

These Premiums For Our Subscribers Only

WE do not give these premiums to people for taking The Farmer's Advocate and Home Magazine. They are given to our regular subscribers in return for sending in to us other new subscriptions.

We appreciate the friendly assistance given us by our regular subscribers, in helping to increase the number of Advocate readers, and the articles shown below are intended as a recompense to our friends for their help.

The Farmer's Advocate always sells on its merits as a first-class farm paper. Subscribers pay \$1.50 a year in advance, and the steadily increasing number of readers is the best evidence that its work is appreciated.

Any regular subscriber to The Farmer's Advocate can earn the articles shown by simply sending in the number of new subscriptions mentioned, and we recommend any of the premiums as being of excellent value.
