HONORS WENT TO BENEDICTS

They Defeated Young Bachelors in Yesterday's Cricket Match.

lome Good Bowling was a Feature Other Players who Distinguished

The Bachelors and the Benedict played a game of cricket on Tecum eh Park yesterday afternoon. The core resulted 439-68 in favor of the nedicts. The Bachelors, however, ave no reason to the discouraged onsidering the fact that nearly every nember of their team is a new player and what they played agains team which was mostly composed of the best players in the Chatham club; they played well and should in time make an excellent junior team.

The game lopened lwith the Bachelors in the field. Aitken did the most of the bowling, and had it not been for his effective shoots the Bachelors would have been defeated worse than they were. Brundage, Hutchinson and Rutherford also deserve credit for their good howling. Kenny and Dennis were first at the hat and they were not but out until the former had made 51 runs and the latter 40. These were the largest scores that were made. After these two men were put but the others were disposed of in quick order. Kenny and Nicholis did all of the bowling for the Benedicts, and they did so twell that they seemed to knock down the stumps as fast as the men could come out. Special mention should be made of a great hig stout man who played slip for the Benedicts. He did the most of the coaching for the team and had the Bachelors severely handicapped by the use of a large sized baseball mit. If the number of extras for the Bachelors points to the ex-cellence of the Benedicts long stop.

SCHOLARSHIP

Winners of the Annual Awards at th Krause Conservatory of Music.

The Toronto College of Music exam inations were inaugurated at the Krause Conservative of Music, Chatham, the beginning of the second season's work, and the results only go to show that they have been accepted most favorably by the patrons of the Krause Conservative of Music. The College examinations were adopted by the Krause Conservative of Music be cause they are without doubt the highest musical standard in Canada.

This year the Provincial Govern ment took the Toronto College of Music examinations as their standard and the two daughters of the Govern or-General, Earl Minto, also entered for the same examinations; all of which goes to prove that the Krause Conservatory of Music has for its standard the best and highest that

can be had.

A large number of students — al students of the Krause Conservatory of Music-have passed their respective examinations with honors, and Mr Carter and staff are to be most high ly congratulated upon the extraord-inary success of the past twelve

months.

It is safe to say that never before has music, in the history of Chatham, received a greater impetus than during the past year. The number of students successfully passing their examinations, in spite of the severe examinations, is a matter of great import, fully demonstrating the high standard of excellence nurtured by the Conservatory.

the New Country Immensely William Howell, a former employe of The Planet, writes this journal as follows from Calgary, whither he

went to recuperate his health: Calgary, Alberta, N. W. T. Dear Planet,-I now write you a little letter. I am improving in health, I think as well as could be expected under the conditions. We are having beautiful weather at present. We hearly always have a good breeze and we don't have those scorching hot days you seem to have in Chatham. The air here is so pure and yet ham. The air here is so pure and yet years, they being so highly respected it is hoped that the old couple may or so tollowed by a north or north-have a pleasant trip. wind. Some evenings are just like November in Chatham. I have rented a four room shack for \$4 per month and I am now "batching" it. It cost me \$37 for outfit, but I am

If I get cured there I think I will go to California for next winter. At the joint meeting of Thamesville may even make my home there if I and Turin Presbyterian church seslike it. The gardens are coming along sions the Rev. Mr. McInnes was fine at present. There are no potato bugs here to contend with, but there are the tiwo legged kind. The farmers on ranches work 14 and 15 hours per day for from \$25 to \$30 per month. The peas are just in blossom and lettuce nearly fit to eat. I suppose these garden stuffs have been fit to use a long time in Chatham.

We can't grow cucumbers, or beans,

or tomatoes, or fruit, or anything that is tender. The principal things grown here are wheat, oats, barley, prairie hay, and potatoes. Potatoes yield as high as 200 bushels to 250 bus, to the acre. Horses and cattle are the principal stock that is raised. It would be a good idea, I think, instead of sending the boys to the Reforma-tory to send them out here. The people can say whalt they like about Chat-ham. It is the finest situated and the cheapest place to live in a know of. The winters are moderate. Of tourse, The winters are moderate. SUMMER

Our business would not be the business it is if we failed to meet your wants in this natty line of summer garments. More and smarter styles are here than the customer could think of for himself.

There's a strong demand this summer for washable trousers and the cool unlined tweeds-those neat odd pairs that complete any man's summer wardrobe so acceptably. Fashion has made up her mind that men shall be as comfortable as they please this season without losing an atom of style.

Clothes do not make the man, but they have a tremendous deal to do with his comfort of mind and body. These cool garments harmonize with any correct upper wear, and the wearer has a pleasant sense of being coolly and correctly clad.
