The Mighty Power of the Modest Little Want Ad.

A recent investigation in the city of Chicago revealed the fact that the yearly turnover of business secured through the classified columns of Chicago's daily papers was upwards of \$400,000,000.

This business was secured for the advertisers at an expenditure of less than one per cent. Is there any other method of selling that can show such favorable results? Even display advertising, which is regarded as so economical in proportion to the immense volume of business produced, cannot compare in earning effectiveness with the modest little "want ad." The same investigation showed that it cost the big Chicago display advertisers three per cent. to four per cent. of their gross receipts to get their business.

They are wonder-working business forces, these small classified ads. They require very little preparation and can be written by anyone, and their cost is so small that the investing risk is reduced to a minimum. But their highest efficiency is reached only in papers known to carry most advertising of this kind.

The Grain Growers' Guide is the recognized want ad. medium for the farmers of Western Canada and carries much more classified advertising than any other farm paper in this field.

In advertising, nothing succeeds like success. The Guide gets most classified advertising because it produces the best results.
