

April 14, 1920.

My dear Prince,-

I have read with pleasure your memoir of Sir James Grant, and I think you have dealt with a somewhat difficult task admirably. I am going to take advantage of the privilege you give me of suggesting that you should leave out the portions that I have crossed out in pencil, to my mind, they do not add weight to the memoir.

We are anxious not to have any changes in the proofs, so that, if you would give the matter a little further consideration now, and let me have the manuscript again soon, I will be very glad.

Yours sincerely,

Prof. E. E. Prince, F.R.S.C.,
Dominion Commissioner of Fisheries,
Dept. of the Naval Service,
Ottawa.
