THE
Warren Church Organ Co.
 of Woodstock, Ontario

Have one of the best equipped factories for the production of Church Organs in America, with experienced employees in every department, many having from 20 to 35 years' experience in organ building.
 They have built some of the largest organs in America, a recent one, the great organ for the Chautauqua Institution of New York, erected at a cost of \$26,000.00 and has received unqualified praise from the highest authorities.
 Every organ produced receives the same care in manufacture whether small or large, the workmanship being equal. Particular attention is paid to tone qualities.
 Our special aim is to have sufficient volume, proper balance and a desirable variety of effect, these being the essential qualifications required in a Church Organ.
 We follow the English system of voicing as it is more suitable for devotional services in our Churches than either the French or German systems, while being as fully applicable for such orchestral effects as may be desired.
 We fully recognize the importance of the proper mechanical appliances for controlling the instrument and claim our recent organs to be absolutely second to none in this respect.
