STOCK MARKETS.

New York, March 5-Noon.—After a somewhat uncertain opening, today's market developed firmness, and it was noteworthy that there was nothing like the pressure to sell that characterized yesterday's market. Apparently the short interest had reached larger proportions than most people had any idea of, and the recovery was due rather to the retreat of this short interest than to any buying, either by outsiders or by leading interests in the street. Money remains practically unchanged, call money ranging around 5 to 5½ per cent. There is, however, a marked discrimination on the part of lenders of time money as to collateral. #### Only a Little Cold often

Colds are dangerous things to trifle with. They hang on and on, and people keep putting off curing them, until that stuffy feeling in the nose proclaims that catarrh has developed. Stop the cold while it is only a cold. Japanese Catarrh Cure instantly relieves "cold in the head." The balmy, aromatic pomade soothes and heals the inflammed surfaces, clears the air passages, and arrests the development of the trouble. The treatment is so pleasant and so simple, that Japanese Catarrh Cure holds first rizes in thousands of homes throughout the Dominion.

Mr. Alex Markes of New Westminster, B.C., writes—I was for some weeks suffering from a cold in the head, which was apparently developing into Catarrh. I purchased a box of Japanese Cutarth Cure and in less than two days, the Touble entirely disappeared. I can highly recommend it: the first application relieves."

All druggis's sell it at 50c. a box or six for \$2.50.

ASSETS ...... \$34,000,000 00 IF YOU WERE GOING TO LEND

your neighbor some of your funds, you would surely investigate his position and satisfy yourself that the advance, if made, would be repaid at maturity. When you lend it to a bank, why not do likewise? Ask for all necessary particulars, study its past history, its present position, its capital, its reserve, etc. These figures may be

obtained by a reference to its advertisements, etc. THEN AGAIN, if your neighbor offered you a rate of interest for your money that was higher than current rates, you would be led to the conclusion, and properly so, that the risk you were being asked to take was above the average. If a bank offers you special inducements in order to attract a loan from you, why not reach the same conclusion. As a rule the higher the rate the greater the risk taken. We allow 3 per cent on deposits.
