## Sagona's Lab-rador Report.

The S. S. Sagona arrived at Twillingate from the Labrador coast, at 9.30 Tuesday night and got to Harbor Grace at 7.45 this morning. Her report is as follows:—

"Arrived at Holton, the 13th. Prevailing winds from south to southwest, and weather cold and foggy the whole trip north. Slack ice from Battle Hr. to Holton. No sign of fish from Holton to Pack's Hr. From Long Island to Domino, a sign. A good sign from Sandy Islands to Battle Harbor, but very little done owing to ice interfering with trawling. Returning south had fine weather. Ice clear of coast. All the 'floaters' have gone north. The Stella Maris has gone north to Holton. Cachalot operating at Hawk Harbor has one whale."

## Successful Garden Parties.

One of the most successful Garden Parties held this season was that which took place yesterday afternoon at the new Bowring Park. Fully 1,400 people were present, and the grounds were tastefully decorated with bunting. The weather looked threatening but except for one or two slight showers nothing occurred to mar the pleasure of the concourse in attendance. It was cool and pleasant and the people thoroughly enjoyed the affair which was held in aid of St. Patrick's Church Building Fund. Fifteen or more tables had been erected on the green, and the ladies of the committee with their gentlemen friends were kept busy serving teas, ice creams, drinks, etc. The band of the Total Abstinence Society enlightened the proceedings by discoursing many excellent airs; a dancing platform was well patronized and football fives and other games interested many admirers of manly sports. After tea there was dancing and games, and the most of the people returned at 8 and 9.30 p.m. There were present on the grounds during the afternoon His Grace Archbishop Howley, Monsignor Roche, Rev. Frs. St. John, McDermott, Pippy, Kelly, Sheehan, Ashley, Dr. Greene, several of the Christian Bros., the Premier, Mayor Ellis and other prominent personages. Financially the fête was most satisfactory to its promoters, and the energetic Chairman, Inspector Bambrick of the Municipal Council, and his aides deserve congratulation.

The sale of work and garden party held at St. Thomas's Rectory grounds yesterday afternoon proved a great success, and the attendance was larger than expected. The grounds were nicely prepared and the stalls were artistically decorated. They contained various sorts of fancy and plain articles, which were disposed of very quickly. The ladies in charge of the candy and flower tables did a brisk business. Praise is due to the ladies who served the delicious teas. The C. L. B. band was present, discoursed sweet music and helped to make the garden party enjoyable.

## The Passing Of Miss Day.

Yesterday morning Miss Day died at the General Hospital as a result of burns she received while protecting a child during the fatal avalanche at Tilt Cove. It will be remembered that an avalanche swept down on the residence of the Manager, which is situated at the base of a steep incline, and buried it. Several fatalities ensued. Emily Day took up a child of Mr. and Mrs. Cunningham and protected it as best she could. She, however, was pinned to the hot stove and severely burned; so severely that after months of suffering she has at last given up her life as the price of her heroic conduct. Emily Day is a native of Trinity, and 27 years old, and she leaves behind her aged parents in Trinity, whose chief consolation must be the heroism of her who gave her life for the child left in her charge.

## Good Fare.

The Lena Maud, Capt. Fudge, arrived from the Grand Banks last evening with 900 qtls. of codfish on board after only four days' operations. Fish were found plentiful. The Lena Maud is a new vessel and her commander is late of the Grace Tibbo, which was lost halibut fletching off Rose Blanche last winter. This is the third voyage of the Lena Maud, roughly aggregating 2,500 qtls. in salt bulk to date. The vessel came here for a supply of ice and provisions, and leaves port again to-morrow to resume operations, first going to Torbay to get a baiting.

**TRAP BERTH TROUBLE.**—A Petty Harbor fisherman named Crowe arrived here yesterday to settle a dispute about trap berths. Parties have placed their traps nearer his than the law permits and the matter will be referred to the court for adjustment.

Special to Evening Telegram.

CONSTANTINOPLE, July 17. The Turkish Cabinet resigned today in consequence of a revolt in the army against the methods of the Committee of Union and Progress.

Special Evening Telegram.

BARBADOS, July 17.

The treaty for mutual trade benefits signed at Ottawa in April by representatives of the British West Indies and members of the Canadian Government has been ratified by all the islands, with the exception of Trinidad, which, it is expected, will do so within a fortnight.

Special Evening Telegram.

LONDON, July 17.

The Government is making another effort to get the London Dock Strike settled. The chief Liberal Whip, the Master of Elibank, called a conference which met at midnight in Premier Asquith's offices. The Premier, Lord Devonport, representing the Port authorities, and representatives of the men took part. The conference broke up at 4.30 a.m., without result. Another conference was held to-day.

Special Evening Telegram.

LONDON, July 17.

Premier Asquith is now on his way to Dublin, playing hide-and-seek with the suffragettes. He left his official residence this afternoon and appeared at Wolverhampton, accompanied by his daughter. There they entered a motor car, which has since been lost sight of. This is all the suffragettes have been permitted to know, and they are not likely to learn anything further until he arrives at Dublin to-morrow evening, where a great demonstration awaits him.

Special to Evening Telegram.

LONDON, July 17.

Dyke Acland, Under Secretary for Foreign Affairs, in reply to questions in the House of Commons on the subject of the Usumayo Rubber atrocities, stated that the British Government had been throughout in close communication with the United States Government. He assured the House that whenever American sympathy and support would be helpful they would readily be forthcoming. Acland hoped that the publication of the Blue Book by the Foreign Office would stimulate private enterprise, and establish missionary help for the victimized Indians.

WASHINGTON, July 17.

The formal British protest against the Panama Canal Bill will reach Washington on Thursday. As the State Department has already decided that under present conditions the subject is not one admitting diplomatic treatment, the protest will be merely acknowledged and immediately transmitted to the Senate House, probably accompanied by a special message from the President. Some officials believe that if Congress would content itself with action upon so much for the creation of an operating force for the waterway, the subject

may be diverted of the urgency which now attaches to it, and the broad question of discrimination be left for subsequent adjustment. Representative Moore has discovered a way to meet the British objections. He has introduced a bill to neutralize the Canal, and give all nations an opportunity to pay a portion of its cost, which he states will approximate \$325,000,000. The annual maintenance will be about \$25,000,000.

LONDON, July 17.

Amid prolonged applause, Premier Borden declared in the Court Room of the House of Parliament last night, that in time of peril he believed every Dominion would give a response not less earnest than that of the Motherland. The occasion was a dinner of the Empire Parliamentary Association, to Mr. Borden, Rt. Hon. Alfred Lyttleton presided. Borden said that when Canada began to take a part in Imperial defence, conditions would change, and the overseas dominions would necessarily be summoned to the councils of the Central authority in Foreign and Naval matters. The time was at hand, he said, when the Dominions could be called upon to take a reasonable and legitimate share in maintaining the security of the Empire's defences.

LONDON, July 17.

Conferences between the British Government and Canadian ministers, yesterday, were informal. Canadian topics are uppermost and reflected in financial circles, where Canadian, and principally Western enterprises, are features. Borden's speech at the Colonial Institute stimulated investment, and has, moreover, had an electrical effect in naval circles. Many naval officers declare they will go to Canada when retiring on Reserve, both because of its national prosperity, and to view the expansion of the Empire in the overseas territory. The London Chambers of Commerce will entertain Premier Borden at a banquet to-night, when the Governor of the Bank of England and many prominent financiers will be present.

BISLEY, July 17.

England won the Kolapore cup, South Africa, 750; Canada, 746; Guernsey, 725; India, 724.

Mr. Marshall Hall, Geologist, of London, has been here on behalf of British capitalists looking over Mr. Oxley's shale areas in the vicinity of Deer Lake. He left by the Pomeranian.

## Hr. Grace Notes.

A special train will leave here on Sunday afternoon to accommodate any who care to visit the C. C. C. lads in camp at North River.

Mr. Paul Sullivan, aged 84, one of the oldest residents of the South Side, died on Thursday last. He was buried on Saturday morning. His son, Paul Sullivan, Jr., arrived by train on Saturday afternoon from Boston, and was much affected on learning that his aged parent's remains had been interred that morning.

Mr. James Jarvis, a former resident of this town, but now a resident of Ontario, is in town on a visit, and is accompanied by Mrs. Jarvis. Old associates are pleased to have them with them, and to see that time has made such little changes in both. We wish them a very pleasant holiday.

Miss Elsie Oke left by Saturday's train on a visit to her uncle and aunt, Mr. and Mrs. J. F. Sheppard, of Spaniard's Bay. She expects to remain a week.

Caplin struck in again in large quantities on Monday morning, and one farmer had 100 barrels carted to his farm before 6 p.m. on that day.

The Ladies' of St. Andrew's are arranging to entertain the Highlanders at the Court House grounds on Friday afternoon. A very enjoyable time is in store for the Kilties on Friday afternoon.

The British Excursion to St. John's will take place this year on Wednesday, July 31. The affair will be under the management of the Band which fact in itself is a guarantee of success. The Port Saunders brought in another whale on Saturday, this time a valuable sperm. This is eight fish in all this season.

Master Charlie Coffin, son of Mr. George B. Coffin, engineer of the S. S. Fiona, is here spending his holidays with his aunt Mrs. Thomas Nosworthy, and other friends. Charlie spent his vacation here last summer and made many friends who are pleased to see him back again.

The Highlanders are booked to arrive here at about 5 o'clock this evening. They are not going to have an easy time taking this town, as the K. E. B., under Col. Rogers and Major Downing, will meet them as they break over Spaniard's Bay Ridge. No need for the friends of the Highlanders to feel any anxiety on their account, as the most friendly relations exist between the two battalions. We welcome them in advance.

CORRESPONDENT.  
Harbor Grace, July 16, 1912.

**A BASKET PARTY.**—The young folk of George Street Church yesterday gave a basket party which was much enjoyed. It was a farewell to Mr. Peter Butler who is very popular in the congregation and prominently identified with church affairs.
