How are Your Teeth?

Remember that when you have your teeth extracted the bony foundation that held the root is no longer needed, and nature absorbs it. This process changes the whole expression of the face, and can never be restored. You can always tell a person with artificial teeth. Crown and Bridge work by Dr. Findley's New Method preserves these roots and saves the expression—in fact, teeth inserted on this principle are not what you might term "false teeth," as we restore the old roots. Besides, the work is permanent, and does not cover the roof of the mouth at all. You can chew anything with impunity, and never be in agony of expecting your teeth to drop out, for this is absolutely impossible when work is done by my system. Rooms 1 and 2, 86½ Government st.
