

Roof Protection

Shingling a roof is only half-protection. The other half is "to keep the shingles on the roof"—to prevent them from cracking, decaying, and rotting off. This is the mission of Stephens Shingle Stain. It is known as the "Great Preservative." It has exceptional powers of penetration. It sinks right into the fibres of the wood, carrying a large amount of Manitoba Linseed Oil (acclimatized) and Creosote below the shingle's surface. Manitoba Linseed Oil is famous for its durability. And chemists will tell you that Creosote is the greatest known preservative of wood. You can see now why Stephens Shingle Stain has made such a name for itself in the West—why it so fully protects the shingles against our cracking zero cold and blistering summer sun, against snow, rain and hail, preserving the roof from decay. Progressive hardware dealers will fill your orders. Write us for descriptive *Free Booklet No. 19*

The "NEVER FAIL" Oil and Gasoline Cans GALVANIZED IRON

3 and 5 Gal. Imperial Measure

ADVANTAGES OF THE "NEVER-FAIL" CAN

You have no oil valves or pump to get out of order, no faucet to leak and drip. You do not have that disagreeable odor of oil and gasoline in your rooms when using this Can. You need not be afraid of an explosion if you use the "Never Fail" Can. You do not have oil all over your hands, lamp and floor, when using a "Never Fail." Your oil and gasoline bills will be one-third less when using one of these cans, as they are air-tight, allowing no evaporation. It is the only Can wherein gasoline may be kept with any degree of safety. Ask your dealer for a "Never Fail." Take it home and use it, give it a fair trial; then, if not satisfied, take it back and demand your money. Can you ask any more than this? Will you not give it a trial on these terms? Will draw over a gallon a minute. Will take all the oil out of the can. Will run the oil from lamp back into Can. Your money back if not satisfied. If your dealer can't supply you, write us.
