course good, will carry you clear of all danger. Small vessels may anchor in the road between these islands in 4 and 5 fathoms, tolerably well sheltered from the weather: Nearly in the middle of the passage, going in between the two islands, is a sunken rock, which you avoid by keeping nearer to one side than the other; the most room is on the East-side. The Easternmost island communicates with the main at low-water, by a narrow beach, over which boats can
