\*\*The distribution of the control of the co result in provisions varied from 2 1-2 ents drop to a rise of 60 cents.

None of the larger houses on the exchange took a conspicuous place in selling drives that at time forced sharp breaks in the corn market. At the opening especially, the pressure was of a determined character and seemed to he directed particularly at weakening he December delivery. A renewal of rainy weather rendering conditions unfavorable for husking appeared to be hiefly responsible for railies that en-

Railway embargoes hampered shipments to the seaboard depressed the oat market and so, too, did the downward tendency of corn. Provisions advariced owing to continued scarcity of hog arrivals. In the last hour, though, realizing sales by holders wiped out

most of the gains. LPTTLE INTEREST AT WINNIPEG

**3RAZIL TRACTION** IN HEAVY SLUMP

War Declaration by Brazil Causes Slump in Stocks

Toronto, Oct. 27.—Selling of Brazil Trac on, which carried that issue to a new ow mark of 34 3-4, was the outstanding sature of today's short and inactive vek-end session of the local board. The ntricacles involved by Brazil's declara-ion of was was accountable for the sell-

ng movement.

The traction issue came out at 35 1-2 and after reacting to the extent of a 3-4-point firmed up fractionally to 35 at the close, for a net loss of 1-2. Otherwise throughout the list there was nothing but odd lot trades and fractional price

The 1931 war loan was the leader in the bond section and it showed turther firmness by selling up to 95 3-4 in dealings that amounted to \$23,500, par value. The other loans were slightly reactionary and less active with the 1925 issue off 1-8 at 16 8-8 and with the third loan closing at 4 3-8 for a loss of 1-4.

#### SHIPPING STOCKS IN BIG ADVANCE

Success of Liberty Loan Flotation Assists Buoyant

New York, Oct. 28,-Short covering prompted in large part by the undoubted success of the Liberty loan, together with a buoyant uprush in shippings were the chief feaures of Saturday's brief but very active session of the

stock exchange.

The inquiry for steamship shares, especially marine preferred, at an advance of 10 1-8 points to 104, with gains of 2 to 3 points in ailed shares, overshadowed all other movements, but every division of the list, with one or two unimportant exceptions, partici-

pated in the rise.

Rails were consistently firm to strong, improvement among the representative stocks averaging one to two points, both Canadian Pacific and Un-

on Pacific reflecting substantial buysified offerings, the Liberty issue hold-ing at 99.92 to 99.96. Sales, par value, were \$4,125,000. United States registered two's declined 1-4 per cent. or call during the week.
