## SLEEP DISTURBED

By Sudden Startings and Jerkings of the Limbs-Restlessness and Wakefulness Symptoms of Nervous Ex-

### DR. CHASE'S NERVE FOOD.

Twitchings of the muscles of the face, sensitiveness to light, sound and motion, grinding teeth during sleep, continual movement or tapping of the fingers, neuralgic headache, sparks before the eyes, disorders of sight and hearing and feelings of discouragement, languor and despondency other indications of a weak and exhausted nervous system. Plenty of people put up with these

symptoms, in the vain hope that they will pass off, and that old-time health and vigor will return. Alas, nervous disorders do not right themselves. Nervous prostration and collapse. epilepsy, paralysis, locomotor ataxia, and even insanity itself, are but further developments of nervous exhaustion. The symptoms mentioned above come as a warning to you to rebuild the wasted nerve cells and rekindle the vital spark of nerve energy which

is fast becoming depleted.

Mrs. John Beaton, 148 Mill street. London, Ont., and whose husband is a bookkeeper, states: "I was very ner-yous, could not sleep and was troubled a great deal with neuralgic pains in my head. After having used Dr. Chase's Nerve Food for some time, I am pleased to state that my nervous system has been very much benefited. I do not

#### THE OLD, OLD TACTICS

Conservatives in Quebec Working Up the Racial Feeling.

Raymond Prefontaine in Maisonneuve the Conservatives are trying once more to arouse racial feelings by urging that nia for many years. the interests of French-Canadians have been sacrificed by Sir Wilfrid Laurier. Mr. F. D. Monk, M.P., the Conservative leader for the province, stated today that this was not an ordinary case of a new minister returning to his constituents for re-election. "There is, in my opinion," he said, "a question of capital importance. Is it just to deprive the Province of Quebec at the present moment of this department of works, or to cut it up in such a way as to take away all its usefulness? This department of public works is essentially the work of Quebec ministers, built up for years with patience and skill. I believe that the electors of Maisonneuve will not approve of all Government a lesson it will be an excellent opportunity."

## Letters to the Editor.

SHOE STORE SALESPEOPLE AND SHORTER WORKING HOURS. To the Editor of The Advertiser:

Two years ago the shoe clerks induced their employers to meet and consider the early closing movement. There were several meetings held at a eading shoe store by the merchants, who agreed amongst themselves to adopt the requests of their employes. and resolved to close their stores at 6 p.m. each day, Saturday excepted, Ninety per cent of our shoe merchants kept the agreement faithfully, but you find truth in the old saying, "There is an exception to every rule, since the days of the Apostles. In this case the word "exception" seems mild. "Deception" is more to the point.
The shoe clerks will ask the good citizens of London and the working

people in particular, to support the merchants who are endeavoring to sustain the early closing movement. It is needless to name the shoe merchants who keep their stores open for business every night, as you can see them for yourself any night on Dundas street. The excuse given by them is, that they don't ask their elerks to remain, or they have something to do that they were unable to attend to

during the day.

The old abuse of keeping stores open have those dreadful headaches, and am at night is still in vogue in many towns able to get a good night's sleep. We have also used Dr. Chase's Ointment for instance, shoe stores are kept open in our family for skin diseases, and every night in the week until 10 found it to be an excellent remedy." o'clock. This method certainly adds Dr. Chase's Nerve Fod is composed a lot of drudgery and deprives people of nature's most powerful restoratives of their home comforts and the better and nerve invigorators; 50 cents a box, side of life's pleasures. # AT FIRST GLANCE

It Would Appear That Local Remedies Would Be Best for Cure of Catarrh.

It would seem at first glance that catarrh being a disease of the mucous Patrick and a sister and also Mr. membrane, that salves, sprays, etc., being applied directly to the membranes or the nose and throat, would be the most rational treatment, but this has been proven not to be true. The mucous membrane is made and repaired from the blood and catarrn is a blood disease and any remedy to make a permanent cure must act on the blood, and when the blood is purified from catarrhal poison, the secretions from the mucous membrane will

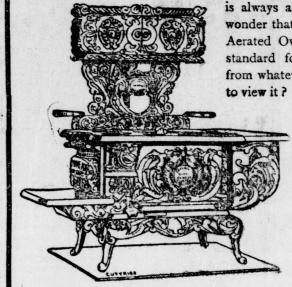

become natural and healthy. In this climate, thousands of people seem scarcely ever free from some form of catarrh; it gets better at times but each winter becomes gradually deeper seated, and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inonvenience and failure to really cure. There are a number of excellent internal remedies for catarrh, but probably the best and certainly the safest is a new remedy, composed of Red Gum, Blood Root and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these tablets with absolute assurance that they contain no cocaine, opiate nor any poisonous mineral whatever.

A leading druggist in Albany, speaking of catarrh cures, says: "I have pou sold various catarrh cures for years, but have never sold any which gave pleasant, concentrated form all the best and latest catarrh remedies, and catarrh sufferers who have used douches, sprays and salves have been astonished at the quick relief and perastonished at the quick relief and perastonished after a manent results obtained after a manent results obtained after a Part of the Welsh coal has arrived Parliament Buildings, Toronto, Nov.
