General J.B. White,
International Paper Co.,
Montreal, Que.

Dear General White:

It has been intimated to me that you may be chosen as head of certain Forestry companies to be gathered here for assistance overseas. I only pay attention to the rumour because I could not conceive of anyone more capable of doing the job than yourself.

Should the above turn out true, I do wish you would consider for a place among your officers, Hon. Sam Cobell. His experience in lumbering you will know, and you will also know that there isn't a finer French-Canadian citizen in Canada. His conduct has been unselfish and patriotic on all occasions, and he deserves consideration for any job he can do at all. No one can help but admire the courage he has shown.

Yours very truly,

AM/E.

Arthur Meighen.
