

EDUCATION.

No. 3.

system of regulation should be adopted, either by the organization of a central board or by boards in the several districts, or by some other mode of general, uniform and steady superintendence, by which the course of instruction may be more effectually ascertained and directed, and the expenditure of the public money be more usefully applied and more effectually checked than by the plan hitherto pursued.

6. Resolved, That in addition to these considerations, the present state of the public finances, and of the demands upon them, renders it more especially necessary to prevent the large expenditure which must ensue if the bill now before the Legislative Council, intituled "An Act to repeal certain Acts therein mentioned, and to provide for the further encouragement of elementary education in this province," should become a law, and that it is therefore not expedient that the Legislative Council should now proceed further upon the said bill.

Legislative Council, Tuesday, 15 March 1836.

Ordered, That the said bill, as received from the Assembly, with the said report and resolutions agreed to by the House, be printed in both languages.

Attest,

(signed) *Wm. Smith*, Clerk, L. C
