

### The Stock Market!

Within the last fortnight the "bears" made the most of the Polish-Russian situation by hammering security values in many instances to the lowest prices for over a year. This war scare however, seems to be over-estimated and it is quite evident that the general market has discounted the worst that could happen, as the London Stock Exchange has not manifested any appreciable anxiety over the situation.

While prices are low the time is ripe for investors to pick up bargains or to average down on stocks already purchased. We are fully equipped to handle your orders either outright or on margin, and will be pleased to submit a list of good purchases upon request.
