

# Abraham Lincoln

who was raised on a farm and had a deep sympathy with farmers, declared a tariff producing sufficient revenue for the support of the general Government and adjusted to protect American industry was "indispensably necessary to the prosperity of the American people."

"I believe if we could have a moderate, carefully adjusted protective tariff, so far acquiesced in as not to be a perpetual subject of political strife, squabbles, changes and uncertainties, it would be better for us."

"The abandonment of the protective policy by the American Government must result in the increase of both useless labor and idleness and so in proportion must produce want and ruin among our people."

Under a national tariff, the United States has prospered and become great. A national tariff is essential to the development of the Dominion. Canada cannot exist if legislation for one section is stretched to a point where it ruins another. A tariff is necessary to our industrial development. Industrial development is necessary to agricultural and general prosperity.

Under Free Trade—Where will the Revenue come from?

### Milk is 87% Water

Your cows must have water regularly, and plenty of it—cannot produce milk without it—need four gallons of water for every five gallons of milk—cannot drink enough ice cold water to guarantee full milk yield.

#### THE LOGICAL WAY TO WATER YOUR MILK

is with Louden SIMPLEX water bowls—will increase your milk production 25 per cent.—will pay for themselves in six months' use. Made for wood or steel stalls—in one piece only—no valves, springs, washers or any other contraptions to get out of order—simple self regulating galvanized tank keeps water at proper level—water always there—at proper temperature—cows drink more—bowls cannot overflow—nothing to get out of order—easy to install—no plumber needed—do it yourself—pipe wrench only needed—extremely simple.

Cost Surprisingly Low.  
 Save You Time—Work—Worry—Money.
