Pabst Beer , Is Best

The usual four-day process of making malt for brewing may be compared to the unnatural rapid growth of grain planted in midsummer. It makes malt quickly, but at the sacrifice of the vital food quality of

the grain. Malt, as most readers know, is the life, the substance of beer, and the food value of any beer depends on the richness of the malt from which it is made.

Pabst exclusive eight-day malt is made in Nature's own way, by slow growth of the barley. All of the food value of the barley is thus retained in Pabst eight-day malt, and makes

Pabst . BlueRibbon

Beer the richest beer in food strength. Pabst Blue Rib-

bon Beer is always pure and clean. The choicest hops and chemically pure water are used with Pabst eight-day malt in the brewing.
