observant physicians have nohal disease in recent years, and the most likeral and enlightened have cheerfully given their approval to the new internal remedy, Stuart's Catarra Tablets as the most successful and by far the safest remedy for catarria yet produ ed.

One well known catarrh specialist, as soon as he had made a thorough test of this preparation, discarded inhaiers, washes and sprays and now depends entirely upon Souart's Catarrh Taclets in treating catairh, whether in the head, throat or stomach.

Dr. Risdell says: "In patients who had just the sense of smell entirely and even where the hearing has begun to be affected from catarrh I have had fine results after only a few weeks use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic propert.es of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucous and speedily overcoming the hawking,

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste are convenient and always ready for use, as they can be carried in the pocket and used at any time, as they contain no poisonous drugs, but only the cleansing antiseptic properties of Eucalyptus bark, Guaiacol, blood root and Hyd-

The governor of the province of Che Kiang, yielding to consular pressure, has appointed a deputy to negotiate with the British and American consuls as to the terms of satisfaction for the Chu Chau Fu massacre. It is rumored that with the view of getting him away from Sian Fu, Tung Fu Hsiang has received orders to traverse the province of Shan Si and Kan Su and parts of Mongolia raise troops, but that he is not likely to obey.

#### ROSEBERY'S LATEST BOOK

S. C. WELLS CO., -

View of "Napoleon: The Last Phase" in London.

Daily Graphic Says the Author Has Succeeded in Making a Most Interesting Story.

The London Daily Graphic of Nov. 2 publishes a critical review of Lord Rosebery's latest book, "Napoleon: The Last Phase." This book has excited a great deal of comment in England, some of it favorable and some otherwise.

The Graphic says: "That Lord Rosebery has produced a book well worth reading is beyond question. The only doubt that will arise in the mind of many readers is whether it was worth Lord Rosebery's while to produce such a book. For it is only with one phase, and that the least important, of Napoleon's life that Lord Rosebery seriously deals. It is the last phase—the exale in St. Helena. Laboriously has Lord Rosebery collated the memoirs of the many actor

in that phiful and even squalid dram He gives the reasons for discrediting this writer and for crediting that. But when all has been said, what does it amount to? That the prisoner was not treated as an emperor, and that some of the incidents of his confinement were disagreeable. The professed object of the book, Lord Rosebery explains, is to throw light on an obscure period, and to try to ascertain what Napoleon was like when there was no longer any reason for him to act a part.Incidentally, however, this volume clearly shows that a good deal of acting went on at St. Helena, and it is equally evident that some of the qualities which were displayed by Napoleon the exile were not characteristic of Napoleon the emperor. The real reason for the book Lord Rosebery half confesses. He wrote it to entertain his It will certainly entertain the

leasure of many readers. DISCUSSES PRISONER'S TREAT-MENT.

"One grievance, however, will be felt by most English readers. On grounds which seem curtously inadequate, Lord Rosebery has lent his authority to the once popular belief that Napoleon in exile was baddy treated by the British Government. That he was, at any race, better treated by the British government than he would have been by the government of France is indisput-As Lord Rosebery points out, when Napoleon was at Elba the French government not only refused to pay him the annual stipend which it had promised to pay but actually plotted his assassination. Napoleon was fully aware of this, and on one occasion gave as a reason for declining to attempt to escape from St. Helena his conviction that his life would not be sale from French assassins. What the British government did was to confine Napoleon to the Island of St. Helena, with instructions that he should be treated as a general on half pay. Lord Rosebery complains that he was not given the title of emperor. But he was no longer emperor. France, as well as Europe, had rejected him. After his formal abodication in Paris it seems a little palltry on his part to claim the title of emperor in St. Hel-As to his treatment on the island, he was allowed the luxury of a private house, which was not entered except by persons of his own suite, and was provided at the expense of the British taxpayer with an income of £12,000 a year. Lord Rosebery finds this meager, yet he admits that Napo-leon had in addition ample private means both in Paris and in St. Helena, and that the farce he went through of selling part of his plate to prove his poverty was a pure piece of acting. In the same way, his constant complaints about his liver were simply a ruse, payed with the object of getting the British government to transfer him to England, where he wished to live as a country gentleman while preparing for a fresh invasion of France. The autopsy proved that his liver was in perfect condition.

JAILER SHOWS LACK OF TACT. "Nor is it possible entirely to sympathize with the blame that Lord Rosebery heaps upon the head of Sir Hudson Lowe. It is true that Lowe was an exceptionally tactless man, but he at any rate proteted his prisoner from the close supervision which the commissioners appointed by France and Russia and Austria desired to inforce. These commissioners were sent to the island with instructions from their respective governments to satisfy themselves daily of the presence of Bonaparte. The Russian commissioner was explicitly instructed to see the ex-emperor twice every day, 'using force if necessary.' No force could be used, except by Sir Hudson Lowe's permission, and the foreign commissioners, like the British jailer, had to content themselves with prowling about in the neighborhood of Longwood, trying in vain to catch slimpse of the ex-emperor. The glimpse of the ex-emperor.

saw his face for the first time when all plans of escape and all dreams of future conquest had been ended by

52 Colborne St., Toronto, Ont.

"If, however, Napoleon's jailers de-clined to treat him with the respect that he had been able to command at the height of his power, he at least had the consolation of being able to enjoy the almost slavish worship of the few followers who had remained faithful to him. They were as eager to attract his smiles as if the still ruled at the Tuilleries and were as contemptible in their sevility as any of the courtiers of Louis XIV. One of them writes that the felt 'an indescribable emotion on seeing Napoleon rub his stomach with pleasure after a good breakfast. Napoleon himself seems quickly to have adapted himself to the life of comparative idleness that he was compelled to lead. Already before his fall it was evident that the marvelous activity of his youth had given way to the more leisurely movements of a somewhat corpulent middle age. 'At St. Helena,' writes Lord Rosebery, his lethargy amazed himself. He spends hours in his bed and hours in his bath. He soon ceases to dress till late in the afternoon. He is surprised to find that he is happiest in bed-he, for whom the whole day had once been all too short.' Yet he never ceased to require the most punctilious from his little court, and often kept his followers standing for hours on end, till they nearly dropped with fa-

THEATRICAL TO THE END. "His love of theatrical effects is well brought out in his conversations. He would, for example, officen discuss at what point in his career he ought to have died. He was fond, also, of fighting over again his old campaigns and speculating as to what would have happened if he had followed some other course. Again and again he regrets his thi-success in Egypt. 'France mistress of Egypt would be mistress of India. This was one of the grand projects I aimed at.'

"The final chapters of the book are those in which Lord Rosebery most reveals his own personality. He there drops the gossip of Longwood in order to attempt a general survey of Na-poleon's career, and though all readers will not be willing to accept Lord Rosebery's conclusions, they will re-cognize the insight that lies behind them. The following passage, in which Lord Rosebery rapidly sums up the salient features of a marvelous career,

may well conclude this notice: Into a career of a score of years he crowded his own dazzling career, his conquests, his triumphant assault on the old world. In that brief space we see the lean, hungry conquerer swell into the sovereign of sovereigns. Then comes the catastrophe. He loses the balance of his judgment and becomes a curse to his own country and to all others. He cannot be still himself or give mankind an instant of repose. neighbors' bandmarks become playthings to him; he cannot leave them alone; he manipulates them for the mere love of moving them. His ustand enemy is on his nerves; he sees her everywhere; he strikes at her blindly and wildly. And so he produces universal unrest, universal hostidity, the universal sense of his incompatibility with all established so-
