TURKS NOW MAKE GREAT CLAIMS

Official Statement Says Russian Attacks in Armenia Were Repulsed.

Constantinople, Sep. 14, via London.—Turkish forces have checked the Russian offensive in the Ognott sector of Turkish Armenia, according to a war office statement dated Sep. 12. The Russians have suffered heavy losses in fruitless attacks, declares the report, which says: "On the right wing we repulsed an enemy attack in the Ognott sector."

Two enemy attacks on September 10 prepared for by artillery fire, were repulsed by our counter attacks. Enemy troops endeavoring to approach our positions in various groups were scattered by gunfire and suffered extraordinary losses. The number of officers and men captured on September 9th in the right sector is still increasing.

"On the left wing, during skirmishes which resulted in our favor, we captured prisoners, arms and equipment."

Constantinople, Sep. 14, via London.—The Turkish war office in its statement of September 12, reports briefly on the operations of Turkish troops in Galicia, recording an engagement in which more than 400 Russians were taken prisoner. The statement says: "In close quarters encounters on September 7, we captured three officers and more than 400 Russian soldiers."

WHITE SOX ARE NOW IN RUNNING

Four Clubs Are in the Race for Each League Pennant.

Chicago, Sept. 15.—Chicago's White Sox were in the lists to-day as real contenders for the American League pennant with Brooklyn in the National League. The Sox are yet to be played by the three leading teams in the American League gave the following: Boston 18, Detroit 14, Chicago 13. In the National League, Brooklyn had 21 games, Philadelphia 21 and Boston 22.

leads the league, but it has won two less games than has Detroit, and one less than the Sox. It has, however, lost two games less either and this makes the percentage column read: Boston .574; Detroit .571 and Chicago .565.

In the National League flag race, the four clubs which Brooklyn found itself up against at the beginning of Philadelphia, Boston, New York and Pittsburgh. Brooklyn was one and one half games ahead of the Phillies, and Boston two and one half games behind, while the Giants just managed to keep up the pace of the Dodgers. A table showing all the games yet to be played by the three leading teams in the American League gave the following: Boston 18, Detroit 14, Chicago 13. In the National League, Brooklyn had 21 games, Philadelphia 21 and Boston 22.

THE COLONIAL

The bill presented last night at the Colonial theatre was as varied as it was interesting. The chief feature of the evening was the entertainment provided by Dr. Zell Hunt, hypnotist. His work was a revelation to many, and he succeeded in convincing the sceptics that he had complete control of his subjects and had to resort to no quackery.

The young lady who had been placed to sleep and was on exhibition in Long's store window, was brought to her full senses again. Dr. Hunt will remain at the Colonial for the balance of the week, presenting his hypnotic scenes to-night.

A Metro silent film, "Her Great Price" was shown, starring the famous Mabel Tulliver. The plot is rather gloomy throughout, but concluded satisfactorily. Francis Ford and Edna Mason in a short film, "The Dumb Bandit" concluded a bill pronounced by those present as an unusual success.

The Toledo Terminal Building is being remodelled so that Toledo will have a convention hall with a seating capacity for 5,000 people, where big theatrical and operatic works will be given.

Children Cry FOR FLETCHER'S CASTORIA

PERSIA HOME OF PERFUMERS

From There Spread Rapidly to All Portions of the World.

Persia saw the earliest development of the perfume industry. The priests of Egypt, who were the sole depositaries of science, knew the secret of aromatic substances and prepared them. Egyptian perfumes, acquired great celebrity, especially those made in Alexandria. The Israelites, during their sojourn in Egypt, adopted the use of aromatic substances. The Jews were fond of cosmetics, and even used them to paint the face. All these perfumes were extracted from essences of trees and various plants. The Greeks, who loved elegance, were especially addicted to the use of perfumes, and they taught their secrets and usage to the Romans. The latter in the days of their decadence, went so far as to scent the coats of their dogs.

In the Middle Ages the Arabs, Venetians, Genoese and Morenines became famous for the preparation of sweet-smelling essences. France did not become acquainted with perfumes until after the Crusades, and it was Mari de Medici who especially brought them into favor. Makers of perfumes quickly recognized their good or bad medicinal influences. It was remarked both in Paris and London, during the cholera epidemic of the nineteenth century, that no one engaged in making perfumes was ever attacked.
