IRISHMEN IN CANADA,

In connection with the appointm of Mr. J. H. Walsh to the position General Manager of the Quebec Central Railway, it is interesting to observe how the administration of the great railway enterprises of this Dominion is passing into the hands of Irishmen. The Canadian Pacific, the Grand Trunk Railway the Grand Trunk Parific the Intercolonial Railway and the Quebec Central are all run by Irishmen or

A generation ago the Irishman in Canada was prominent as a barstill, and holding his own in all, it is in the railway field that he arpears to find the highest attraction.

That he was forced into it by the cackling of R. B. Bennett, who told the people of Ontario that blood would . flow and the western settlers take up their rifles if the claims of him and his associates in the so-called provincial rights party were ignored. Provincial rights party! What a commentary upon the high-sounding title is the result of the popular vote. Not only were Mr. Bennett and his nominees, with a single exception, wined out of existence but they were destroyed by the almost unanimos verdict of the electors in the different constituencies. The figures are veritable revelation. If these misguided candidates had any deposits to lose, we are afraid they will all be out of pocket by more than their election expenses. A few days before the polling they clearly foresaw what was coming to them and like the In this respect the Irishman repre- mutinous crew of a ship sailing unsents the genius of the country and der false colors they turned upon their leader and denounced him as

CATHOLIC SAILORS' CLUB. the concert held last evening was under the management of the Club. The chair was occupied by Commandor Walsh, superintendent of the C. P.R. line of steamers. Mr. F. B. McNames gave an interesting review of the season's works. He said he was a flock of Ontario geese there is no question. He had not even the good sense to drop it and accept the public verdict as recorded in the London and Oxford bye-elections. He still continued to figure as the sponsor for the still season had been the most prosperous base on the sponsor for said Mr. McNamee, "regardless of the new provinces of the Northwest. We know, too, that were it not for the noble defenders of our holy faith in this country among the French-Canadians we Irish would be in nine years. Usurer remarked in our last letter, "Protestant generosity is proverbial here, and even if they do reserve most of the best positions for themseives, is it not because they are so much superior in intellect, business, etc.?" Yes, they have the public schools (rather we should call them national schools) and there business principles are seen after first, last and all the time; and religion, save perhaps a chapter or two of account. Assisse: "The criminal calendar presented shows that crime of a very serious nature is rife in your midst. There are six persons charged with offences against females; there are three charges of murder and two of manslaughter, one of conspiracy, one of house breaking and larceny." The case of the civild murderess, Josephine Carr, speaks volumes for Toronfo the good. The capital city of public school Manitobe came in for a little expose also at the hands of a Prosessant minister a few months ago, which told us how like Sodom, and Gomorrah of old were the soliety circles of that highly business churand city. Now these business methods are carefully excluded from the Catholic schools, and instead the impersitions of an old-time wood are

What Flour Granulation Means in Bread-Making Flour is composed of myriads of

tiny granules.

To make good bread these granules must be uniform in size. In poorly milled flour some granules

are large, some small. The small ones absorb yeast, "rise" and "ripen" before the large onesthe result is bread of coarse, poor

texture. The large granules are not developed into "sponge," they bake into heavy hard particles, spoil the texture of the bread and make it harder to digest.

ROYAL HOUSEHOLD FLOUR is perfectly milled-all the flour granules are uniform in size—the sponge rises uniformly—the bread is even in texture - perfect in flavor - goodlooking, appetising bread - easily digested.

Ogilvies back it with their reputation by branding it
