THURSDAY, MAY 12, 1910.

TESTIMONIALS.

An opposition which parades consistently the course of condemning anything and everything the Government or any member of it says or does is bound to get itself into some unenviable and foolish positions.

His loyal subjects have cause for consolation and gratitude that their late lamented Sovereign was found happy in a corresponding number of predicaments which can not have been very pleasant and which certainly did not turn out to be very profitable.

What darkness deep as wintry gloom O'erhadows joyous spring. With rain the verdant orchards bloom. Vainly the woodlands sing.

Regina newspapers voted down a proposal to give a street railway franchise to a company. The emphatic nature of the verdict is taken as a mandate to the city council to begin the construction of a municipal system.

There is an old Norman maxim that "The King never dies." The meaning is that the throne is never vacant.

Edward VII.—GEORGE V. There is an old Norman maxim that "The King never dies." The meaning is that the throne is never vacant.

Knowing this, friends of the Minister, Conservative as well as Liberal, "I assed the hat" for the purpose of at once expressing their esteem of the manner and of the man.

All these circumstances were thoroughly known to the Opposition. No doubt some members to the left of the Speaker had added their contribution to the fund.

Even precedent does not seem to count for much in the party of precedent whose leadership has devolved upon Mr. Borden. It is not so many

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite.

years ago since Sir John Macdonald was made the recipient of a testimonial similar to that given to Mr. Fielding. The reasons advanced for it were precisely the same: that he had served his country to the neglect of his private fortunes and was near the eventide with no provision for himself or his dependants.

Yet if suspicion should rest upon either gift it must be that of Sir John. By his tariff policy Sir John had enriched one class of the community at the expense of the others.

His loyal subjects have cause for consolation and gratitude that their late lamented Sovereign was found happy in a corresponding number of predicaments which can not have been very pleasant and which certainly did not turn out to be very profitable.

of the people of the world to which the mere possession of the crown could not entitle him. His reign was not a long one. But he came to the throne the most popular Prince of Wales England had known for centuries and better known in the overseas dominions than any of his predecessors, and the esteem he won as Prince he preserved and increased as King. The death of his father in 1862 left the widowed Queen with a burden of duties and cares which she was entirely willing to share with her son.

Yet if suspicion should rest upon either gift it must be that of Sir John. By his tariff policy Sir John had enriched one class of the community at the expense of the others.

with their proverbial hospitality, did not greet the Premier of the Dominion in a manner worthy both of their guest and themselves. It would be strange, still if their welcome was not a warm one to the head of a Government which has labored without ceasing and with splendid success to advance the cause of western settlement and progress.

Canadian and United States officials are co-operating to round up a gang of "white slaves" in the Rainy River country. This is in line with an arrangement made between several of the leading Powers some time ago to unite efforts in an attempt to check the criminals to justice.

The Toronto Globe argues that until the three transcontinentals and the Pacific ports are found unable to accommodate the grain traffic of the West it would be folly to build the Hudson's Bay road.

any faith-breaking cash. The grain could not go via Vancouver in large quantities unless warehouses were provided at Vancouver. And neither the C. P. R. nor anybody else has had confidence enough in the project to build the warehouses. The Dominion Government was asked to finance the experiment, but could not see its way to rush in where the C. P. R. feared to tread.

But this was a man who held duty first. Not less that he served as king. His was a true submission. With confidence firm expressed. A Greater than kings had called him. What then? He had done his best. If he served as a loyal steward. Of the trust imposed on him here. There is honor for those that had honor. Western peasant, or prince, or peer.

EDMONTON HAS BEEN ADVERTIZED ABROAD

The Effect is That City is Well Known. Board of Trade Secretary Says It is the Result of the Following System Adopted by Organization—Edmonton Known Everywhere in Old World.

The Board of Trade of Calgary is complaining that that city is not receiving its fair share of advertising abroad, and a publicity committee has been formed to carry on a campaign to make known in foreign parts the advantages offered by the Calgary district for agricultural and manufacturing industries.

Referring to this state of affairs, Secretary Fisher, of the Edmonton Board of Trade, said in the Bulletin this morning that it was not to be attributed to any accident. For several years the board has been carrying on an unobtrusive advertising campaign in Great Britain and Europe.

"A great many people want broadside advertising," said Mr. Fisher. "According to their notion we should spend \$500 or so on a full page ad in the Chicago Post, and we should get well for a day and then would go in to the waste paper basket. The publicity that the country needs is the kind that doesn't make much noise but brings results."

This morning the secretary of the board received an interesting communication from Paris, France. V. Forbin, 12 Rue Du Croissant, wrote to say that he was interested in the loan of some old pictures of Edmonton, as it was 25 or 30 years ago. He thought it would be interesting to see the "History" of the Bulletin, which would show Europe the future promised to your wonderful country.

Had to Cut Traded. The old trader to Cut Traded. Fallen timber had to be cut. The sun had not had sufficient reach which great depth and of them was a good thing. The muskies which had to be later on in the year the fish have been in the water.

Run Out of Grub. I took thirteen days to 250 miles and for the days the party lived on dried meat. The sun had not had sufficient reach which great depth and of them was a good thing. The muskies which had to be later on in the year the fish have been in the water.

LIVED FOR THE

Manager of Revillon Brothers, returned on Saturday from a trip to the north and proceeded to Fort Vermilion on the Peace river on a 30-day canoe trip. The weather was so difficult to make it become necessary to abate his sleighs and to resort to boats. Dogs would not better for the dogs which retarded their progress much as the horses.

Before Mr. Coward was in business at Fort Vermilion the river being very dark traffic and by the time the boat started on the return trip the point of breaking up. The last party were in the river from Fort Vermilion they had to leave the ice, decided to cross the continent fish Lake and thence to Lake.

A Guide Part Way. Had to Cut Traded. The old trader to Cut Traded. Fallen timber had to be cut. The sun had not had sufficient reach which great depth and of them was a good thing. The muskies which had to be later on in the year the fish have been in the water.

\$532,992,100!!

That's the Value of Farm Products for Canada 1909. Isn't It Great?

OTTAWA, ONT.—An increase of \$100,000,000 in the value of Canadian crops is shown in the final estimate of 1909 production just issued by the Dominion Bureau of Statistics.

The total value of wheat harvested in the Northwest provinces in 1909, as compared with 1908, is \$12,000,000 more. The total value of the Dominion's 1909 crop, as compared with 1908, is \$532,992,100 more.

It is showing that every citizen is proud of what he has done in the production of his crops. The most gratifying feature of these figures is that they represent a gain over the year 1908 of \$532,992,100.

We are going ahead—going ahead rapidly. That is the best news that can be given. It is showing that every citizen is proud of what he has done in the production of his crops.

But, instead of being content with these figures, let us take them as an indication of what our real possibilities are, and let us use them as a stimulus to our climb to better things.

Let us take these figures as an indication of what our real possibilities are, and let us use them as a stimulus to our climb to better things.

NORTH BATTLEFORD HAS BUILDING

Many New Structures Are in Process of Erection—The Central Wholesale Store, Year-Long Ministers of Pastoralists.

North Battleford, May 11.—The long-faded pessimists kept expressing their belief that the limit of the boom had been reached. At this time the penitents and masons were at the present time every town is busy.

F. Edwards left the country for his new \$6,000 Bryan and Wayne, a local firm. The building built of brick and stone is fitted with all the latest ments.

Princes
