We need that money to be issued *without debt*, to avoid the enormous burden of the National Debt, eating away at our tax dollars.

We need money to go to the *right people*, so that we can guarantee a decent basic standard of living to everyone.

We need money that *keeps its value*, so that savings and fixed incomes are not eaten away by inflation.

The Social Credit platform is designed to give you this. These policies can be yours-vote for them.

average Canadian's pocket-book.

-----Settle fairly the outstanding aboriginal and treaty claims of Canada's native peoples.

-----Amend employment, taxation, training and other federal legislation to eliminate discrimination against women; encourage the development of day-care centres, working in cooperation with the provinces.

-----End unemployment as a way of life across Canada and get the economy moving to its full potential.

**PYLYPA**

Welfare and unemployment insurance is the only solution to present incomes at jobs and incentives provided by the Trudeau Government to work.

We know what the tax load is like, and that the gap between wages and prices is reaching the point of unified *inflation!*

Develop a program whereas big government becomes small government, in turn, increasing political education and a Canadian air of Quality of Life.

**SCHEPANOVICH**

COMMONWEALTH GAMES---Schepanovich will fight for as much federal aid as is necessary to make the 1978 Games in Edmonton a success.

FAMILY LAW---There are presently five different levels of courts dealing with family law. This jungle leaves citizens at a loss. A single court should be established to deal with all aspects of family law.

6. The need for an effective alternative to the industrial airport. Do we have to wait for a major accident to relocate this facility?

The above problems, as well as those of nationwide interest (Americanization of industry, culture and social structure, unequal distribution of the tax burden, separatism, and unemployment) have not been solved by the major parties. I would claim that these problems have plagued this country since confederation. Present indicators such as 7.1% unemployment, show that the trend has not been towards a great improvement in the quality of life. The land may be strong, but the country isn't. Perhaps another party should be given a chance to solve these problems. We in the NDP believe that our party can provide an effective alternative to the old-line parties.

**ROBICHAUD**

In our country today, the government is more interested in serving foreign capitalists than the Canadian people and there is an increasing danger that we will be dragged into another imperialist war. In order to save U.S. imperialism, the Canadian working people will be used to kill and slaughter the working people of other countries.

C P C ( M - L ) EDMONTON ELECTION COMMITTEE is presenting candidates who do not want a parliamentary seat in order to forge connections and make a fortune, but WOMEN WHO ARE COMMITTED TO FIGHT FOR THE BASIC ASPIRATIONS OF THE CANADIAN WORKING PEOPLE. They are not individuals with all smiles during the elections and who show their real capitalist fangs after, but representatives of the Communist Party of Canada (Marxist-Leninist) and its program for the Canadian working people.
