ELIHU BURRITT, THE LEARNED BLACKSMITH.

A letter written by Elihu Burritt, the learned blacksmith contains some interesting incidents of his career.

Mr Burritt mentions that being one of a large family, and his parents poor, he apprenticed himself when very young, to a blacksmith, but that he had always had such a taste for reading, that he carried it with him to his trade.

He next studied the Greek and carried the Greek Grammar in his hat, studying it for a few moments while heating some iron at the forge.

He next commenced Hebrew, and soon mastered it, reading two chapters in the Bible before breakfast; this, with an hour at noon being all the time he could spare from work.

He used to spend three hours daily in the hall and he made such use of these privileges, as to be able to read up to fifty languages with greater or less facility.

ARCTIC SEAS.—Melville Island, where Captain Kellett of the Arctic expedition, passed the last winter, and whence his crew first discovered the Investigator, after her eventful voyage, is one of a group of islands in the Polar sea, called the Georgian Archipelago.

DERIVATION OF "TOPSY TURVY."—When things are in confusion they are generally said to be turned "topsy turvy." The expression is derived from a way in which turf for fuel is placed to dry on its being cut.

A YOUNG BLADE.—Would you not have known this boy to be my son, from his resemblance to me?" asked a gentleman. Mr. Curran answered, "Yes, sir; the maker's name is stamped upon the blade."

A young lady, recently married to a farmer, one day visited the cow-house, when she thus interrogated her milkmaid: "By-the-bye, Mary, which of these cows is it that gives the buttermilk and which one gives the skim milk?"

"Is your house a warm one?" asked a man in search of a tenement. "It ought to be; the painter gave it two coats recently," was the reply.

At the late Woman's Rights Convention, a resolution was reported and laid over for the next meeting, that if justice was not fully done to the ladies, and soon, then they would stop the population of country!

"The 'republic' of letters is frequently its only 'sovereign' of intellect, but the 'sovereign' of letters seldom in the country."

The young lady who fell in love has just been pulled out, by the daring fellow who successfully struggled with the world.

BELLS! BELLS! BELLS!

THE Subscriber manufactures and keeps constantly on hand, all sizes of Church, Factory, Steamboat, Ferry, Locomotive, School House and Plantation Bells, with the best description of Hangings.

These Bells are made from the best stock, and the small sizes undergo the same process in manufacturing as the larger ones. An experience of thirty years, with a great many recent improvements, and an entirely new method of casting, enables us to obtain the most melodious tone, combining also, in extraordinary vibration.

Nearly 9,000 Bells have been cast and sold from this Foundry, which is the best evidence of our superiority. We have given Gold and Silver medals at our office, which were awarded for the "best Bells for sonority and purity of tone."

Orders will be received and information given as to prices, at Geo. T. Haszard's Book and Stationery Store.

ROCKLIN PULLING MILL.

J. C. AYER. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every part of his system, pronounced him a dead child.

Having used your CHERRY PECTORAL in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy.

It is used in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the Throat and Lungs, I believe it is the best medicine extant.

Yours, with respect, JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1853.

J. C. AYER, Sir: This may certify that I have used your CHERRY PECTORAL for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe Yours, with respect, JOHN C. WHITLOCK.

Twelve-cent Brothers' Soap Powder.

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discolored by age, or injured by bad Washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE.

Never Failing Remedy.
