Albuminoids and Carbohydrates.

C. H., of Arva, asked some time ago the meaning of the above terms. He will find it fully answered below:
In discussing cattle foods we are compelled constantly to use the terms "nitrogen" or "nitrogenous" "'protein"—"albuminoids"—"carbohydrates," etc. The first three mean the same thing practically, having reference to the element of nitrogen in food, that, which goes most directly to having reference to the element of nitrogen in food, that which goes most directly to the support of the nervous and muscular system. The term "carbohydrates" has reference to the starchy elements that produce heat and energy. How to adjust a balance between the two and what is their relative cash value is a thing that must be carried along in the mind when compound. carried along in the mind when compounding a feeding ration. Dr. Wolff, the German scientist, placed relative cash values as follows: Albuminoids and fats 4½ cents a pound. Carbohydrates 1-9 of cents are sent as well as the control of the control

## THE VOICE OF CANADA.

Public Denunciation of the Great London Election Fraud Stronger Than Ever.

All the Independent Newspapers in the Land Continue to Condemn the Conduct of Judge Elliot, Mr. Carling and Their Associates.

Why Do They Try to Shirk It?

Troronto News, Conservative.]
Judge Elliot, John Carling and the Government should desire nothing so much as the earliest possible hearing of the charges against the first named. And Sir John Thompson's action in throwing technical objections in the way is calculated to cost the Minister of Justice the respect he now so largely enjoys.

The Truth Wanted.

Imontreal Star, Independent Conservative.]
Parliament and Government should labor to forward Mr. Lister's charges against Judge Elliot to a trial. They are of a most serious character and should involve the seat of either the member or the volve the seat of either the member or the judge. Every reasonable effort ought to be made to clear the road of technicalities and let the country get at the truth. Already one petition has been thrown out on a trivial informality—the fact that none of the names of the petitioners were on the same page with the prayer—and now Sir John Thompson, ignoring the wide publicity given the whole affair aiready, insists that the new petition, practically identical with the old one, go through the slow stages of Parliamentary routine. Mr. Speaker even joins in to say that the petition cannot be printed until the consent of the Printing Committee be obtained. This all means tedious delay, and may easily throw the decision into the hurried closing hours of the session. Canada is especially jealous of the honor of her judiciary, and will thank Parliament to give the fullest opportunity for the investigation of these grave tunity for the investigation of these grav

Universally Condemned.

Toronto Telegram, Independent Conservative,
All the returns are in. Every journal in
the country actually or nominally independent has condemned the London outrage. And the Dominion Government rage. And the Dominion Government is deep down in iniquity's own hole when its acts are so rank that they cannot be justified by newspapers which serve one party in the livery of independence.

Must Be Investigated. [Seaforth Expositor.]

Such charges can not be passed over without investigation, and the Court of Parliament is the place prescribed for their

The Happy Family.

[Brantford Expositor.]
Grip this week contains an admirable cartoon anent the Elliotization of London. Judge Elliot stands forth as a tree planted by the rivers of Patronage. Its ramifications extend to the Carlings, the Daltons, the Marchine and Revising Exprister. tions extend to the Carlings, the Dartons, the Merediths and Revising Barrister Fraser, while John Carling, the tamily's representative, finds shelter under its spreading branches. As a curiosity, Barnum's happy family is no longer in it. Elliot made judge by Carling, his relative; Elliot's son-in-law made revising barrister by Carling; Elliot's son made census commissioner by Carling.

rister by Carling; Elliot's son made census commissioner by Carling.

What is more natural than that Carling should be made member by Elliot?
One good turn deserves another.
It seems rather discourteous for outsiders to interiere in such little family arrangements, or to suggest that Canada does not desire a return to the days of the Family Compact. But there are decencies which even a county judge may reasonably be expected to observe. It does not look very well, for instance, for a judge to preside even a county judge may reasonably be expected to observe. It does not look very a highly nitrogenous food besides supplying the waste of nerve and musele. She needs, besides, needy six times as much of the carbohydrates. With this porportion in mind any person who has a set of tables showing analysis of foods, such as are found in "Stewart's Feeding Animals," can arrive at a judgment of relation in price and feeding value of these elements very closely and easily compound a ration for themselves.

Six Doctors,

Miss C. A. J. Vernon, S. Homer street, Toxteth Park, London, Eng., was treated for more than a year, unsuccessfully, by six doctors, for intense neuralgic pains in the head. She had been given up as a hopeless invalid. In this extremity she was induced to try St. Jacobs Oil. The pain entirely disappeared before she had used the contents of a bottle. Half the contents of a bottle. Half the contents of a bottle has cured many.

Is your dyspepsia chronic? Is it severe?

No doubt the more rabid Grits justly feel that such a man in the hands of Tory schemers is a dangerous element in a country boasting of free institutions, and we are charitable enough to believe that the more fair-minded and honest Tories think also that he should come down from a position which he is unworthy to hold if there is

expressive, name of "fraud." Yet there is no protest from them.

An Investigation Must Be Held.

An Investigation Must Be Held.
[Sarnia Observer.]
The petition is now before the House, and unless the Government, secure in the backing of its large majority defies justice, and refuses to submit the evidence in support of the petition to a committee of the House, an investigation will take place which, if what is alleged in the petition is true, must end in driving Judge Elliot from the bench in disgrace.

Any juggling, dodging or temporizing with the petition on the part of the Government, in order to bank investigation will only tend to confirm the public in the belief that the allegations made are true, and that the accused is unfit for the position he occupies.

Why Not Effictize?

Why Not Elliotize?
[Brockville Recorder.]

It is reported that Liberal candidate is elected in the county of Prescott by over 250 majority. We cannot understand it. Had the Government nothing to offer the electors of that riding or are they depending on the county judge to make it all right, and still hope to Elliotize the seat?

Without an Exception.

[Norfolk Reformer.]
Without an exception the independent press of the country, which includes such papers as the Montreal Star, Ottawa Journal, Toronto News, Telegram and Saturday Night, and the Week, has taken a stand antagonistic to the Tory view of the London election case. We, too, have tried to put aside all partisan bias in arriving at a conclusion. We have read both sides, weighed the testimony as carefully as we could, and [Norfolk Reformer.] clusion. We have read both sides, weighed the testimony as carefully as we could, and we are now fully convinced that if any man, with the slightest desire to be fair, will do as much, he can come to no other opinion than that the Liberals of London have been foully dealt with. Extraordinary evidence of this fact comes from the Toronto World, as staunch a Tory paper as is published in Canada to-day, and one of is published in Canada to-day, and one of the cleverest.

Should Not Be Confined to Liberals.

[Dufferin Advertiser.]
London Liberals are up in arms agains London Liberals are up in arms against Judge Elliot, the miserable partisan whose outrageous decision robbed Mr. Hyman of his seat in Parliament. Charges have been preferred against Judge Elliot in the House and his removal from the bench is peremptorily demanded. The movement to depose him should not be confined to the Liberal party alone but should be participated in by all lovers of British fair play.

Conclusive Evidence Already.

Conclusive Evidence Already.

[Victoria, B. C., Times.]

It is to be noted that all the newspapers in the East which are professedly independent condemn the trickery by which the seat in the House of Commons for London was stolen from Mr. Hyman and given to Mr. Carling. This is very conclusive evidence that the transaction was an infamous one, the worst feature of it being the implication of a county judge. There can be no reasonable doubt that Judge Elliot in this matter acted as a partisan, and not as a worthy occupant of the bench, for in order to secure the seat to Mr. Carling he was obliged to give a judgment directly at variance with the decisions of eight Superior Court judges. The latter held good the notices served by the Liberals against the objectionable names on the lists, but Judge Elliot refused to accept their judgment and set up a contrary one of his own.

Cutting His Own Throat.

Cutting His Own Throat.

[Hamilton Herald, N. P. Supporter.]
Newspapers throughout the country keep hammering away at Judge Elliot, of London, with a force that must make that judicial politician feel shaky. It's no joke for a man to have hot shot fired at him from all quarters of the country at once, when he can only reply, apparently, in a weak and inefficient way to the charges made against him. It begins to look as if the judge had succeeded in cutting his own throat by allowing the votes which gave Hon. John Carling his seat, but if he does find the Government completing the job by chopping his judicial head off, he has only himself to blame for it.

"The Member for Elliot" Only.

[Hallfax, N. S., Chronicle.]

John Carling—"Honest" John, they ironically call him—will henceforth be known as the "member for Elliot," because being the minority candidate he owes his possession of Hyman's seat to the County Court judge who counted the bogus votes for him.

The Bench Treated with Disrespect.

that he should come down from a position which he is unworthy to hold if there is any truth in the charges.

A Persistent Effort to Defraud.

[Listowel Banner.]

The state of aflairs in London, which amounts to nothing less than a persistent effort to defraud the people of that city out of the right of a free franchise, is an example of the extremes to which the Government is prepared to resort.

"Fraud," Short but Expressive, [St. Thomas Journal.]

Sir John Thompson said the "electors of Wolland had a right to be represented by a representative duly elected." Yet C. S. Hyman is the duly elected member for London a right to be represented by a representative duly elected member for London a right to be represented by a representative duly elected? We have been unjustly criticised by people who did not know the facts, sometimes for putting so much money in church buildings, and sometimes for not giving as much as we ought to this or that denominational project, and no explanation has yet been made. Before I get through with the delivery of this sermon and its publication and distribution, I shall show that no church on earth has ever done more magnificently, and that no church ever conquered more trials, and that no membership ever had in it more heroes and heroines than this Brooklyn Tabernacle.
